Shadows In The Sand:

Shadows in the Sand Glynis Cooper, 2011 *Shadows on the sand* Peggy Sheila Cole, 1974 **Shadows on the Sand** Brian Cooper, 1995 Koevoet Steve Crump, 2023-01-19 Koevoet Afrikaans for Crowbar tells of the origination and deployment of the South West African Police's elite counter insurgency capability during the South African Border War of 1978-1989. Drawing upon previously unpublished sources and from interviews with a number of key personalities including former members of Koevoet, this volume is the first of two documents the formation of Koevoet and its early operations up to 1984. Koevoet examines the background and context to the South West African conflict and details the early experiences of the South African Police in seeking to counter SWAPO PLAN activities. It outlines the tasking assigned to Colonel Hans Dreyer of the South African Police to establish Ops K and to develop a counter insurgency unit as part of the South West African Police response to the developing conflict, a unit that was to become both respected and feared and is today considered as one of the most effective counter insurgency forces of modern times. Koevoet describes the recruitment of trackers from the local population, the integration of black and white Koevoet operators into a single entity, their training, organization and deployment across the Operational Area. The author examines Koevoet tactics in the field, including all arms co-operation with the South African Defence Force and the South African Air Force and the practice of turning captured SWAPO PLAN fighters and their employment across the Zulu teams. The design and evolution of the iconic Casspir and Wolf Mine Protected Vehicles (MPVs) is covered, as is their practical use on operations alongside the development of other specialized weapons and equipment utilized by Koevoet. In documenting Koevoet operations in Kavango, Kaokoland and Owamboland, Volume 1 of Koevoet seeks to examine SWAPOL COIN's effectiveness and to assess how the lessons learned between 1979-1984 shaped future Koevoet doctrine and thinking, to afford the reader a truly inclusive perspective on counter insurgency today as police and armed forces globally move to a greater reliance on cutting edge digital technology including artificial intelligence. Color profiles detail a range of Mine Protected Vehicles (MPVs) used by Koevoet, including the iconic Casspir and Wolf, along with SADF and SAAF helicopters used to support these operations. Uniforms and insignia of Koevoet are presented in specially commissioned full color artworks.

The House of Crimson Shadows Henry De Vere Stacpoole, 1925 Shadows of the Circle Vagn Lundsgaard Hansen, 1998. The aim of this book is to throw light on various facets of geometry through development of four geometrical themes. The first theme is about the ellipse, the shape of the shadow cast by a circle. The next, a natural continuation of the first, is a study of all three types of conic sections: the ellipse, the parabola and the hyperbola. The third theme is about certain properties of geometrical figures related to the problem of finding the largest area that can be enclosed by a curve of given length. This problem is called the isoperimetric problem. In itself, this topic contains motivation for major parts of the curriculum in mathematics at college level and sets the stage for more advanced mathematical subjects such as functions of several variables and the calculus of variations. Here, three types

of conic section are discussed briefly The emergence of non Euclidean geometries in the beginning of the nineteenth century represents one of the dramatic episodes in the history of mathematics In the last theme the non Euclidean geometry in the Poincare disc model of the hyperbolic plane is developed **Painting Sunlight and Shadow with Pastels** Maggie Price,2011-03-10 Infuse your paintings with light and life Whether you work outdoors or indoors understanding the effects of light and shadow is key to making your art lifelike and engaging Rather than providing a one size fits all recipe for painting light this book shows you how to capture the particular ambient qualities of any scene before you be it a gloriously clear morning a rainy afternoon or the joyful dance of sunlight on water Master pastel artist Maggie Price shares techniques for painting beautiful light rich shadows and convincing reflections 10 step by step demonstrations tackle a diversity of lighting situations encompassing various weather conditions and times of day Five contributing artists explore different styles approaches and subjects including landscapes water scenes and people Concepts are demonstrated with pastel but are applicable to any medium An illuminating read for beginning and experienced artists alike this book will help you engage your viewer by achieving that captivating sense of being there Shadows on the Sand, etc Rona RANDALL (pseud.
