Proudhon Et L Art:

PROUDHON ET L'ART Dominique Berthet, 2001-01-01 Cet auteur est complexe ce qui renforce son intérêt Ses positions vis-à-vis de l'art comportent certaines ambiguïtés comme celle qui fait de lui la fois un défenseur d'un art qualifié de moderne et d'idées avant-gardistes et parallèlement un moraliste prônant un art rationnel d'usage au service de la collectivité Cette étude analyse les positions du philosophe vis-à-vis de l'art des artistes des critiques d'art du public de même que ses relations avec Gustave Courbet *Du Principe de l'Art, et de sa destination sociale. [Edited by J. A. Langlois and others.]* Pierre-Joseph

Proudhon, 1865 *Theories of Art: From Winckelmann to Baudelaire* Moshe Barasch, 2000 This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials Selections discuss the play in terms of historical context dating and sources character analysis comic elements and verbal conceits evidence of authorship performance analysis and feminist interpretations Alongside theater reviews production photographs and critical commentary the volume also includes essays written by practicing theater artists who have worked on the play An index by name literary work and concept rounds out this valuable resource **Modern Theories of Art: From Winckelmann to**

Baudelaire Moshe Barasch, 1990-02 Annotation In this volume the third in his classic series of texts surveying the history of art theory Moshe Barasch traces the hidden patterns and interlocking themes in the study of art from Impressionism to Abstract Art Barasch details the immense social changes in the creation presentation and reception of art which have set the history of art theory on a vertiginous new course the decreased relevance of workshops and art schools the replacement of the treatise by the critical review and the interrelation of new modes of scientific inquiry with artistic theory and praxis The consequent changes in the ways in which critics as well as artists conceptualized paintings and sculptures were radical marked by an obsession with intense immediate sensory experiences psychological reflection on the effects of art and a magnetic pull to the exotic and alien making for the most exciting and fertile period in the history of art criticism

Courbet, Proudhon Noël Barbe, Hervé Touboul, 2010 Gustave Courbet et Pierre Joseph Proudhon Au-delà des relations personnelles ce qui se joue pour partie entre les deux hommes c'est bien la question de la position de l'activité artistique et de l'artiste au sein du monde qui les entoure et d'un nouveau monde construire Le siècle qui les a vus naître et mourir est aussi celui du développement d'une économie de marché dont les conséquences sont la destruction des relations sociales existantes l'autonomisation de l'économie par rapport au social dans le contexte du développement industriel et de l'extension d'un prolétariat urbain C'est là que prend naissance en France une série de théories visant la reconstruction de la société Elles présentent pour certaines des parentés avec la philosophie des Lumières comme le refus d'une transcendance gouvernant la société mais aussi l'idée d'une politique scientifique de la société Cet ouvrage entend contribuer la compréhension de l'artiste et de son œuvre des situations qu'il a vécues et sur lesquelles il a influé des lectures et des appropriations qui en ont été faites que ce soit au XIX^e siècle mais aussi plus tard *From Georges Sorel (Volume 2)* Georges Sorel, As his editor John L Stanley points out

Georges Sorel was that fascinating polymath This volume the third in his selected works in the English language published by Transaction emphasizes Sorel s extraordinary writings in the philosophy of science religion culture and art For those who know Sorel only as author of Reflections on Violence the present volume will come as a forceful reminder of the range and depth of Sorelian efforts to construct a world view Sorel is throughout concerned with the moral development of human beings In this sense his writings on politics are of a piece with his writings on religion facticity of human history and society Sorel s earliest writings were on religion and key portions of that period are reflected in selections here And he went on from there to study the sociology of science the ways in which science fits into the cultural history of civilization and present day social relationships of industrial society Stanley provides a profound framework based on two decades of close study and translation of Sorel s texts He helps to explain how the partial theories of Sorel lead to holistic intellectual consequences how the psychological method does not foreclose political activism and how historical limits can be transformed against a background of aesthetics or considerations of taste He shows that Sorel comes as close as Manheim and Simmel and Durkheim to the creation of a modern social science albeit he lacks the overall philosophical theorems of people like Marx and Weber In Sorel we have a first class mind at work And in Stanley we have a first class analyst at work Together the volume adds up to something special for the political scientist sociologist art historian theologian in short for those to whom the ideal of a human science endures John L Stanley is professor of political science at the University of California at Riverside He is the author of The Sociology of Virtue The Political and Social Theories of Georges Sorel He has written many articles and reviews on the history of European political theory With his wife Charlotte Stanley he has been long engaged in the translation of the works of Georges Sorel **Le développement de l'esthétique sociologique en France et en**

