Rubens: the Antwerp Altarpieces ... John Rupert Martin, 1969 **Rubens** Associate Professor of Linguistics J R Martin, Rubens, 1969-04 **Rubens, the Antwerp Altarpieces** Peter Paul Rubens, 1969 *Rubens' "Raising of the Cross" and "Descent from the Cross"*, 2015-03-11 Seminar paper from the year 2015 in the subject Art Visual artists grade 1 5 University College Dublin language English abstract When looking at research done about Peter Paul Rubens one can not get around a thesis that has been raised by many scholars over the years Two major altarpieces namely the Raising of the Cross from 1610 1611 and Descent from the Cross from 1611 1614 have been seen as opposing artworks and stand as surrogates for his Baroque and Classical phase respectively How come these two artworks finished only a few years apart from each other gave way to such a big divide Is there knowledge to be gained by using traditional stylistic terms to separate Rubens workflow into phases This paper will explore the divide of the two altarpieces and provide a cohesive analysis of differences similarities influences and innovation Starting with a short introduction to the historical background a short description is provided to lead into a selective comparison *Rubens. The Antwerp Altarpieces. The Raising of the Cross. the Descent from the Cross. With Source Material and Selected Critical Writings* John Rupert Martin, 1969 **Rubens and the Eloquence of Drawing** Catherine H. Lusheck, 2017-08-07 Rubens and the Eloquence of Drawing re examines the early graphic practice of the preeminent northern Baroque painter Peter Paul Rubens Flemish 1577 1640 in light of early modern traditions of eloquence particularly as promoted in the late sixteenth and early seventeenth century Flemish Neostoic circles of philologist Justus Lipsius 1547 1606 Focusing on the roles that rhetorical and pedagogical considerations played in the artist s approach to disegno during and following his formative Roman period 1600 08 this volume highlights Rubens s high ambitions for the intimate medium of drawing as a primary site for generating meaningful and original ideas for his larger artistic enterprise As in the Lipsian realm of writing personal letters the humanist activity then described as a cognate activity to the practice of drawing a Senecan approach to eclecticism a commitment to emulation and an Aristotelian concern for joining form to content all played important roles Two chapter long studies of individual drawings serve to demonstrate the relevance of these interdisciplinary rhetorical concerns to Rubens s early practice of drawing Focusing on Rubens s *Medea Fleeing with Her Dead Children* Los Angeles Getty Museum and *Kneeling Man* Rotterdam Museum Boijmans Van Beuningen these close looking case studies demonstrate Rubens s commitments to creating new models of eloquent drawing and to highlighting his own status as an inimitable maker Demonstrating the force and quality of Rubens s intellect in the medium then most associated with the closest ideas of the artist such designs were arguably created as more robust pedagogical and preparatory models that could help strengthen art itself for a new and often troubled age **Rubens and the Counter Reformation** Thomas L. anyone with an interest in the ecclesiastical development of western Europe from the thirteenth to the eighteenth centuries
