on Applied Human Factors and Ergonomics AHFE 2023 July 20 24 2023 San Francisco USA **Integrative Strategies for the K-12 Social Studies Classroom** Timothy Lintner, 2013-03-01 While the concept of integration or an interdisciplinary curriculum has been around for decades the purposeful practice of integration is a relatively new educational endeavor Though classroom teachers often say they integrate there generally seems to be a lack of understanding of what this thing called integration is theory and what it is supposed to look like in the classroom practice Arguably no other discipline has felt the pressure to integrate more than social studies Marginalized by federal initiatives such as No Child Left Behind and suffering from a general crisis of credibility social studies has been pushed further and further to the proverbial back burner of educational importance Yet regardless of perspective or position social studies remains ripe for integration The crux of this book is to provide educators insights and strategies into how to integrate social studies with other discipline areas Calling upon national experts in their respective fields each chapter chronicles the broad relationship between individual content areas and social studies Multiple examples of integrative opportunities are included At the end of each chapter is a series of grade specific integrative lesson plans ready for implementation This book was purposefully designed as a how to hands on ready reference guide for educators at all stages and all levels of teaching *Ebony Jr.*, 1978-10 Created by the publishers of EBONY During its years of publishing it was the largest ever children focused publication for African Americans

China's Big Power Ambition under Xi Jinping Suisheng Zhao, 2021-12-14 Instead of emphasizing China as a developing country Chinese President Xi Jinping has identified China as a big power and accentuated China's big power status This book explores the narratives and driving forces behind China's big power ambition Three narratives rooted in Sino centralism are examined One is China's demands for the reform of global governance to reflect the values and interests of China as a rising power Another is China's Belt and Road Initiative to construct a nascent China centred world order The third is the China model and self image promotion in the developing countries There are many forces that have driven or constrained China's big power ambition This collection focuses on two sets of forces One is China's domestic politics and economic incentives and disincentives The other is China's geo political and geo economic interests These forces have both motivated and constrained China's big power ambition The chapters in this book were originally published in the Journal of Contemporary China **The Pause** Julian Jason Haladyn, 2024-05-01 When COVID 19 spread across the globe people experienced protection measures such as social distancing self isolation and self quarantine as a kind of shutting down or putting on hold of life Many referred to this experience as a pause Calling attention to the long history of grappling with pausing in writing on plagues and pandemics Julian Haladyn explores the pause in its social political and personal manifestations over the extended pandemic The schism between the virus and its prohibitions on human engagement with the world produced a crisis Haladyn argues in which for an extended time it was impossible to imagine a future The Pause is a cultural inquiry into a moment when human life around the globe seemed to halt as well as the social symptoms that

defined it The Pause captures the experience of being inside the pandemic even as that experience continues to unfold It regards our current situation not for what it may become in the future but rather as a moment of mass uncertainty and existential hesitation

The Face Mask In COVID Times Deborah Lupton,Clare Southerton,Marianne Clark,Ash Watson,2021-04-19 The simple fabric face mask is a key agent in the fight against the global spread of COVID 19 However beyond its role as a protective covering against coronavirus infection the face mask is the bearer of powerful symbolic and political power and arouses intense emotions Adopting an international perspective informed by social theory The Face Mask in COVID Times A Sociomaterial Analysis offers an intriguing and original investigation of the social cultural and historical dimensions of face masking as a practice in the age of COVID Rather than Beck s risk society we are now living in a COVID society the long term effects of which have yet to be experienced or imagined Everything has changed The COVID crisis has generated novel forms of sociality and new ways of living and moving through space and time In this new world the face mask has become a significant object positioned as one of the key ways people can protect themselves and others from infection with the coronavirus The face mask is rich with symbolic meaning as well as practical value In the words of theorist Jane Bennett the face mask has acquired a new thing power as it is coming together with human bodies in these times of uncertainty illness and death The role of the face mask in COVID times has been the subject of debate and dissension arousing strong feelings The historical and cultural contexts in which face masks against COVID contagion are worn or not worn are important to consider In some countries such as Japan and other East Asian nations face mask wearing has a long tradition Full or partial facial coverings such as veiling is common practice in regions such as the Middle East In many other countries including most countries in the Global North most people beyond health care workers have little or no experience of face masks They have had to learn how to make sense of face masking as a protective practice and how to incorporate face masks into their everyday practices and routines Face masking practices have become highly political The USA has witnessed protests against face mask wearing

that rest on sovereign individualism a notion which is highly specific to the contemporary political climate in that country Face masks have also been worn to make political statements bearing anti racist statements for example but also Trump campaign support Meanwhile celebrities and influencers have sought to advocate for face mask wearing as part of their branding while art makers museums designers and novelty fashion manufacturers have identified the opportunity to profit from this sudden new market Face masks have become a fashion item as well as a medical device both a way of signifying the wearer s individuality and beliefs and their ethical stance in relation to the need to protect their own and others health The Face Mask in COVID Times A Sociomaterial Analysis provides a short and accessible analysis of the sociomaterial dimensions of the face mask in the age of COVID 19 The book presents seven short chapters and an epilogue We bring together sociomaterial theoretical perspectives with compelling examples from public health advice and campaigns anti mask activism as well as popular culture news reports blog posts videos online shopping sites art works to illustrate our theoretical points and use Images to support our analysis
