Shakespeare's Late Plays Nicholas

Potter, 2009-07-28 Shakespeare's late plays are a mixed bag with a common theme from the fiendishly jealous Leontes to the saintly Pericles from the ineffectual Cymbeline to the omnipotent Prospero from the sprites and goblins of The Tempest to the famous bear of The Winter's Tale the characters have excited wonder and contempt while the range of incident is almost irresponsibly extravagant Was Shakespeare losing his grip or his interest or both Was he striking out in some bold new theatrical direction This Guide provides a critical survey of the major debates and issues surrounding the late plays from the earliest published accounts to the present day Nicholas Potter offers a clear guiding narrative and an exploration of literary history focusing on how criticism of these remarkable works and attempts to make sense of them have developed over the years

Mankind - An Interpretation of a Medieval Morality Play Torben Schmidt, 2003-01-26 Seminar paper from the year 2001 in the subject English Language and Literature Studies Literature grade 1 A Justus Liebig University Giessen Institute of English Linguistics course The Medieval Drama Texts and Cultural Backgrounds language English abstract There are some obvious differences between the morality and the miracle plays The latter did stress moral truths besides teaching facts of the bible but on the whole did not lend themselves to allegorical formulation except when there was no well defined Bible story to be followed A good example in this case is the life of Maria Magdalen before she was converted The miracle play dealt with what were believed to be historical events and its main characters were for the most part ready made for the playwright by the Bible and inherited tradition The morality play on the other hand stood by itself unconnected to a cycle and the plots were extremely stereotyped They afforded less scope for original creation than those of the miracles which were crowded with major and minor characters Herod Pilate Pharaoh Noah's wife Satan Adam and Eve Kinghorn 1968 p 116 and a host of others both scriptural and non scriptural As far as the characters in the morality plays are concerned one could say that these characters like for instance the Seven Deadly Sins did only offer very limited opportunities for development Gluttony could hardly be other than a fat lout Sloth a half awake loungeur Luxury an overdressed woman Avarice a grasping old man and Anger continually in a rage Kinghorn 1968 p 116 As far as allegorical formulations are concerned it has to be pointed out that the morality play characters were always personified vices and virtues producing a conflict of sorts and providing enough material for a plot The Christian Virtues the Seven Deadly Sins Pride of Life World Flesh Youth Age Holy Church Wealth Health Mercy Learning and of course Mankind are just a few examples for personages which were made to behave as though they were human by the didactic aim of the author Kinghorn 1968 p 116 but all these characters are always contained within their own narrow definition Since these allegorical personages were not characters but walking abstractions they provided the playwright only very limited opportunities for development Everything that was said and done by these characters showed clearly the moral truth which

was of course the subject of the plot The late medieval morality plays mark a well defined movement away from the religious drama towards the completely secular drama in England Shakespeare and the Materiality of Performance E.

Shakespearean Ethics in Extremity James Kearney,2025-03-05 Shakespearean Ethics in Extremity addresses forms of ethical experience on the Shakespearean stage Early modern theater traffics in the vicarious experience of ethics often ethics in some extreme or impossible circumstance It does so not by parading concepts across the stage or ventriloquizing ideas from the philosophical tradition but by bringing to life stories and characters and worlds by crafting scenes and moments of great emotional and cognitive intensity What does it feel like to be enjoined to avenge your father s murder What is it like to

banish your daughter or disavow your community To murder James Kearney contends that Shakespearean theater fundamentally oriented to the experiential invites its audiences to entertain and to be entertained by what the philosopher Bernard Williams calls a phenomenology of the ethical life The early modern world inherited and developed rhetorical and philosophical practices geared toward the creation of immersive virtual experience These phenomenological arts share underlying assumptions about the cultivation and management of the self as well as a straightforward orientation toward ethics Taking up key concepts from the long history of moral philosophy recognition obligation decision luck Shakespearean Ethics in Extremity brings together a discursive history of ideas and the more phenomenological realms of body and affect environment and world In Shakespearean theater we encounter or witness or simply have our attention called to the ethical problem of other minds the obligation to neighbor and community the mysteries of decision the moral quandaries posed by epistemological uncertainty the risk of ethico affective relations and the vagaries of luck Each of these concepts points to an elemental aspect of ethical life and they all have long and rich histories ancient and modern With a concentrated focus on formally inventive plays written in the later part of Shakespeare s theatrical career King Lear Timon of Athens Macbeth Pericles The Tempest and The Winter s Tale Kearney explores Shakespearean theater as an arena or lab in which the experience of ethics in extremis is simulated or reverse engineered counterfeited or created
