Shakespeare And Race Postcolonial Praxis In The Early Modern Period:

Shakespeare and Race Imtiaz H. Habib, 2000 Shakespeare and Race is a provocative new study that reveals a connection between the subject of race in Shakespeare and the advent of early English colonialism Citing generally neglected archival evidence Imtiaz Habib argues that a small population of captured Indians and Africans brought to England during the 16th century provided the impetus for Elizabethan constructions of race rather than existing European traditions in which blackness was represented metaphorically He explores Tudor and Stuart dramatic representations of black characters focusing specifically on how race affected Shakespeare personally and historically over the course of his career Using postcolonial paradigms combined with neo Marxist feminist and psychoanalytic insights Habib discusses the possible existence of a black woman that Shakespeare knew and wrote about in his Sonnets and examines the design of his black male characters including Aaron Othello and Caliban Shakespeare and Race represents a significant contribution that will fascinate scholars of literature as well as those interested in the cultural impact of colonialism The Oxford Handbook of Shakespeare and Race Patricia Akhimie, 2024 Presents current scholarship on race and racism in Shakespeare's works The Handbook offers an overview of approaches used in early modern critical race studies through fresh readings of the plays an exploration of new methodologies and archives and sustained engagement with race in contemporary performance adaptation and activism *English Ethnicity and Race in Early Modern Drama* Mary Floyd-Wilson, 2003-02-20 In English Ethnicity and Race in Early Modern Drama first published in 2003 Mary Floyd Wilson outlines what we might call scientific conceptions of racial and ethnic differences in sixteenth and seventeenth century English writing Drawing on classical and contemporary medical texts histories and cosmographies Floyd Wilson demonstrates that Renaissance understandings of racial and ethnic identities contradicted many modern stereotypes concerning difference Southerners Africans in particular were identified as dispassionate cool tempered and wise whereas the more northern English were understood to be unruly impressionable and slow witted Concerned with the unflattering and constraining implications of this classically derived knowledge English writers laboured to reinvent ethnology to their own advantage a labour that paved the way for the invention of more familiar racial ideas Floyd Wilson highlights these English revisionary efforts in her surprising and transformational readings of the period's drama including Marlowe's Tamburlaine Jonson's The Masque of Blackness and Shakespeare's Othello and Cymbeline The Oxford Handbook of Shakespeare and Early Modern Authorship, 2025-09-09 The Oxford Handbook of Shakespeare and Early Modern Authorship draws together leading and emerging scholars of Shakespeare and early modern literature to consider anew how authorship worked in the time in which Shakespeare wrote and to interrogate the construction of the Shakespeare as author figure Composed of four main sections it offers fresh analysis of the literary and cultural influences and forces that formed authors in the period the mechanics of early modern authorship the mediation of Shakespeare and others works in performance manuscript and print and the critical and popular

reimagining across times of Shakespeare as an author figure Diving into modern debates about early modern authorship authority and identity politics contributors supply rich new accounts of the wider scene of professional authorship in early modern England of how Shakespeare's writings contributed to it and of what made him distinctive within it Looking beyond Shakespeare the Handbook seeks to provide a vital testing ground for new research into early modern literature and culture more broadly

Race in Early Modern England J. Burton, A. Loomba, 2007-08-20 This collection makes available for the first time a rich archive of materials that illuminate the history of racial thought and practices in sixteenth and seventeenth century England A comprehensive introduction shows how these writings are crucial for understanding the pre Enlightenment lineages of racial categories

Anti-Black Racism in Early Modern English Drama Matthieu Chapman, 2016-11-03 This is the first book to deploy the methods and ensemble of questions from Afro pessimism to engage and interrogate the methods of Early Modern English studies Using contemporary Afro pessimist theories to provide a foundation for structural analyses of race in the Early Modern Period it engages the arguments for race as a fluid construction of human identity by addressing how race in Early Modern England functioned not only as a marker of human identity but also as an a priori constituent of human subjectivity Chapman argues that Blackness is the marker of social death that allows for constructions of human identity to become transmutable based on the impossibility of recognition and incorporation for Blackness into humanity Using dramatic texts such as Othello Titus Andronicus and other Early Modern English plays both popular and lesser known the book shifts the binary away from the currently accepted standard of white non white that defines otherness in the period and examines race in Early Modern England from the perspective of a non black black antagonism The volume corrects the Afro pessimist assumption that the Triangle Slave Trade caused a rupture between Blackness and humanity By locating notions of Black inhumanity in England prior to chattel slavery the book positions the Triangle Trade as a result of rather than the cause of Black inhumanity It also challenges the common scholarly assumption that all varying types of human identity in Early Modern England were equally fluid by arguing that Blackness functioned as an immutable constant Through the use of structural analysis this volume works to simplify and demystify notions of race in Renaissance England by arguing that race is not only a marker of human identity but a structural antagonism between those engaged in human civil society opposed to those who are socially dead It will be an essential volume for those with interest in Renaissance Literature and Culture Shakespeare Contemporary Performance Theory Black Studies and Ethnic Studies

Early Modern Black Diaspora Studies Cassander L. Smith, Nicholas R. Jones, Miles P. Grier, 2018-10-03 Early Modern Black Diaspora Studies brings into conversation two fields Early Modern Studies and Black Studies that traditionally have had little to say to each other This disconnect is the product of current scholarly assumptions about a lack of archival evidence that limits what we can say about those of African descent before modernity This volume posits that the limitations are not in the archives but in the methods we have constructed for locating and examining those archives The essays that make up this volume offer new critical approaches to black African agency and the conceptualization of blackness in early modern literary works historical documents material and visual cultures and performance culture Ultimately this critical anthology revises current understandings about racial discourse and the cultural contributions of black Africans in early modernity and in the present across the globe

[The Cambridge Companion to Shakespeare and Race](#) Ayanna Thompson, 2021-02-25 The Cambridge Companion to Shakespeare and Race shows teachers and students how and why Shakespeare and race are inseparable Moving well beyond Othello the collection invites the reader to understand racialized discourses rhetoric and performances in all of Shakespeare's plays including the comedies and histories Race is presented through an intersectional approach with chapters that focus on the concepts of sexuality lineage nationality and globalization The collection helps students to grapple with the unique role performance plays in constructions of race by Shakespeare and in Shakespearean performances considering both historical and contemporary actors and directors The Cambridge Companion to Shakespeare and Race will be the first book that truly frames Shakespeare studies and early modern race studies for a non specialist student audience

Titus Andronicus: The State of Play Farah Karim Cooper, 2019-02-07 Shakespeare's and Peele's Titus Andronicus has had a theatrical and a critical revival in the last fifteen years the critical revival was perhaps prompted by Jonathan Bate's Arden edition of the play and its revision of the traditional critical account that it is an immature work and overly sensationalistic with its emphasis on non essential violence Recent debates and approaches have drawn closer attention to the play's classicism re defined its genre for example the revised edition of the New Dramatic Sources will re classify the play as one of Shakespeare's Roman plays re considered

the nature of violent spectacle family relations and kinship political alliance race and miscegenation This study will explore how the revitalized critical responses to early modern and contemporary performance histories has had a significant impact upon the wider reception of this play