Pearce,2023-03-21 This book details the dramatic history of the weaponization of avant garde art as propaganda from its violent origins selling the idealistic communism of revolutionary France to its use as an American weapon wielded against the Nazi and Soviet threat as World

War II began It shows how art became ammunition in the war of ideas as the protagonists of the Second World War attempted to control the minds of their people The text highlights how the avant garde was the battlefield for the epic struggle between collectivism and American individualism and will appeal to the reader with an interest in vivid stories of art history and politics

Oeuvres posthumes de P. J. Proudhon Proudhon (Pierre-Joseph), 1865 French Poetry and Modern Industry, 1830-1870 Elliott Mansfield Grant, 1927 *"The Artist and the State, 1777-1855"* Daniel R. Guernsey, 2017-07-05 The Artist and the State 1777 1855 The Politics of Universal History in British French Painting is the first book length study to examine political uses of universal history or the philosophy of history in European art from 1777 to 1855 Daniel R Guernsey discusses a range of mural paintings and sculptural works produced in England and France between the American Revolution and the Universal Exposition of 1855 comparing the ways artists such as James Barry Eug Delacroix Paul Chenavard David d Angers and Gustave Courbet expressed linear or cyclical histories of progress and decline By considering the work of these important European artists together he reveals not only the rich artistic interaction that took place between England and France as well as Germany at this time but also how the notion of universal history was to become a major preoccupation in the work of these individual artists each one participating in shaping a highly significant mode of eighteenth and nineteenth century political art

Art in an Age of Civil Struggle, 1848-1871 Albert Boime, 2008-09-15 From the European revolutions of 1848 through the Italian independence movement the American Civil War and the French Commune the era Albert Boime explores in this fourth volume of his epic series was in a word transformative The period which gave rise to such luminaries as Karl Marx and Charles Darwin was also characterized by civic upheaval quantum leaps in science and technology and the increasing secularization of intellectual pursuits and ordinary life In a sweeping narrative that adds critical depth to a key epoch in modern art s history Art in an Age of Civil

Struggle shows how this turbulent social environment served as an incubator for the mid nineteenth century's most important artists and writers. Tracing the various movements of realism through the major metropolitan centers of Europe and America, Boime strikingly evokes the milieus that shaped the lives and works of Gustave Courbet, Edouard Manet, Émile Zola, Honoré Daumier, Walt Whitman, Abraham Lincoln, and the earliest photographers among countless others. In doing so, he spearheads a powerful new way of reassessing how art emerges from the welter of cultural and political events and the artist's struggle to interpret his surroundings. Boime supports this multifaceted approach with a wealth of illustrations and written sources that demonstrate the intimate links between visual culture and social change. Culminating at the transition to impressionism, *Art in an Age of Civil Struggle* makes historical sense of a movement that paved the way for avant-garde aesthetics and more broadly of how a particular style emerges at a particular moment.

Dreams of Happiness Neil McWilliam, 2017-03-14

Responding to the decline of the monarchy and the church in post-revolutionary France, theorists representing a wide spectrum of leftist ideologies proposed comprehensive blueprints for society that assigned a crucial role to aesthetics. In this full-length investigation of social romanticism, Neil McWilliam explores the profound impact of radical philosophies on contemporary aesthetics and art criticism and traces efforts to conscript the arts for doctrinal ends. He highlights the complexity and diversity of systems such as Saint-Simonianism, Fourierism, Republicanism, and Christian Socialism, movements that set out to exploit the ameliorative effect of aesthetic form on human consciousness and challenge the previous linking of social art to narrow didacticism. This book seeks an understanding both of the conventions of artistic judgment and reception and of the aims and significance of radical political ideologies. Drawing on a broad spectrum of previously neglected journalistic criticism, visual material, and archival sources together with key political texts by figures such as Saint-Simon, Philippe Buchez, and Pierre Leroux, this work reveals an important facet of radical history and modifies received understandings of French art in the wake of Romanticism. In the process, it probes the role of culture within oppositional political practice, arguing that the ultimate failure to realize a social art exposes the limits of the radicals' break with dominant discourse and their hesitancy in forging links with a culturally disenfranchised working class.
