Shakespeare And Society Critical Studies I:

Shakespeare and Society Terry Eagleton, 1967 **Shakespeare and Society. Critical Studies in Shakespearean Drama** Terence Eagleton, 1967 *Shakespeare and Society* Terence Eagleton, 1970 Shakespeare and the Classical Tradition Lewis Walker, 2019-05-24 This bibliography will give comprehensive coverage to published commentary in English on Shakespeare and the Classical Tradition during the period from 1961-1985. Doctoral dissertations will also be included. Each entry will provide a clear and detailed summary of an item's contents. For poems and plays based directly on classical sources like Antony and Cleopatra and The Rape of Lucrece, virtually all significant scholarly work during the period covered will be annotated. For other works such as Hamlet, any scholarship that deals with classical connotations will be annotated. Any other bibliographies used in the compiling of this volume will be described with emphasis on their value to a student of Shakespeare and the Classics.

Shakespeare's Pluralistic Concepts of Character Imtiaz H. Habib, 1993 The presentation of a complex character such as Shylock bears resemblance to the technique of anamorphic portraiture and trick perspective in the sense that seen one way he appears a villain but seen another way he appears a persecuted victim. The clashing and merging of opposed frames of ideological reference that cannot be held apart or resolved and that remain in a kind of uneasy balance may be a technique of comic characterization that exploits relativism and ambiguity in the presentation of human personality and self on stage. A similar technique can be seen at work in the Histories in the characters of Richard and Bolingbroke who as has long been noted compete contrarily for the audience's ideological sympathies over the course of the play.

Terry Eagleton David Alderson, 2017-03-14 Terry Eagleton is the foremost Marxist cultural theorist of our time. In the first book-length study of this highly influential figure, David Alderson provides detailed discussions of Eagleton's Marxism and his engagements with postmodernism as well as an evaluation of his interventions in Irish Studies. Each of the chapters in this important intervention in current theoretical debates offers accessible contextualization of the key issues and provides detailed analyses of Eagleton's literary criticism. Alderson shows that the complex relations between nature, culture, and ideology, body, subjectivity, and authority are at the heart of Eagleton's ethical and political concerns. He goes on to demonstrate that these relations inform the theorist's critical examinations of such literary works as *Wuthering Heights* and *The Merchant of Venice* and his treatment of W. B. Yeats and Oscar Wilde.

Thinkers, Activists, and Politics R. G. Williams, 2025-06-27 This book is a collection of critical essays that examines the lives, politics, and ideas of several radical activists, writers, and revolutionaries over the past two centuries: individuals who fought for human freedom. Spanning figures from Karl Marx to Che Guevara, the essays delve into the challenges these revolutionaries faced and how their bold ideas reshaped political thought. They also highlight how the legacy of their actions continues to fuel debates about freedom, humanity, and the role of the individual in modern society. People often interpret the world; real revolutionaries attempt to change it.

Heterotropic Theatres Russell West-Pavlov, 2025-05-26 This book seeks to

elaborate a theory of troping that expands the purview of linguistic work and agency parsing its transformative work beyond the limits usually set by theories of language. It registers a sea change in the theorization of theatrical art from representation to intervention. The book thereby seeks to lay bare the activity of language as a heterotopology. It focuses on early modern theatre from Shakespeare's *Hamlet*, *Macbeth*, *Romeo and Juliet*, *Troilus and Cressida* and other theatrical forms of the same era, the Court Masque dramas by Ford or Johnson through to the Restoration; it also reads a number of contemporary avatars of Shakespearean texts from Stoppard to Jones and of early modern and postmodern performance spaces such as the New Globe Theatre. In a dozen readings of early modern theatre it asks how the remarkable energy and social purchase ascribed to theatrical language by contemporary commentators can be reconceptualized, mobilized anew and thus harnessed for our own turbulent times.

From the renaissance to the civil war. pt. 2. 2d ed Jean Jules Jusserand, 1914. *The Task of the Critic* Terry Eagleton, 2009-12-08. Terry Eagleton occupies a unique position in the English speaking world today. He is not only a productive literary theorist but also a novelist and playwright. He remains a committed socialist, deeply hostile to the zeitgeist. Over the last forty years his public interventions have enlivened an otherwise bland and conformist culture. His pen, as many colleagues in the academy including Harold Bloom, Gayatri Spivak and Homi Bhabha have learned, is merciless and unsparing. As a critic, Eagleton has not shied away from confronting the high priests of native conformity, as highlighted by his coruscating polemic against Martin Amis on the issue of civil liberties and religion. This comprehensive volume of interviews covers both his life and the development of his thought and politics. Lively and insightful, they will appeal not only to those with an interest in Eagleton himself but to all those interested in the evolution of radical politics, modernism, cultural theory, the history of ideas, sociology, semantic inquiry and the state of Marxist theory.
