have written the most about They are reprinted here with minimal editing to offer a glimpse into my world and to show you the concerns I ve had as an American atheist That means talking about atheists who fight for their and in many respects our rights responding to people who smear us just because we re not religious and making people aware of the way atheists are viewed by the majority of Americans hint we re not very popular That means talking about politics and social issues in particular the fight for equal rights for the LGBT community since those are the major issues in our country where rational thinking free from religious tradition is needed but seldom found That means talking about the obstacles that young atheists have to deal with on a regular basis Their challenges are so different than the ones we face in the real world yet their courage inspires all of us To be a vocal atheist is never easy and there are students promoting rational thinking on campus while keeping their administrators in check They do this despite risking their social capital At the same time when those students are not around to act as watchdogs we must do it for them and shine a spotlight on illegal intrusions of religion into our public schools Are these the only issues that matter to atheists No but they are the issues that have taken up the bulk of my writing in the years since I began covering atheism related news If you want to get a fuller picture of what atheists are talking about what our activism involves and what our future looks like no single writer can do that for you just as no single study guide will prepare you for a final exam
