Mountain Lion An Unnatural History Of Pumas And People:

Mountain Lion Chris Belgiano, 2001-03 The role of the mountain lion in myth and lore and their status in today's wilderness

The Quest for the Eastern Cougar Robert Tougas, 2011-08-26 Is There This Beast In Our Midst What is it about cougars Why does this phantom of the eastern woods stimulate such passion among so many people For decades wildlife biologists have been telling us that they do not exist east of the Mississippi and yet each year there are hundreds of people claiming to have seen one Is there any truth to these claims or are they misidentifications wishful thinking or tall tales Nature writer Robert Tougas journeys deep into the world of the cougar and into the reasoning of those that believe they exist and those that do not The Quest For The Eastern Cougar Extinction or Survival is an informative voice of reason that quiets the confusion regarding the powerful predator It tells us about the cats historic demise and alleged modern human encounters The scientific explanations as to why one ought to believe or dismiss the cougars presence are unraveled It discusses the ultimate question whether or not cougars have survived in the East or have already left us No matter what you choose to believe cougars are likely to continue to make the news Cougars are turning up in unthinkable places these days attacks are becoming more frequent out West eastern sightings have increased and are beginning to offer better evidence We will be hearing much more about these powerful carnivores and in the not too distant future we will see more of them Are there cougars lurking in your back woodlot Is the East ready for this magnificent predator In this readable well researched book Robert Tougas has made a valuable and timely contribution to the public and scientific discourse about mountain lions in the East and the potential for their recovery This book deserves to be widely read by conservationists researchers policy makers and anyone interested in America's lion Christopher Papouchis Conservation Biologist Mountain Lion Foundation Sacramento CA Robert Tougas sheds much needed light on one of America's most intriguing wildlife mysteries This book is for anyone who's ever wondered about the creatures that haunt our forests and our collective imagination David Baron

Navajo and the Animal People Steve Pavlik, William B Tsosie, 2014-07-01 This text examines the traditional Navajo relationship to the natural world Specifically how the tribe once related to the Animal People and particularly a category of animals which they collectively referred to as the naatl eetsoh the ones who hunt These animals like Native Americans were once viewed as impediments to progress requiring extermination

Mysterious Creatures George M. Eberhart, 2002-12-17 A comprehensive guide to cryptozoology the quest to identify animals that have not been officially catalogued by science and to place these unknown animals into their proper zoological categories In this fascinating two volume encyclopedia author George M Eberhart provides a comprehensive catalog of nearly 1 000 cryptids unknown animals usually reported through eyewitness accounts and not yet described by science Cryptids are the stuff of folklore hoaxes and genuine scientific breakthroughs There are 400 now classified cryptids once considered either extinct or pure fantasy The cryptozoologist's job is to strip away the myth misidentification and mystery

and separate fact from fiction *Mysterious Creatures* covers everything from dinosaurs and the emala ntouka an elephant killing dinosaur like animal of central Africa to searches for the Loch Ness monster Bigfoot and other cryptozoological hoaxes Entries about specific animals include the derivation or meaning of each cryptid s name its scientific name variant names a physical description behavior description of tracks habitat significant sightings present status and possible explanations Illustrations and photographs accompany many entries The book also includes resources and references for further information

The Cryptozoology of Cats C. P. Marshall, 2024-01-21 From exotic wild species inhabiting unfamiliar settings to elusive forms still unknown to science or thought to be extinct the Felidae better known as cats have been reported in sightings from around the world According to conventional wisdom they do not exist but mystery cats of all sizes have attracted increasing attention from naturalists and laypersons alike and the evidence for these animals is becoming more substantial and increasingly difficult to deny Now one of the world s leading cryptozoological investigators and field researchers offers a comprehensive field guide and overview of these mysterious cat like creatures Filled with photographs comprehensive paintings classifications and hard evidence this book offers an invaluable resource for those who wish to investigate these sightings further or simply enjoy the fascinating reports provided by others

