K. Baker,2013 Geography [The Times Mapping the Railways](#) David Spaven,Julian Holland,2011 Follow the development decline and revival of Britain s railways through a unique collection of old and new maps commentaries and photographs The story is traced from early waggonways through the steam era to today s diesel and electric railways *The Railways of Bradford & Leeds* Peter Waller,2023-12-30 It was to the south west of Leeds that one of the key lines in the development of Britain s railway network the Middleton Railway established the principle of seeking parliamentary sanction for the construction of a new form of transport Five decades later in the early nineteenth century it was again the Middleton Railway that was at the forefront of the use of steam rather than animal power to move coal from colliery to market From the early 1830s through until the early years of the twentieth century the local railway network continued to expand indeed if it had not been for the outbreak of the First World War in 1914 the area would have played host to one of the last first generation main lines to be constructed with the Midland Railway planning and partially constructing a new main line north from Royston In the event the line was never completed consigning Bradford to be served by no more than glorified branch lines Providing a largely illustrated account to the history of the railway development of the area the book includes a fascinating selection of illustrations that focus on the evolution of

the network in the almost eighty years since the end of the Second World War
