Rubian Foreign Policy In Transition Concepts And Realities:

Africa and the Global System of Capital Accumulation Emmanuel O Oritsejafor, Allan D. Cooper, 2021-04-17 Africa and the Global System of Capital Accumulation offers a groundbreaking analysis of the strategic role Africa plays in the global capitalist economy The exploitation of Africa s rich resources as well as its labor make it possible for major world powers to sustain their authority over their own middle class populations while rewarding African collaborators in leadership positions for subjecting their populations into poverty and desperation Middle class obsessions such as computers mobile phones cars and the petroleum that fuels them diamonds chocolate all of these products require African resources that are typically obtained by child or slave labor that helps to generate billionaires out of foreign investors while impoverishing most Africans Oritsejafor and Cooper demonstrate that primitive accumulation believed by both Adam Smith and Karl Marx to be a process that precedes capitalism is actually an integral part of capitalism They also validate the thesis that capitalism incorporates racism as an organizing tool for the exploitation of labor in Africa and on a global scale Case studies are presented on Nigeria Cote d Ivoire Ghana Liberia Congo Tanzania Somalia Angola Namibia Sao Tome and Principe and South Sudan There are also chapters analyzing the interests of Russia and China in Africa This book will be of interest to students and scholars of African politics development and economics

U.S. Conflicts in the 21st Century Spencer C. Tucker, 2015-12-14 This three volume reference work provides an up to date presentation and analysis of the U S wars of the 21st century addressing their backgrounds causes courses and consequences It serves as an indispensable resource for students seeking to understand the role of the United States in the world today Addressing the U S conflicts in Iraq Afghanistan and the Global War on Terror from the year 2001 to the present this comprehensive three volume encyclopedia covers the significant individuals key events and important places involved in these recent military events Beginning with the rise of Al Qaeda in the 1990s and the attacks on September 11 2001 and covering events through ISIS s dramatic surge in Iraq and Syria the hundreds of detailed entries also examine historical trends nations and ethnicities involved in the conflicts influential figures and organizations economic political diplomatic and cultural influences wars campaigns and battles and important weapons systems The set s A Z organization makes it an easy to use ready reference for high school and college students Perspective essays on several controversial topics such as the use of torture and the effects of the Patriot Act serve to inspire readers to apply critical thinking A detailed chronology is provided to help students place all the important events that have occurred in the Afghanistan War Iraq War and War on Terror Each of the chronologically arranged primary documents is introduced with a brief overview to provide important background information and context

Memory and Securitization in Contemporary Europe Vlad Strukov, Victor Apyrshchenko, 2018-01-24 The volume is the first study to explore the intersection of memory and securitisation in the European context By analysing a variety of practices ranging from film to art and new media the book expands the existing theoretical framework of securitisation The authors consider memory as a precondition for

contemporary integration projects such as the European Union and also showcase how memory is used to stage international conflicts Following this memory securitisation nexus the European Union and Europe more generally emerges as an on going cultural political and social project The book also examines developments outside the EU such as the conflict in Ukraine and the creation of the Eurasian Economic Union which the authors argues have a profound impact on Europe From a consideration of historical contexts such as national referenda the discussion proceeds to media and film analysis artistic practice and more transient phenomena such as climate change

Conflict Prevention from Rhetoric to Reality Albrecht Schnabel, David Carment, 2004-01-01 Together with local actors many governments regional organizations and the UN are embracing preventive action as a viable path towards sustainable peace The contributions to this volume trace conflict prevention efforts in various regional contexts and explain how preventive thinking is being successfully mainstreamed into the activities of regional organizations and the UN

Neutrality and Vulnerable States Nasir Andisha, 2020-10-08 This book offers a timely and concise academic and historical background to the concept and practice of neutrality a relatively new phenomenon in foreign and security policy It approaches two key questions under what circumstances can permanent neutrality be applied and what are the main ingredients of success and the causes of failure in applying permanent neutrality By evaluating comparing and contrasting the two successful European case studies of Austria and Switzerland and the two challenging Asian case studies of Afghanistan and Laos the author creates a new framework of analysis to explore the feasibility of reframing adopting and applying a policy of neutrality and jump start debates on the feasibility of the idea of new neutrality He opens the debate by asking whether as neutrality successfully functioned as a conflict resolution tool during the Cold War a reframed and adopted version of neutrality could also serve the needs of the twenty first century world order This is an insightful book for all scholars students and policymakers working in international relations security studies the history of neutrality and Afghanistan studies