Listening to Cougar Cara Blessley Lowe, Marc Bekoff, 2018-07-09 Awe It s the overwhelming emotion 20 authors express for the cougar or mountain lion or panther or puma in this beautiful literary anthology The Durango Herald Foreword by Jane Goodall This spellbinding tribute to Puma concolor honors the big cat s presence on the land and in our psyches In some essays the puma appears front and center a lion leaps over Rick Bass s feet hurtles off a cliff in front of J Frank Dobie gazes at Julia Corbett when she opens her eyes after an outdoor meditation emerges from the fog close enough for poet Gary Gildner to touch Marc Bekoff opens his car door for a dog that turns out to be a lion Other works evoke lions indirectly Biologists describe aspects of cougar ecology such as its rugged habitat and how males struggle to claim territory Conservationists relate the political history of America s greatest cat Short stories and essays consider lions significance to people reflecting on accidental encounters dreams Navajo beliefs guided hunts and how vital mountain lions are to people as symbols of power and wildness Contributors include Rick Bass Marc Bekoff Janay Brun Julia B Corbett Deanna Dawn J Frank Dobie Suzanne Duarte Steve Edwards Joan Fox Gary Gildner Wendy Keefover Ring Ted Kerasote Christina Kohlruss Barry Lopez BK Loren Cara Blessley Lowe Steve Pavlik David Stoner and Linda Sweanor Puma Cougar Mountain lion Panther These words and the creatures they represent inspire awe wonder excitement terror and reverence in the writers whose contributions make up this anthology

Library Journal **Wild Games** Dennis Ray Cutchins, Eric Alden Eliason, 2009 Humans understand at least some of what it means to be human both literally and figuratively in reference to wild animals Our relationships with wildlife have traditionally been expressed in terms of hunting more recently these relationships have also been manifest as efforts to prevent hunting Hunting and fishing traditions are in fact under fire by critics at the same time that they are receding of

their own accord perhaps becoming even more endangered than any of the pursued animals These traditions form the major focus of Wild Games a new collection of essays that looks at the folklore and culture of various hunting and fishing practices documenting the central importance of hunting to many rural societies even in modern times Editors Dennis Cutchins and Eric Eliason contend that hunters often don't perceive of themselves as separate from the wild but rather identify strongly with a natural order integrated with rather than standing apart from the fluctuation of ecosystems And they frequently don't see wild animals as set apart but understand them as food sources competitors friendly rivals and even equals Featuring contributions from a variety of distinguished scholars and writers including an essay by the noted folklorist Simon Bronner on the culture of the deer camp a fascinating account of coyote tracking by Eric Eliason and an examination of the role of gender in outdoor life by Diane Humphrey Lueck this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture Book Jacket

The Beast in the Garden David Baron, 2010-10-04 The true tale of an Edenic Rocky Mountain town and what transpired when a predatory species returned to its ancestral home When in the late 1980s residents of Boulder Colorado suddenly began to see mountain lions in their yards it became clear that the cats had repopulated the land after decades of persecution Here in a riveting environmental fable that recalls Peter Benchley's thriller Jaws journalist David Baron traces the history of the mountain lion and chronicles Boulder's effort to coexist with its new neighbors A parable for our times The Beast in the Garden is a scientific detective story and a real life drama a tragic tale of the struggle between two highly evolved predators man and beast

The Sixth Extinction Terry Glavin, 2025-08-22 The Sixth Extinction is a haunting account of the age in which we live Ecologists are calling it the Sixth Great Extinction and the world isn't losing just its ecological legacy also vanishing is a vast human legacy of languages and our ways of living seeing and knowing Terry Glavin confirms that we are in the midst of a nearly unprecedented catastrophic vanishing of animals plants and human cultures He argues that the language of environmentalism is inadequate in describing the unraveling of the vast system in which all these extinctions are actually related And he writes that we're no longer gaining knowledge with every generation We're losing it In the face of what he describes as a dark and gathering sameness upon the Earth Glavin embarks on a global journey to meet the very things we're losing a distinct species every ten minutes a unique vegetable variety every six hours an entire language every two weeks and on the way encounters some of the world's wonderful rare things a human sized salmon in Russia a mysterious Sino Tibetan song language a Malayan tiger the last of its kind and a strange tomato that tastes just like black cherry ice cream And he finds hope in the most unlikely places a macaw roost in Costa Rica a small village in Ireland a relic community of Norse whalers in the North Atlantic the vault beneath the Royal Botanical Garden at Kew and the throne room of the Angh of Longwa in the eastern Himalayas A fresh narrative take on the usual doom and gloom environmentalism The Sixth Extinction draws upon zoology biology ecology anthropology and mythology to share the joys hidden within the long human struggle to

conserve the world's living things Here we find hope in what's left the absolute and stunning beauty in the Earth's last cultures and creatures

