Radicals On The Road The Politics Of English Travel Writing In The 1930s:

Radicals on the Road Bernard Schweizer, 2001 Schweizer an independent scholar explores the travel writing of George Orwell Evelyn Waugh Graham Greene and Rebecca West The observations made by these westerners of the lands they visited Catalonia Africa Mexico and Yugoslavia provide a range of views perhaps typical for the period Schweizer s reading concentrates on each authors politics and their psychological apprehension of the world around them The psychological theme is explored in the book s second half where Schweizer notes the inherently dualistic construction of national and international politics to be found in the writings as well as the authors anxiety of foreign places and their sense of the uncanny c Book News Inc *The Politics of 1930s British Literature* Natasha Periyar, 2018-06-14 Winner of the 2018 International Standing Conference for the History of Education s First Book Award Drawing on a rich array of archival sources and historical detail *The Politics of 1930s British Literature* tells the story of a school minded decade and illuminates new readings of the politics and aesthetics of 1930s literature In a period of shifting political claims educational policy shaped writers social and gender ideals This book explores how a wide array of writers including Virginia Woolf W H Auden George Orwell Winifred Holtby and Graham Greene were informed by their pedagogic work It considers the ways in which education influenced writers analysis of literary style and their conception of future literary forms *The Politics of 1930s British Literature* argues that to those perennial symbols of the 1930s the loudspeaker and the gramophone should be added the textbook and the blackboard *French Political Travel Writing in the Interwar Years* Martyn Cornick, Martin Hurcombe, Angela Kershaw, 2017-02-10 This book studies travel writing produced by French authors between the two World Wars following visits to authoritarian regimes in Europe and the Union of Soviet Socialist Republics USSR It sheds new light on the phenomenon of French political travel in this period by considering the well documented appeal of Soviet communism for French intellectuals alongside their interest in other radical regimes which have been much less studied fascist Italy the Iberian dictatorships and Nazi Germany Through analyses of the travel writing produced as a result of such visits the book gauges the appeal of these forms of authoritarianism for inter war French intellectuals from a broad political spectrum It examines not only those whose political sympathies with the extreme right or extreme left were already publicly known but also non aligned intellectuals who were interested in political models that offered an apparently radical alternative to the French Third Republic This study shows how travel writing provided a space for reflection on the lessons France might learn from the radical political experiments of the inter war years It argues that such writing can usefully be read as a form of utopian thinking distinguishing this from colloquial understandings of utopia as an ideal location Utopianism is understood neither as a fantasy ungrounded in the real nor as a dangerously totalitarian ideal but in line with Karl Mannheim Paul Ric ur and Ruth Levitas as a form of non congruence with the real that it seeks to transcend The utopianism of French political travel writing is seen to lie not in the attempt to portray the destination visited as utopia but rather in the pursuit of a

dialogue with radical political alterity

A Generic History of Travel Writing in Anglophone and Polish Literature

Grzegorz Moroz, 2020-08-31 A Generic History of Travel Writing in Anglophone and Polish Literature offers a comprehensive comparative and generic analysis of developments of travel writing in Anglophone and Polish literature from the Late Medieval Period to the twenty first century These developments are depicted in a wider context of travel narratives written in other European languages Grzegorz Moroz convincingly argues that for all the similarities and cross cultural influences in the course of the nineteenth and twentieth century non fiction Anglophone and Polish travel writing have dynamically evolved different generic horizons of expectations While the Anglophone travel book developed relatively steadily in that period the Polish genre of the podr was first replaced by the listy kartki z podr y and then by the reporta podr niczy

Modernist Travel Writing David G. Farley, 2010-11-30 As the study of travel writing has grown in recent years scholars

