Powers and Citizens' Rights Layla Skinns,2019-01-31 Police detention is the place where suspects are taken whilst their case is investigated and a case disposal decision is reached It is also a largely hidden but vital part of police work and an under explored aspect of police studies This book provides a much needed comparative perspective on police detention It examines variations in the relationship between police powers and citizens rights inside police detention in cities in four jurisdictions in Australia England Ireland and the US exploring in particular the relative influence of discretion the law and other rule structures on police practices as well as seeking to explain why these variations arise and what they reveal about state citizen relations in neoliberal democracies This book draws on data collected in a multi method study in five cities in Australia England Ireland and the US This entailed 480 hours of observation as well as 71 semi structured interviews with police officers and detainees Aside from filling in the gaps in the existing research this book makes a significant contribution to debates about the links between police practices and neoliberalism In particular it examines the police not just the prison as a site of neoliberal governance By combining the empirical with the theoretical the main themes of the book are likely to be of utmost importance to contemporary discussions about police work in increasingly unequal societies As a result it will also have a wide appeal to scholars and students particularly in criminology and criminal justice **Policing Non-Citizens**

Brown,2013-10-08 The police service in England and Wales is facing major

challenges in its financing political oversight and reorganisation of its structures Current economic conditions have created a wholly new environment whereby cost saving is permitting hitherto unthinkable changes in the style and means of delivery of policing services In the context of these proposed changes Lord Stevens formerly Commissioner of the Metropolitan Police Service was asked to chair an Independent Commission looking into the future of policing The Commission has a wide ranging remit and the papers in this book offer up to date analysis of contemporary problems from the novel perspective of developing a reform agenda to assist the Commission Bringing together contributions from both key academic thinkers and police professionals this book discusses new policing paradigms lays out a case for an evidence based practice approach and draws attention to developing areas such as terrorism public order and hate crime Policing is too important to be left to politicians as the health of a democracy may be judged by the relationship between the police and the public The aim of this book is to question and present analyses of problems offer new ideas and propose realistically achievable solutions without being so timid as to preserve the status quo It will be of interest to both academics and students in the fields of criminology and policing studies as well as professionals in the policing service NGOs and local authority organisations

Lethal Force, the Right to Life and the ECHR Stephen Skinner, 2019-08-22 In its case law on the use of lethal and potentially lethal force the European Court of Human Rights declares a fundamental connection between the right to life in Article 2 of the European Convention on Human Rights and democratic society This book discusses how that connection can be understood by using narrative theory to explore Article 2 law's specificities and its deeper historical social and political significance Focusing on the domestic policing and law enforcement context the book draws on an extensive analysis of case law from 1995 to 2017 It shows how the connection with democratic society in Article 2's substantive and procedural dimensions underlines the right to life's problematic duality as an expression of a basic value demanding a high level of protection and a contextually limited provision allowing states leeway in the use of force Emphasising the need to identify clear standards in the interpretation and application of the right to life the book argues that Article 2 law's narrative dimensions bring to light its core purposes and values These are to extract meaning from pain and death ground democratic society's foundational distinction between acceptable force and unacceptable violence and indicate democratic society's essential attributes as a restrained responsible and reflective system

Ellis, 2021-07-31 This book critically analyses the impact of digital media technologies on police scandal Using an in depth analysis of a viral bystander video of police excessive force filmed at the 2013 Sydney Gay and Lesbian Mardi Gras Parade and uploaded to YouTube the book addresses

the ways social media video surveillance can shape operational and institutional police responses to police misconduct The volume features new research on the immediate and longer term impacts of social media generated police scandal on police legitimacy and accountability and responds to inherent questions of procedural justice It interrogates the technological political and legal frameworks that govern the relationships between the police and LGBTQI communities in Australia and beyond through the social media test the police narratives created and contested through social media mainstream media and police media In doing so it considers the role of sexual citizenship discourse as a political economic and social organizing principle A comprehensive and interdisciplinary understanding of digital and queer criminology this is an essential read for those working at the intersection of criminology and the digital society queer criminology and critical criminology **Stop and Search and Police Legitimacy** Ben Bradford,2017-01-06 Stop and search is a form of police citizen interaction that is confrontational often stressful for those involved and potentially damaging to the relationship between police and public The extent to which police officers use their power to stop and perhaps search members of the public is intimately linked not only to the present day context of policing but also to longer term patterns in the aims of policing the ends used to achieve them and ultimately to the ideology of policing in England and Wales Stop and Search and Police Legitimacy draws upon both police administrative and survey based data to examine what has for many years been one of the most highly charged and contested aspects of police practice Taking a decidedly quantitative empirical approach this book examines the patterning of police stops over social and geographic space the problem of ethnic disproportionality and the evidence concerning how people experience and react to being stopped by police particularly in relation to issues of fairness legitimacy cooperation and compliance A further important concern is the extent to which this form of police practice shapes and re shapes the identities of those affected by it This ground breaking study is a comprehensive resource for students and scholars in the fields of criminology sociology social policy ethnic and racial studies and human rights It will also be of special interest to police leaders and policy makers Handbook of Policing Tim Newburn,2012-08-21 This new edition of the Handbook of Policing updates and expands the highly successful first edition and now includes a completely new chapter on policing and forensics It provides a comprehensive but highly readable overview of policing in the UK and is an essential reference point combining the expertise of leading academic experts on policing and policing practitioners themselves *Police in America* Steven G.