The Earth Only Endures Jules Pretty, 2012-05-04 A blend of clear-eyed science and poetic eloquence *The Earth Only Endures* follows in the tradition of Jared Diamond and E O Wilson Jules Pretty too is hopeful but on the condition that we understand the nature of the self-imposed threats to our future and the rational basis for human survival To say that this is essential reading is rather like saying that a compass is essential to navigation David W Orr author of *Design on the Edge* Jules Pretty's remarkable new book is both universal and parochial by turn and beautifully written It is a philosophical inventory of what we have recently lost

Ghostwalker Leslie Patten, 2024 After encountering mountain lion tracks near her home outside Yellowstone National Park Leslie Patten began a journey to learn about these elusive unseen animals by collecting anecdotal information and then interviewing biologists professional trackers houndsmen and conservationists

The Cougar Conundrum Mark Elbroch, 2020-08-13 The relationship between humans and mountain lions has always been uneasy A century ago mountain lions were vilified as a threat to livestock and hunted to the verge of extinction In recent years this keystone predator has made a remarkable comeback but today humans and mountain lions appear destined for a collision course Its recovery has led to an unexpected conundrum Do more mountain lions mean they're a threat to humans and domestic animals Or are mountain lions still in need of our help and protection as their habitat dwindles and they're forced into the edges and crevices of communities to survive Mountain lion biologist and expert Mark Elbroch welcomes these tough questions He dismisses long-held myths about mountain lions and uses groundbreaking science to uncover important new information about their social habits Elbroch argues that humans and mountain lions can peacefully coexist in close proximity if we ignore uninformed hype and instead arm ourselves with knowledge and common sense He walks us through the realities of human safety in the presence of mountain lions livestock safety competition with hunters for deer and elk and threats to rare species dispelling the paranoia with facts and logic In the last few chapters he touches on human impacts on mountain lions and the need for a sensible management strategy The result he argues is a win-win for humans mountain lions and the ecosystems that depend on keystone predators to keep them in healthy balance *The Cougar Conundrum* delivers a clear-eyed assessment of a modern wildlife challenge offering practical advice for wildlife managers conservationists hunters and those in the wildland urban interface who share their habitat with large predators

Dreamways of the Iroquois Robert Moss, 2004-12-16 Explores the ancient Iroquois tradition of dreams healing and the recovery of the soul Explains Native American shamanic dream practices and their applications and purpose in modern life Shows how dreams call us to remember and honor our soul's true purpose Offers powerful Active Dreaming methods for regaining lost soul energy to restore our vitality and identity The ancient teaching of the Iroquois people is that dreams are experiences of the soul in which we may travel outside the body across time and space and into other dimensions or receive visitations from ancestors or spiritual guides Dreams also reveal the wishes of the soul calling us to move beyond our ego

agendas and the web of other people's projections into a deeper more spirited life They call us to remember our sacred contracts and reclaim the knowledge that belonged to us on the levels of soul and spirit before we entered our present life experience In dreams we also discover where our vital soul energy may have gone missing through pain or trauma or heartbreak and how to get it back Robert Moss was called to these ways when he started dreaming in a language he did not know which proved to be an early form of the Mohawk Iroquois language From his personal experiences he developed a spirited approach to dreaming and living that he calls Active Dreaming Dreamways of the Iroquois is at once a spiritual odyssey a tribute to the deep wisdom of the First Peoples a guide to healing our lives through dreamwork and an invitation to soul recovery

