

Royce's Mature Ethics

FRANK M. OPPENHEIM

Royces Mature Ethics

Jacquelyn Ann K. Kegley

Royces Mature Ethics:

Royce's Mature Ethics Frank M. Oppenheim, 1993 This work interprets the philosophy of Josiah Royce in terms of his mature ethics It draws upon a range of his unpublished papers and lecture notes

Josiah Royce for the Twenty-first Century Kelly Parker, Krzysztof Skowronski, 2012-03-22 The sixteen chapters of Josiah Royce for the Twenty first Century are papers from the Fourth Annual Conference on American and European Values International Conference on Josiah Royce held at the Institute of Philosophy University of Opole Poland in June 2008 The presentation of diverse perspectives and the development of many distinctive promising strands of inquiry from the spring of Royce's work establish that Royce offers significant resources for a number of areas of contemporary philosophy The book is organized into four parts I Historical Reinterpretations II Ethics Interpretations of Loyalty III Religious Philosophy and IV Contemporary Implications Section I considers Royce's position in the history of ideas with papers on his account of individuation his expansion on a key idea from Kant his use and contribution to mathematical and philosophical conceptions of the infinite and the absolute and his adaptation of Peircean semiotics Sections II and III consist of focused readings of Royce's work regarding ethics and religious philosophy respectively Section IV is the most diverse in the topics covered with papers that bring Royce into contemporary discussions of psychology of the problem of reference of Rortyan neo pragmatism and of literary aesthetics The purpose of the Opole conference was to elicit fresh perspectives on the work of Josiah Royce from an international group of contributors This collection achieves that aim by presenting new approaches to relatively familiar writings by drawing out promising implications of Roycean themes and by making genuinely new applications of his ideas Josiah Royce for the Twenty first Century presents a rich interaction among a diverse mix of commentators who retrieve and construct promising new insights from the work of one of America's greatest thinkers

Royce's Mature Philosophy of Religion Frank M. Oppenheim, 1987

Reverence for the Relations of Life Frank M. Oppenheim, S.J., 2016-12-15 Josiah Royce and William James lived in Cambridge Massachusetts on Irving Street just two doors apart and Charles Peirce grew up only blocks away John Dewey was born and educated in nearby Vermont These four great thinkers shared more than geographic space they engaged in a series of formative philosophical discussions By tracing the interactions of Royce 1855-1916 with James Peirce and Dewey Oppenheim reimagines pragmatism in a way that highlights the late Royce's role as mediator and favors the seed plant image of O. W. Holmes Jr. over the corridor image of Papini Josiah Royce emphasized that communities of all sizes ranging from families to towns needed reverence for the relations of life not only to thrive but to survive This theme permeates the dialectic of Royce's interactions with Peirce James and Dewey Oppenheim analyzes the agreement and disagreement of these thinkers on the method and content of philosophy skepticism and intelligibility and nominalism and intentionality as he uncovers their varied stances toward transcendent Reality Oppenheim repudiates Ralph Barton Perry's tactic of using Royce as a foil to display James positively by offering a richer portrait of Royce Oppenheim calls attention to

Royce's doctrine of two levels and its effects on the distinction of human and super human by showing the contrast of Royce's third attitude of will against two primarily self-centered attitudes of will and by examining the roles of Spirit, Community and semiotic process in Royce's late thought *Josiah Royce in Focus* Jacquelyn Ann K. Kegley, Richard B.

Gunderman, 2008-10-17 This new approach to Josiah Royce shows one of American philosophy's brightest minds in action for today's readers. Although Royce was one of the towering figures of American pragmatism, his thought is often considered in the wake of his more famous peers. Jacquelyn Ann K. Kegley brings fresh perspective to Royce's ideas and clarifies his individual philosophical vision. Kegley foregrounds Royce's concern with contemporary public issues and ethics, focusing in particular on how he addresses long-standing problems such as race, religion, community, the dangers of mass media, mass culture, and blatant individualistic capitalism. She offers a deep and fruitful philosophical exploration of Royce's ideas on conflict resolution, memory, self-identity, and self-development. Kegley's keen understanding and appreciation of Royce reintroduces him to a new generation of scholars and students.

