Taking It to the Bridge Nicholas Cook, Richard Pettengill, 2013-05-16 Musicologists and performance studies scholars reach across their disciplines to examine the role of performance in musical culture **Catalog of Copyright Entries.**

Third Series Library of Congress. Copyright Office, 1961 Includes Part 1 Number 1 2 Books and Pamphlets Including Serials and Contributions to Periodicals January December Children of Fire Thomas C. Holt, 2011-09-27 Simply brilliant The first survey of African American history to rival John Hope Franklin and Evelyn Brooks Higginbotham's *From Slavery to Freedom* Henry Louis Gates Jr Ordinary people don't experience history as it is taught by historians The same people who lived through the Civil War and the eradication of slavery also dealt with the hardships of Reconstruction so why do we almost always treat them separately In *Children of Fire* renowned historian Thomas C Holt challenges this form to tell the story of generations of African Americans through the lived experience of the subjects themselves with all of the nuances ironies contradictions and complexities one might expect Holt captures the entire African American experience from the moment the first twenty African slaves were sold at Jamestown in 1619 Each chapter focuses on a generation of individuals who shaped the course of American history hoping for a better life for their children but often confronting the ebb and flow of their civil rights and status within society Many familiar faces grace these pages Frederick Douglass W E B DuBois Martin Luther King and Barack Obama but also some overlooked ones Figures like Anthony Johnson a slave who bought his freedom in late seventeenth century Virginia and built a sizable plantation only to have it stolen away from his children by an increasingly racist court system Or Frank Moore a WWI veteran and sharecropper who sued his landlord for unfair practices but found himself charged with murder after fighting off an angry white posse Taken together their stories tell how African Americans fashioned a culture and identity amid the turmoil of four centuries of American history Provocative readable passionate Publishers Weekly *The Body of Property* Chad Luck, 2014-09-15 What does it mean to own something How does a thing become mine Liberal philosophy since John Locke has championed the salutary effects of private property but has avoided the more difficult questions of property's ontology Chad Luck argues that antebellum American literature is obsessed with precisely these questions Reading slave narratives gothic romances city mystery novels and a range of other property narratives Luck unearths a wide ranging literary effort to understand the nature of ownership the phenomenology of possession In these antebellum texts ownership is not an abstract legal form but a lived relation a dynamic of embodiment emerging within specific cultural spaces a disputed frontier a city agitated by class conflict Luck challenges accounts that map property practice along a trajectory of abstraction and virtualization The book also reorients recent Americanist work in emotion and affect by detailing a broader phenomenology of ownership one extending beyond emotion to such sensory experiences as touch taste and vision This productive blend of phenomenology and history uncovers deep seated anxieties and enthusiasms about property across antebellum culture **Multicultural America** Carlos E. Cortés, 2013-08-15 This

comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We re pivoting from a white black dominated American population to one that is multiracial and multicultural Multicultural America A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader s guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today s students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title s editors *Public Spaces, Politics, and Policy* Todd Alan Price, Morna McDermott McNulty, 2025-10-16 This book takes a deep dive into the historic sociopolitical and economic interests that have resulted in a frontal assault on the very governance of public education Recent decades have seen dramatic changes in the landscape of American public education including the closure of local schools elimination of teachers unions and local school board takeover attempts In order to explore the social and political motivations behind these changes the contributors address questions such as What tactics are being used to drive this paradigm shift where teachers are the enemy and schools are harming kids What events in this sociopolitical moment right now make it ripe for dismantling the democratic experiment of public education In an age of sound bites and instant news how can the nuanced and sometimes hypocritical narrative supporting public education compete for attention with the seductive political pablum of reactionary groups The voices in these chapters include those of curriculum theorists policy analysts education practitioners and leaders and parents all of whom engage in forms of activism at the local and or national level *Recovering the Black Female Body* Michael Bennett, Vanessa D. Dickerson, 2001 *Recovering the Black Female Body* recognizes the pressing need to highlight through scholarship the vibrant energy of African American women s attempts to wrest control of the physical and symbolic construction of their bodies away from the distortions of others *Africans of the Diaspora* Vincent Bakpetu Thompson, 2000 A study of the evolution and role of African people in the social and political