The Freedom of Security Colleen Bell, 2011-05-16 From Guantamo Bay to the war in Iraq post 9 11 security measures have sparked fears that the West is violating the very civil rights and freedoms it claims to protect This debate is focused on the United States but how have the politics of security influenced the commitment to freedom in other liberal democracies Colleen Bell argues that Canada's counter terrorism practices should not be framed as a departure from liberal governance in which freedom is traded for security but rather as a restructuring of modalities of governance through the framework of security Addressing issues such as security certificates the war in Afghanistan and the detainment and torture of Abdullah Almalki in Syria Bell demonstrates that security measures are not simply eroding civil liberties they are also fundamentally reshaping ideas and practices of freedom This trenchant examination of Canada's War on Terror exposes how the logic and practices of security are increasingly coming to define our rights and freedoms

Theory and Application of the "Generation" in International Relations and Politics B. Steele, J. Acuff, 2011-12-15 The generation has been largely forgotten in the fields of sociology and political science especially

regarding global politics This volume re engages the concept of a generation utilizing it to explore how it can help us understand a variety of processes and patterns in International Relations and Comparative Politics **Sustainable Building and Built Environments to Mitigate Climate Change in the Tropics** Tri Harso Karyono, Robert Vale, Brenda Vale, 2017-02-21 This book offers a selection of the best papers presented during the International conference on Mitigating and Adapting Built Environments for Climate Change in the Tropics held at Tanri Abeng University TAU Jakarta Indonesia March 2015 The book is divided into four main parts The first part deals with the general issue of climate change the cause and the ways to mitigate and to adapt the built environment for climate change in a number of countries Part 2 deals with the conceptual ways to mitigate building for climate change The ways to reduce cooling energy in tropical buildings by means of passive design Part 3 offers papers that examine the way to overcome disasters in the city caused by climate change The final part deals with the role of plants in mitigating and adapting built environments to climate change the use of plants trees and bushes to directly and indirectly reduce carbon emissions are discussed The Publishers' Trade List Annual ,1989

Monthly Catalog of United States Government Publications ,1989 *NATO's Democratic Retrenchment* Henrik B.L. Larsen, 2019-07-02 Exploring NATO's post Cold War determination to support democracy abroad this book addresses the alliance's adaptation to the new illiberal backlashes in Eastern Europe the Western Balkans and Afghanistan after the alleged return of history The book engages the question of what has driven NATO to pursue democratisation in face of the significant region specific challenges and what can explain policy expansion or retrenchment over time Explaining NATO's adaptation from the perspective of power dynamics that push for international change and historical experience that informs grand strategy allows wider inferences not only about democratisation as a foreign policy strategy but also about the nature of the transatlantic alliance and its relations with a mostly illiberal environment Larsen offers a theoretical conception of NATO as a patchwork of one hegemonic and several great power interests that converge or diverge in the formulation of common policy as opposed to NATO as a community of universal values This volume will appeal to researchers of transatlantic relations NATO's functional and geographical expansion hegemony and great power politics democracy promotion lessons of the past Neoclassical Realism alliance theory and the crisis of the liberal world order Implementing Sustainable Change in Higher Education Brent D. Ruben, 2023-07-03 This book offers formal and informal leaders at all levels of their institution theory informed and practical guidance on implementing and sustaining change through collaborative leadership The framework and concepts presented are applicable at the department program campus or system level to guide minor incremental or transformative change Achieving a shared organizational vision can be a daunting challenge given the multiple missions of higher education varied and often conflicting stakeholder viewpoints siloed organizational structures traditions of shared governance and a highly educated workforce bringing together colleagues with diverse disciplinary perspectives Achieving these aims requires taking into account the organization's systems and values and the needs and aspirations of

corresponding stakeholders across the enterprise Ruben provides a guide for achieving and sustaining these goals in an engaged and collaborative manner Employing the author's widely used Excellence in Higher Education EHE framework this book offers principles and practices relative to change collaboration and organizational vision that can greatly enhance the prospects for effective outcomes highlighting three key themes Understanding and leveraging the dynamics of change Leading collaboratively and meaningfully engaging one's colleagues Adopting and pursuing a shared vision of organizational purpose and aspirations The book is intended for faculty and staff who want to advance the effectiveness and impact of their program department and institution and to do so in a way that creates a shared vision to sustain these benefits into the future It serves as a text for the growing number of leadership development programs and for courses with a focus on higher education leadership

Monographic Series Library of Congress, *Dead Ends of Transition* Michael Dauderstädt, Arne Schildberg, 2006 After war many countries such as Bosnia Kosovo Afghanistan or Iraq the transition to a democratic market economy extremely difficult This failure to thrive *Dead Ends of Transition* demonstrates is often the result of national reliance on foreign aid Rentier states the contributors to this study argue have few incentives to respond to the needs of their societies Taking a closer look at the policies of rentier economies this book further identifies new ways in which these countries and their international partners could work together to ease the critical transition to democracy