The Routledge Handbook of Idealism and Immaterialism Joshua Farris, Benedikt Paul Göcke, 2021-09-12 The influence of materialist ontology largely dominates philosophical and scientific discussions. However, there is a resurgent interest in alternative ontologies from panpsychism, the view that at the base of reality exists potential minds, minds or mind, to idealism and dualism, the view that all of reality is material and mental. The Routledge Handbook of Idealism and Immaterialism is an outstanding reference source and the first major collection of its kind. Historically grounded and constructively motivated, it covers the key topics in philosophy, science, and theology, providing students and scholars with a comprehensive introduction to idealism and immaterialism. Also addressed are post-materialism, developments with explicit attention to variations of idealism and immaterialism, the view that reality depends on a mind or a set of minds. Comprising 44 chapters written by an international and interdisciplinary team of contributors, the Handbook is organized into five clear parts: Idealism and the history of philosophy; Important figures in idealism; Systematic assessment of idealism; Idealism and science; Idealism, physicalism, panpsychism, and substance dualism. Essential reading for students and researchers in metaphysics, philosophy of science, philosophy of religion, and philosophy of mind, The Routledge Handbook of Idealism and Immaterialism will also be of interest to those in related disciplines where idealist and immaterialist ontology impinge on history, science, and theology.

Time, Will, and Purpose Randall Auxier, 2013-12-10 Josiah Royce (1855-1916) has had a major influence on American intellectual life, both popular movements and cutting-edge thought, but his name often went unmentioned while his ideas marched forward. The leading American proponent of absolute idealism, Royce has come back into fashion in recent years. With several important new books appearing, the formation of a Josiah Royce Society, and the reorganization of the Royce papers at Harvard, the time is ripe for *Time, Will, and Purpose*. Randall Auxier delves into the primary texts written by Royce to retrieve the most poignant ideas, the ideas we need most in the present day, while he also offers a new framework for understanding the development of Royce's

philosophy Auxier responds to everything that has been written about Royce both early and recent **Dictionary of World Biography: The 20th century, O-Z** Frank Northen Magill, Christina J. Moose, Alison Aves, 1999-11 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography **The 20th Century O-Z** Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

American Philosophy and Rudolf Steiner Robert A. McDermott, 2012-12 Few thinkers from outside the United States have touched American culture in as many ways as Rudolf Steiner Agriculture education spirituality and medicine or more precisely alternative practices in these fields all bear clear marks of his influence for those with eyes to see Yet the very breadth of Steiner's impact has perhaps made him harder not easier for observers of American culture to notice American Philosophy and Rudolf Steiner aspires to raise Steiner's profile by digging into just one field of inquiry philosophy Before he became known to the world as a transmitter of clairvoyant wisdom Steiner was an academic philosopher editor of the scientific writings of Goethe and author of a foundational work in philosophy The Philosophy of Freedom The Basis for a Modern Worldview published in 1894 That book expressed in philosophical terms many of the ideas that would later emerge as integral to the spiritual science of Anthroposophy Though the authors cover a wide range of topics most share an elegiac tone They see great potential for dialogue between Rudolf Steiner and the great American philosophers of the nineteenth and early twentieth centuries American philosophy may have taken a wrong turn in the mid twentieth century when pragmatism gave way to a tradition of analytical philosophy that eschewed metaphysics as inherently meaningless and focused on the coherence or incoherence of linguistic structures Nonetheless many new sites of potential dialogue exist between Steiner and American philosophy Five of the articles in this volume were written as part of a seminar on Rudolf Steiner and American Thought as part of a Project for the Renewal of Philosophy Science and Education sponsored by Laurance S Rockefeller The contributors David Ray Griffin Gertrude Reif Hughes Frank M Oppenheim S J Douglas Sloan and Robert McDermott were originally published in ReVision A Journal of Consciousness and Transformation spring and summer 1991 **Yes, But Not**

