Peripheral Transmodernities Ignacio López-Calvo, 2012-01-24 This volume is a collection of essays dealing with the critical dialogue between the cultural production of the Hispanic Latino world and that of the so called Orient or the Orient itself including the Asian and Arab worlds As we see in these essays the Europeans cultural others peripheral nations and former colonies have established an intercultural and intercontinental dialogue among themselves without feeling the need to resort to the center metropolis mediation These South to South dialogues tend not to be as asymmetric as the old dialogue between the former metropolis the hegemonic Eurocentric center and the colonies These essays about Hispanic and Latino cultural production most of them dealing with literature but some covering urban art music and film provide vivid examples of de colonizing impetus and cultural resistance In some of them we can find peripheral subjectivities perception of other peripheral racialized and post colonial subjects and their cultures **A Bibliography of the Rubáiyát of Omar Khayyám**

Ambrose George Potter, 1929 Argentinean Literary Orientalism Axel Gasquet, 2020-11-24 This book examines the modes of representation of the East in Argentinean literature since the country's independence in works by canonical authors such as Esteban Echeverría Juan B Alberdi Domingo F Sarmiento Lucio V Mansilla Pastor S Obligado Eduardo F Wilde Leopoldo Lugones and Roberto Arlt The East which has always fascinated intellectuals and artists from the Americas inspired the creation of imaginary elements for both aesthetic and political purposes from the depiction of purportedly despotic rulers to a genuine admiration for Eastern history and millennial cultures These writers appropriated the East either through their travels or by reading chronicles integrating along the way images that would end up being universalized by the Argentinean dichotomy between civilization and barbarism all the while assigning the negative stereotypes of the exotic East to the Pampa region With time the exoticism of the Eastern world would shed its geopolitical meaning and was ultimately integrated into the national literature thus adding new elements into the Argentinean imaginary *Cvltvra*, 1916 **El**

de oriente Axel Gasquet, 2017-11-23 El llamado de oriente estudia los discursos producidos por la intelectualidad argentina sobre los pueblos y culturas de Oriente durante la primera mitad del siglo XX. Numerosos hombres de letras, especialistas, reporteros políticos y universitarios se interesan por los temas orientales en sus aspectos literarios, culturales, filosóficos, sociológicos, políticos, históricos. El conjunto de estos escritos conforman una constelación abigarrada de discursos sobre Oriente producidos en forma sucesiva o simultánea y a menudo con posicionamientos contradictorios que constituyen la prueba de un creciente interés por la realidad del mundo oriental a inicios del siglo XX. Dicha preocupación fue considerada hasta poco tiempo antes como un fenómeno cultural cuya existencia era en gran medida ajena a la realidad argentina y sudamericana. La presente obra examina los numerosos escritos sobre Oriente de unos quince intelectuales de la época: Jorge Estrada, Ernesto Quesada, Joaquín V. González, Carlos Muzzio, Senz Peña, Carlos A. Aldao, Arturo Capdevilla, Ivano Melián, Lafinur, Víctor Mercante, Juan Filloy, Emir Emin, Arslan, Manuel Gálvez, Delfina Bunge, Vicente Fatone, Ramón Muñiz, Lavalley y Alberto Marín. Candioti. Su propósito no es confeccionar un catálogo de los escritos de temática oriental, sino desprender una visión de conjunto del fenómeno para comprender mejor el alcance histórico y cultural de la literatura argentina. Esta investigación explora las coordenadas generacionales de este debate cartografiando un nuevo capítulo de la historia cultural nacional y americana.

El porvenir del pasado César Augusto Ayala Diago, 2007 *Introducción a los estudios de traducción* Lucía V. Aranda, 2016-01-11 Introducción a los estudios de traducción presenta nociones clave relativas a los estudios de traducción tales como autoría, intraducibilidad, cuestiones de género, paratextualidad o invisibilidades, así como el papel de la traducción en la colonización y formación de literaturas. Aunque en principio se concibió como una versión extendida en español de Handbook of Spanish English Translation, este libro se nutre de una amplia variedad de ejemplos de las Américas, Europa, Asia y Oceanía para proporcionar al lector una visión esclarecedora de la historia de los estudios de traducción alrededor del mundo. Además se subrayan los nombres más sobresalientes en el campo de la traducción y se habla del papel fundamental que la traducción ha jugado en la creación de cultura e identidad. Esta publicación también abarca conceptos generales sobre interpretación y traducción audiovisual y presenta una serie de retos relativos a la traducción específicamente entre español e inglés.