Mountain Lion Rebecca Grambo, 1999 This is a multi title review Titles include Mountain Lion and Shadow Cat NAT HIST The cougar puma mountain lion or any number of other names is considered extirpated from the eastern United States An endangered population of a debatable subspecies the Florida panther numbers about 50 individuals However in the West cougars are encountering humans more often and their numbers are estimated to be strong Unfortunately as a result of increased contact more humans nine have died from cougar attacks in the last 25 years than in the previous 100 Hence the timely publication of these two titles and others e.g Karen McCall's Cougar Ghost of the Rockies LJ 11 15 92 In Mountain Lion wildlife photographer Cox's collection of outstanding color photos features cougars in action in repose at play with their young on the hunt and more as well as views of the rugged terrain that supports the great cats Grambo's text offers a concise natural history comments on human encounters and future concerns and a brief bibliography Shadow Cat is an anthology of 20 essays on the American mountain lion by such noted writers as Rick Bass David Quammen and Terry Tempest Williams covering natural history human encounters hunting issues and predator politics This nicely balanced collection covers the issues from more than one perspective Both titles are recommended for public libraries and natural history collections Nancy J Moeckel Miami Univ Libs Oxford OH

Varmints and Victims Frank Van Nuys, 2015-11-09 It used to be If you see a coyote shoot it Better yet a bear Best of all perhaps A wolf How we've gotten from

there to here where such predators are reintroduced protected and in some cases revered is the story Frank Van Nuys tells in *Varmints and Victims* a thorough and enlightening look at the evolution of predator management in the American West As controversies over predator control rage on *Varmints and Victims* puts the debate into historical context tracing the West's relationship with charismatic predators like grizzlies wolves and cougars from unquestioned eradication to ambivalent recovery efforts Van Nuys offers a nuanced and balanced perspective on an often emotional topic exploring the intricacies of how and why attitudes toward predators have changed over the years Focusing primarily on wolves coyotes mountain lions and grizzly bears he charts the logic and methods of management practiced by ranchers hunters and federal officials Broad in scope and rich in detail this work brings new much needed clarity to the complex interweaving of economics politics science and culture in the formulation of ideas about predator species and in policies directed at these creatures In the process we come to see how the story of predator control is in many ways the story of the American West itself from early attempts to connect the frontier region to mainstream American life and economics to present ideas about the nature and singularity of the region

Political Spirituality for a Century of Water Wars James W. Perkinson, 2019-04-11 This book offers resources for reimagining the biblical vision of water for a time quickly emerging as the century of water wars It takes its urgency from the author's 5 year activist engagement with a grass roots led social movement pushing back on Detroit water shutoffs as global climate crises intensify Concerned with both white supremacist biopolitics and continuing settler colonial reliance on the Doctrine of Christian Discovery and beholden to an interreligious methodology of crossing over and coming back the text creatively re-reads the biblical tradition under tutelage to the mythologies and practices of various indigenous cultures Algonquian Huron Haitian Vodouist and Celtic Norman whose embrace of water is animate and spiritual as well as political and communal Not enough today merely to engage the political battle over water rights however indigenous wisdom and biblical prophecy alike insist that recovery of water spirituality is central to a sustainable future

Yellow Stonefly Tim Poland, 2018-11-08 In her day job as a nurse Sandy Holston cares for the elderly and the sick even as she is haunted by her own questionable past and the deaths that marked it Her true self resides among the mountain trout streams of her Appalachian home where she wields her fly rod with uncanny accuracy as her life plays out along a tight line between herself and a fish on the other end But then the Ripshin River threatens to flood Sandy can no longer deny that dementia has taken hold in James Keefe her older sometimes lover An elusive eastern mountain lion appears And when a predatory survivalist keeping a solitary camp by the headwaters arrives he poses the biggest threat of all His merciless pursuit of the lion brings him ever closer to Sandy triggering her final tragic attempt to preserve her connections with Keefe the headwaters and all that she has at last come to love In *Yellow Stonefly* a rare fly fishing novel with a female protagonist Tim Poland weaves suspense and introspection into an unforgettable read at once mournful and bracing
