Mound Builders The:

The Mound Builders John Patterson MacLean, 1879 **The Moundbuilders** George R. Milner, 2005 Hailed by Bruce D Smith Curator of North American Archaeology at the Smithsonian Institution as without question the best available book on the pre Columbian Indian societies of eastern North America this wide ranging and copiously illustrated volume covers the entire sweep of Eastern Woodlands prehistory with an emphasis on how these societies developed from hunter gatherers to village farmers and town dwellers **The Mound Builders** Robert Silverberg, 1986-05-01 In Illinois the one hundred foot Cahokia Mound spreads impressively across sixteen acres and as many as ten thousand more mounds dot the Ohio River Valley alone The Mound Builders traces the speculation surrounding these monuments and the scientific excavations which uncovered the history and culture of the ancient Americans who built them The mounds were constructed for religious and secular purposes some time between 1000 B C and 1000 A D and they have prompted curiosity and speculation from very early times European settlers found them evidence of some ancient and glorious people Even as eminent an American as Thomas Jefferson joined the controversy though his conclusions that the mounds were actually cemeteries of ancient Indians remained unpopular for nearly a century Only in the late 19th century as Smithsonian Institution investigators developed careful methodologies and reliable records did the period of scientific investigation of the mounds and their builders begin Silverberg follows these excavations and then recounts the story they revealed of the origins development and demise of the mound builder culture The Mound Builders Stephen Denison Peet, 1892 *The Masterpieces of the Ohio Mound Builders* Emilius Oviatt Randall, 1916 **The Indian, Or Mound Builder** Thomas Beckwith, 1911 The Indian Thomas Beckwith, 1911 **The Mound Builders** John Patterson MacLean, 1887 *Mound-Builders* William J. The Mound Builder Myth Jason Colavito, 2020-02-20 Say you found that a few dozen people operating at the highest levels of society conspired to create a false ancient history of the American continent to promote a religious white supremacist agenda in the

service of supposedly patriotic ideals Would you call it fake news In nineteenth century America this was in fact a powerful truth that shaped Manifest Destiny The Mound Builder Myth is the first book to chronicle the attempt to recast the Native American burial mounds as the work of a lost white race of true native Americans Thomas Jefferson's pioneering archaeology concluded that the earthen mounds were the work of Native Americans In the 1894 report of the Bureau of American Ethnology Cyrus Thomas concurred drawing on two decades of research But in the century in between the lie took hold with Presidents Andrew Jackson William Henry Harrison and Abraham Lincoln adding their approval and the Mormon Church among those benefiting Jason Colavito traces this monumental deception from the farthest reaches of the frontier to the halls of Congress mapping a century long conspiracy to fabricate and promote a false ancient history and enumerating its devastating consequences for contemporary Native people Built upon primary sources and first person accounts the story that The Mound Builder Myth tells is a forgotten chapter of American history but one that reads like the Da Vinci Code as it plays out at the upper reaches of government religion and science And as far fetched as it now might seem that a lost white race once ruled prehistoric America the damage done by this ancient myth has clear echoes in today's arguments over white nationalism multiculturalism alternative facts and the role of science and the control of knowledge in public life

Mound-Builders (Classic Reprint) W. J. Smyth, 2017-06-22 Excerpt from Mound Builders The mounds they have left are found in the western part of the State of New York and extend it is said as far as Nebraska And as they have lately been found in the North west they have thus a much more northern limit than was at first thought while the southern limit is the Gulf of Mexico Having seen only a few mounds in Illinois Indiana and Kentucky I must confine my paper to those found in the State of Ohio where during a residence of seventeen months I made the closest investigation my time and duties permitted In Ohio the number of mounds including enclosures of different kinds is estimated at about though it requires the greatest care to distinguish between the mounds proper and those subsequently erected by the Indians In some parts they are very close together which is strong evidence that these regions were densely populated In others a solitary mound with adjacent burial mounds gives us the idea of a rural village or town About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Martin Byers,2018-02-02 The Real Mound Builders of North America takes the standard position that the cultural communities of the Late Woodland period hiatus when little or no transregional monumental mound building and ceremonialism existed were the linear cultural and social ancestors of the communities responsible for the monumental earthworks of the unique Mississippian ceremonial assemblage and further these Late Woodland communities were the direct linear cultural and social descendants of those communities responsible for the great Hopewellian earthwork mounds and embankments and its associated unique ceremonial assemblage Byers argues that these communities persisted largely unchanged in terms of their essential social structures and cultural traditions while varying only in terms of their ceremonial practices and their associated sodality organizations that manifested these deep structures This continuist historical trajectory view stands in contrast to the current dominant evolutionary view that emphasizes abrupt social and cultural discontinuities with the Hopewellian ceremonial assemblage and earthworks mounds and embankments **A Serpent's Tale** Lorett Treese,2021-04-15 When American settlers first crossed the Appalachian Mountains they were amazed to discover that the wilderness beyond contained ancient ruins large man made mounds and enclosures and impressive earthen sculptures such as a gigantic serpent Reports trickled back to the eager ears of President Thomas Jefferson and others However most did not believe these earthworks had anything to do with Native Americans rather given the intense interest in the history of Western Civilization at the time it became popular to speculate that the ruins had been built by refugees from Greece Rome Egypt or even the lost continent of Atlantis As Lorett Treese explains in her fascinating history **A Serpent's Tale Discovering America's Ancient Mound Builders** the enigmatic nature of these antiquities fueled both fanciful

claims and scientific inquiry Early on the earthworks began to fall to agricultural and urban development Realizing that only careful on site investigation could reveal the mysteries of the mounds scholars hastened to document and classify them giving rise to American archaeology as a discipline *The Mound Builders* Anonymous,2022-10-27 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Mound Builders** J. P. Maclean,2017-12-19 Excerpt from *The Mound Builders Being an Account of a Remarkable People That Once Inhabited the Valleys of the Ohio and Mississippi Together With an Investigation Into the Archaeology of Butler County O* Within the last few years much interest has been developed in American archaeology especially in that branch relating to the Mound Builders The mystery surrounding this lost people creates a fascination which is greatly increased in the mind of the student of nature as he lingers among the ruins which invite his attention and rivet his eye Standing upon one of the monuments the lover of the mysterious will lose himself in meditation or else in imagination will behold a strange people toiling under the heat of a burning sun or perhaps see them suffering from the effects of a winter's wind while erecting structures devoted to such rites as are recorded in the pages of history There are others who behold these remains and although taking no particular interest in original investigation yet desire to obtain such information as may be known concerning them The mounds even separated from their history have an interest in themselves When one sees them he cannot help but pay more than a passing notice Hence it might be presumed that public attention was early called to the ancient earth works of Ohio In the year 1772 Rev David Jones first publicly noticed their existence Twelve years later Arthur Lee wrote concerning them About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