Quite Dwayne A. Tunstall, 2009-08-25 This book contends that Josiah Royce bequeathed to philosophy a novel idealism based on an ethico religious insight This insight became the basis for an idealistic personalism wherein the Real is the personal and a metaphysics of community is the most appropriate approach to metaphysics for personal beings especially in an often impersonal and technological intellectual climate The first part of the book traces how Royce constructed his idealistic personalism in response to criticisms made by George Holmes Howison That personalism is interpreted as an ethical and panentheistic one somewhat akin to Charles Hartshorne s process philosophy The second part investigates Royce s idealistic metaphysics in general and his ethico religious insight in particular In the course of these investigations the author examines how Royce s ethico religious insight could be strengthened by incorporating the philosophical theology of Dr Reverend Martin Luther King Jr and Emmanuel Levinas s ethical metaphysics The author concludes by briefly exploring the possibility that Royce s progressive racial anti essentialism is in fact a form of cultural antiblack racism and asks whether his cultural antiblack racism taints his ethico religious insight Genuine Individuals and Genuine Communities Jacquelyn Ann K.

Kegley, 1997 A cogent blueprint for the development of a public philosophy that integrates shared principles and values into our troubled social structure and articulates a consensus vision of society s future The continuing vitality of American thought stems to a large extent from the application of its historical roots embedded in contemporary problems and issues Yet for some time the signal contributions of Josiah Royce 1855 1916 have been overlooked in the formulation and shaping of critical areas of public policy In this brilliantly articulated new book ethicist Jacquelyn Kegley carefully explicates and enlarges the scope of Roycean thought and shows that Royce s views on public philosophy have direct and valuable application to current social problems Working from the assumption that issues of family education and health care are not merely exigent political tempests but areas of genuine long lasting concern Kegley opens fresh perspectives on Royce s philosophy by introducing and applying his ideas to discussions of how we care for ourselves and our society today She analyzes Roycean criteria that can be successfully used to nourish developmental stages within families promote intellectual and social growth in schooling and scholarship and sustain physical and mental well being throughout the life cycle Genuine Individuals and Genuine Communities should be a springboard for the reassessment of contemporary public policy and the reapplication of the American philosophical legacy to current issues and decisions Kegley s work serves as a solid contribution both to public philosophy and to the continued vitality of American thought and it extends the range of both

Suffering and Salvation in Ciudad Jurez Nancy Pineda-Madrid, 2011-06 Nancy Pineda Madrid re conceives traditional Christian notions of salvation by closing attending to the experience of the embattled women of Ciudad Ju rez in Mexico where hundreds have been slain and where survivors have found healing and salvation in solidarity and community practices that resist rather than acquiesce in the violence *The Sheed and Ward Anthology of Catholic Philosophy* James C.

Swindal, Harry J. Gensler, SJ, 2005-09-01 The Sheed Ward Anthology of Catholic Philosophy is a thorough introduction to the

evolution of Catholic philosophy from Biblical times to the present day The first comprehensive collection of readings from Catholic philosophers this volume aims to sharpen the understanding of Catholic philosophy by grouping together the best examples of this tradition both well known classics and lesser known selections The readings emphasize themes integral to the Catholic tradition such as the harmony of faith and reason the existence and nature of God the nature of the human person and the nature of being and the objectivity of the moral law Each reading includes a brief introduction and is historically placed within five major groups 1 Preliminaries including readings from the Bible Plato and Aristotle 2 The Patristic Era selections from Aristides to Boethius and a heavy focus on Augustine 3 The Middle Ages readings from the early Moslem and Jewish thinkers to William of Ockham with an emphasis on Aquinas 4 The Renaissance through the Nineteenth Century including Suarez Descartes Pascal Newman and Pope Leo XIII and 5 The Twentieth Century and Beyond including Maritain and Lonergan Blondel and Marcel Geach and Rescher and others like Chesterton and Teilhard

Transforming Faith Joshua Leonard Daniel, 2015-09-09 In the face of apparently rampant individualism there has been a steady call for a return to community and tradition particularly in religious communities and in recent Christian theology and ethics The form of contemporary life upheld by modern ideals like freedom and universalism the story goes turns out to divide people from each other and from the communal sources of our traditionally moral values But the call to community too often confuses individualism with individuality assuming that any appeal to individuality as a value or ideal is a rejection of communal goods rather than a mode of promoting those goods What s necessary now is a recovery of the individual that understands individuality to serve community even in resistance to it In Transforming Faith Joshua Daniel offers a fresh reading of H Richard Niebuhr s theological ethics that provides an account of individuality and individual creativity as both the fruits and reformers of community What is theologically at stake in Daniel s reconstructive interpretation is the human s existentially resonant relation with God and the christological revitalization of our symbolic and virtuous activity