have largely ignored the literature of modernist writers Modernist Travel Writing Intellectuals Abroad by David Farley addresses this gap by examining the ways in which a number of writers employed the techniques and stylistic innovations of modernism in their travel narratives to variously engage the political social and cultural milieu of the years between the world wars Modernist Travel Writing argues that the travel book is a crucial genre for understanding the development of modernism in the years between the wars despite the established view that travel writing during the interwar period was largely an escapist genre one in which writers hearkened back to the realism of nineteenth century literature in order to avoid interwar anxiety Farley analyzes works that exist on the margins of modernism generically and geographically works that have yet to receive the critical attention they deserve partly due to their classification as travel narratives and partly because of their complex modernist styles The book begins by examining the ways that travel and the emergent travel regulations in the wake of the First World War helped shape Ezra Pound s Cantos From there it goes on to examine E E Cummings s frustrated attempts to navigate the unworld of Soviet Russia in his book Eimi Wyndham Lewis s satiric journey through colonial Morocco in Filibusters in Barbary and Rebecca West s urgent efforts to make sense of the fractious Balkan states in Black Lamb and Grey Falcon These modernist writers traveled to countries that experienced most directly the tumult of revolution the effects of empire and the upheaval of war during the years between World War I and World War II Farley s study focuses on the question of what constitutes evidence for Pound Lewis Cummings and West as they establish their authority as eyewitnesses translate what they see for an audience back home and attempt to make sense of a transformed and transforming modern world Modernist Travel Writing makes an original contribution to the study of literary modernism while taking a distinctive look at a unique subset within the growing field of travel writing studies David Farley s work will be of interest to students and teachers in both of these fields as well as to early twentieth century literary historians and general enthusiasts of modernist studies

Not So Innocent Abroad Ulrike Brissou, Bernard

Schweizer, 2009-10-02 With its specific focus on the connections between politics travel and travel writing Not So Innocent

Abroad offers a fresh approach to the study of travel literature. The authors make clear that travel and travel writing are never an innocent enterprise; rather, journeying always occurs within political systems and travel writing either reflects the traveler's political stance, includes political aspects of foreign cultures, or directly or indirectly influences political decisions. In contrast to most scholarly publications that primarily focus on travel literature of former colonial nations, this volume includes a broader range of travelogues depicting cultures worldwide, spanning from the eighteenth to the twenty-first century. It thus offers, with its comparative approach, not only a geographically wide selection but also an historical dimension to the political aspects of travel writing. Although most travel literature generally has followed the Horatian principle to instruct and delight the armchair traveler, the authors of this volume clearly address the broader political implications of travel and travel writing within networks of naked politics, such as international or interior conflicts, emigration laws, or national propaganda. They also reveal how insidiously political messages are dissimulated through travel writing.

Travel Writing Carl Thompson, 2011-05-16 An increasingly popular genre addressing issues of empire, colonialism, post colonialism, globalization, gender, and politics, travel writing offers the reader a movement between the familiar and the unknown. In this volume, Carl Thompson introduces the genre, outlining competing definitions and key debates, provides a broad historical survey from the medieval period to the present day, explores the autobiographical dimensions of the form, looks at both men and women's travel writing, surveying a range of canonical and more marginal works drawn from both the colonial and postcolonial era, utilises both British and American travelogues to consider the genre's role in shaping the history of both nations. Concise and practical, *Travel Writing* is the ideal introduction for those new to the subject as well as a crucial overview of current debates in the field.

Literature in the First Media Age David Trotter, 2013-12-31 Communications technology is an idea about the prosthetic enhancement of our capacity to communicate. Some of the writers who first woke up to this fact lived and wrote in Britain between the World Wars. Here David Trotter creates a new literary canon of works distinguished by their alertness to the implications of new media and materials.

Travel Narrative and the Ends of Modernity Stacy Burton, 2014 Combining theoretical arguments with close reading, this text traces how twentieth-century writers have reinvented travel narrative for new purposes.

British Literature in Transition, 1940-1960: Postwar Gill Plain, 2019 Examines debates central to postwar British culture, showing the pressures of reconstruction and the mutual implication of war and peace.

Wittman,2022-05-03 How people traveled and how people wrote about travel changed in the interwar years Novel technologies eased travel conditions breeding new iterations of the colonizing gaze The sense that another war was coming lent urgency and anxiety to the search for new places and authentic experiences In *Interwar Itineraries* Authenticity in Anglophone and French Travel Writing Emily O Wittman identifies a

diverse group of writers from two languages who embarked on such quests For these writers authenticity was achieved through rugged adventure abroad to economically poorer destinations Using translation theory and new approaches in travel studies and global modernisms Wittman links and complicates the symbolic and rhetorical strategies of writers including Andr Gide Ernest Hemingway Michel Leiris Isak Dinesen Beryl Markham among others that offer insight into the high ethical stakes of travel and allow us to see in new ways how models of the authentic self are built and maintained through asymmetries of encounter This book offers a valuable account of literary activity in a genre still inadequately covered in literary critical history Emily Witt man organizes her material through pairings and contextualizing that are instructive and illuminating and often exciting This is comparative literature at its best Vincent Sherry Washington University