structures of the Americas Particular emphasis is placed on the evolution of leadership within the United States Animal Narratology Joela Jacobs,2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another s perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling Pre-Colonial Africa in Colonial African Narratives Donald R. Wehrs,2016-04-08 In his study of the origins of political reflection in twentieth century African fiction Donald Wehrs examines a neglected but important body of African texts written in colonial English and French and indigenous Hausa and Yoruba languages He explores pioneering narrative representations of pre colonial African history and society in seven texts Casely Hayford s Ethiopia Unbound 1911 Alhaji Sir Abubaker Tafawa Balewa s Shaihu Umar 1934 Paul Hazoum s Doguicimi 1938 D O Fagunwa s Forest of a Thousand Daemons 1938 Amos Tutuola s The Palm Wine Drinkard 1952 and My Life in the Bush of Ghosts 1954 and Chinua Achebe s Things Fall Apart 1958 Wehrs highlights the role of pre colonial political economies and articulations of state power on colonial era considerations of ethical and political issues and is attentive to the gendered implications of texts and authorial choices By positioning Things Fall Apart as the culmination of a tradition rather than as its inaugural work he also reconfigures how we think of African fiction His book supplements recent work on the importance of indigenous contexts and discourses in situating colonial era narratives and will inspire fresh methodological strategies for studying the continent from a multiplicity of perspectives **Bookseller and the Stationery Trades' Journal** ,1891 **Force, Religion, and the Quest for African American Justice** Daniel A. Morris,2025-06-26 This study argues that Black calls for force in the struggle against white supremacy have echoed concepts and principles in the Western just war tradition After establishing that just war theory has ignored Black calls for force and that the Trans Atlantic Slave Trade relied on just war ethics for its justification this book turns to African American resistance rhetoric in three crucial periods of U S history In the antebellum period the Civil Rights movement and the era of mass incarceration African American thinkers have drawn on ideas and forms of logic that run parallel to just war ethics This makes Black rhetoric of forceful resistance morally normal rather than

radical or extremist Figures in the Black just war tradition such as David Walker Henry Highland Garnet Harriet Tubman Huey Newton Bree Newsome and others should be included in the discipline of just war ethics and white American Christians should recognize that their endorsements of force are consistent with widely accepted moral positions *Who Abolished Slavery?* Seymour Drescher, Pieter C. Emmer, João Pedro Marques, 2021-01-11 The past half century has produced a mass of information regarding slave resistance ranging from individual acts of disobedience to massive uprisings Many of these acts of rebellion have been studied extensively yet the ultimate goals of the insurgents remain open for discussion Recently several historians have suggested that slaves achieved their own freedom by resisting slavery which counters the predominant argument that abolitionist pressure groups parliamentarians and the governmental and anti governmental armies of the various slaveholding empires were the prime movers behind emancipation Marques one of the leading historians of slavery and abolition argues that in most cases it is impossible to establish a direct relation between slaves uprisings and the emancipation laws that would be approved in the western countries Following this presentation his arguments are taken up by a dozen of the most outstanding historians in this field In a concluding chapter Marques responds briefly to their comments and evaluates the degree to which they challenge or enhance his view **The Publishers' Circular and Booksellers' Record**, 1928 Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress. Copyright Office, 1949 The Routledge Companion to Literature of the U.S. South Katharine A. Burnett, Todd Hagstette, Monica Carol Miller, 2022-07-11 The Routledge Companion to Literature of the U S South provides a collection of vibrant and multidisciplinary essays by scholars from a wide range of backgrounds working in the field of U S southern literary studies With topics ranging from American studies African American studies transatlantic or global studies multiethnic studies immigration studies and gender studies this volume presents a multi faceted conversation around a wide variety of subjects in U S southern literary studies The Companion will offer a comprehensive overview of the southern literary studies field including a chronological history from the U S colonial era to the present day and theoretical touchstones while also introducing new methods of reconceiving region and the U S South as inherently interdisciplinary and multi dimensional The volume will therefore be an invaluable tool for instructors scholars students and members of the general public who are interested in exploring the field further but will also suggest new methods of engaging with regional studies American studies American literary studies and cultural studies *Bookman's Guide to Americana* Joseph Norman Heard, Robert A. Hamm, 1967 **The Publishers Weekly**, 1928 National Union Catalog, 1973 Includes entries for maps and atlases **No Country for Travellers?** Rosemary Sweet, Richard Ansell, 2025-08-14 No Country for Travellers explores the rise and nature of British travel to Spain and Portugal between 1760 and 1820 across a region that is conventionally overlooked in studies of British travel to Europe Drawing on extensive archival and printed sources left by contemporary travellers Rosemary Sweet and Richard Ansell reveal the unheralded significance of the two countries to eighteenth century

British culture and their attraction as destinations long before the Peninsular War and nineteenth century romanticism Along the way the book s compelling narrative reveals the realities of Iberian travel the different itineraries that travellers followed the place of Spanish and Portuguese cities in the British imagination and the importance of mediators in cultural exchange on the Iberian side as well as the British The travellers memoirs reflect changing perceptions of Spain and Portugal as modernisation raised new hopes that vied with pessimism and ancient prejudice and also the persistence of cultural stereotypes while the counterintuitive relationship between civilian travel and armed conflict emerges through a case study of the Peninsular War Finally focusing on contemporary fascination with the Alhambra in Granada the authors examine the rise of British interest in Iberia s Islamic history with its significance for contemporary understandings of Europe
