Australia's War 1939-45 Joan Beaumont, 2020-09-10 The Second World War was a dominant experience in Australian history For the first time the country faced the threat of invasion The economy and society were mobilised to an unprecedented degree with 550 000 men and women or one in twelve of a population of over 7 million serving in the armed forces overseas Social patterns and family life were disrupted Politically the war gave a new legitimacy to the Australian Labor Party which had been confined to the wilderness of the Opposition at the Federal level for most of the inter war years The powers of the Federal government increased and a new momentum for social reform was generated at the popular and governmental level In the international sphere the war fundamentally shook Australian confidence in the power on which it had relied for generations Great Britain It generated a sense of independence in Australian foreign policy and initiated a new if halting and problematic realignment towards the United States In this accessible book Joan Beaumont Kate Darian Smith David Lee David Lowe Marnie Haig Muir Roy Hay and David Walker consider the range of Australia's experience of this conflict In a single volume they draw together the many aspects of the war and distil the current state of historical scholarship Australia's War 1939 45 will be invaluable to tertiary students and of enormous interest to the reader concerned with the social political and military history of Australia A companion volume on the First World War is also available

Australia 1942 Peter Dean, 2013 This book explores the way in which Australia confronted the challenge of the shadow of war in 1942

Australia's War Crimes Trials 1945-51 Georgina Fitzpatrick, Timothy L.H. McCormack, Narrelle Morris, 2016-08-29 This unique volume provides a detailed analysis of Australia's 300 war crimes trials of principally Japanese accused conducted in the immediate aftermath of the Second World War Part I contains contextual essays explaining why Australia established military courts to conduct these trials and thematic essays considering various legal issues in and historical perspectives on the trials Part II offers a comprehensive collection of eight location essays one each for the physical locations where the trials were held In Part III post trial issues are reviewed such as the operation of compounds for war criminals the repatriation of convicted Japanese war criminals to serve the remainder of their sentences and reflections of some of those convicted on their experience of the trials In the final essay a contemporary reflection on the fairness of the trials is provided not on the basis of a twenty first century critique of contemporary minimum standards of fair trial expected in the prosecution of war crimes but by reviewing approaches taken in the trials themselves as well as from reactions to the trials by those associated with them The essays are supported by a large collection of unique historical

photographs maps and statistical materials There has been no systematic and comprehensive analysis of these trials so far which has meant that they are virtually precluded from consideration as judicial precedent This volume fills that gap and offers scholars and practitioners an important and groundbreaking resource **The Rescue** Steven Trent Smith,2008-05-02