Pragmatism and Objectivity Sami Pihlström, 2017-02-17 Pragmatism and Objectivity illuminates the nature of contemporary pragmatism against the background of Rescher s work resulting in a stronger grasp of the prospects and promises of this philosophical movement The central insight of pragmatism is that we must start from where we find ourselves and deflate metaphysical theories of truth in favor of an account that reflects our actual practices of the concept Pragmatism links truth and rationality to experience success and action While crude versions of pragmatism state that truth is whatever works for a person or a community Nicholas Rescher has been at the forefront of arguing for a more sophisticated pragmatist position According to his position we can illuminate a robust concept of truth by considering its links with inquiry assertion belief and action His brand of pragmatism is objective and organized around truth and inquiry rather than other forms of pragmatism that are more subjective and lenient The contingency and fallibility of knowledge and belief formation does not mean that our beliefs are simply what our community decides or that truth and objectivity are spurious notions Rescher offers the best chance of

understanding how it is that beliefs can be the products of human inquiry yet aim at the truth nonetheless The essays in this volume written by established and up and coming scholars of pragmatism touch on themes related to epistemology philosophy of mind philosophy of science and ethics

The Problem of Christianity Josiah Royce, 2001 Josiah Royce's late masterpiece *The Problem of Christianity* is based on a series of lectures he delivered at Manchester College Oxford in 1913 It presents his philosophical interpretation of Christianity's fundamental ideas community sin atonement and saving grace shows their relevance to the current confluence of world religions and grounds his position upon a personal transformation into genuine loyalty toward the community of the entire human family *The Problem* opens up a mine of surprising treasures while its prophetic voice speaks to contemporary issues and current movements in ecumenics and inter religious dialogue Frank M Oppenheim's new introduction highlights its relevance to some of the pressing problems of the new century A notable contribution to the interpretation of Christian ideas *The Nation* Royce has contributed largely to the treasures of religious thought *New York Times*

The Life and Thought of Josiah Royce John Clendenning, 1999 Now back in print *The Life and Thought of Josiah Royce* reappears in a substantially rewritten and expanded edition of the first comprehensive biography originally published to great acclaim in 1985 Several years later a large collection of previously unknown and unpublished correspondence and other materials was discovered This newly discovered material has allowed Clendenning to probe deeper into Royce's personal professional and philosophical lives and to strengthen his findings The result is an even more revealing portrait of this remarkable intellectual figure

The Relevance of Royce Kelly A. Parker, Jason Bell, 2014-02-03 This collection represents the rediscovery of Josiah Royce's rich legacy that has occurred over the past decade The first part presents a series of historical explorations The second takes up practical extensions of Royce's work bringing his ideas and methods to bear on contemporary philosophical matters Among the topics addressed are the paradoxes of individualism loyalty democracy and community Royce's efforts to respond to historical American racism his contributions to engaged inter faith religious discourse the promise of his theory of error for a feminist account of knowledge and his ethics of loyalty as a component in medical ethics

Mind, Brain and the Elusive Soul Mark Graves, 2016-04-22 Does science argue against the existence of the human soul Many scientists and scholars believe the whole is more than the sum of the parts This book uses information and systems theory to describe the more that does not reduce to the parts One sees this in the synapses or apparently empty gaps between the neurons in one's brain where informative relationships give rise to human mind culture and spirituality Drawing upon the disciplines of cognitive science computer science neuroscience general systems theory pragmatic philosophy and Christian theology Mark Graves reinterprets the traditional doctrine of the soul as form of the body to frame contemporary scientific study of the human soul

This is likewise one of the factors by obtaining the soft documents of this **Royces Mature Ethics** by online. You might not require more get older to spend to go to the ebook inauguration as without difficulty as search for them.
