*The Desert Smells Like Rain* remains a classic work about nature how to respect it and what transplants can learn from the longtime residents of the Sonoran Desert the Tohono O odham people In this work Gary Paul Nabhan brings O odham voices to the page at every turn He writes elegantly of how they husband scant water supplies grow crops and utilize edible wild foods Woven through his account are coyote tales O odham children s impressions of the desert and observations of the political problems that come with living on both sides of an international border Nabhan conveys the everyday life and extraordinary perseverance of these desert people This edition includes a new preface written by the author in which he reflects on his gratitude for the O odham people who shared their knowledge with him He writes about his own heritage and connections to the desert climate change and the border He shares his awe and gratitude for O odham writers and storytellers who have been generous enough to share stories with those of us from other cultural traditions so that we may also respect and appreciate the smell of the desert after a rain Longtime residents of the Sonoran Desert the Tohono O odham people have spent centuries living off the land a land that most modern citizens of southern Arizona consider totally inhospitable Ethnobotanist Gary Nabhan has lived with the Tohono O odham long known as the Papagos observing the delicate balance between these people and their environment Bringing O odham voices to the page at every turn he writes

elegantly of how they husband scant water supplies grow crops and utilize wild edible foods Woven through his account are coyote tales O odham children s impressions of the desert and observations on the political problems that come with living on both sides of an international border Whether visiting a sacred cave in the Baboquivari Mountains or attending a saguaro wine drinking ceremony Nabhan conveys the everyday life and extraordinary perseverance of these desert people in a book that has become a contemporary classic of environmental literature *Neither Wolf Nor Dog* David Rich Lewis,1994-10-06

During the nineteenth century Americans looked to the eventual civilization and assimilation of Native Americans through a process of removal reservation and directed culture change Policies for directed subsistence change and incorporation had far reaching social and environmental consequences for native peoples and native lands This study explores the experiences of three groups Northern Utes Hupas and Tohono O odhams with settled reservation and allotted agriculture in the nineteenth and twentieth centuries Each group inhabited a different environment and their cultural traditions reflected distinct subsistence adaptations to life in the western United States Each experienced the full weight of federal agrarian policy yet responded differently in culturally consistent ways to subsistence change and the resulting social and environmental consequences Attempts to establish successful agricultural economies ultimately failed as each group reproduced their own cultural values in a diminished and rapidly changing environment In the end such policies and agrarian experiences left Indian farmers marginally incorporated and economically dependent **Scientists and Storytellers**

*Border Citizens* Eric V. Meeks, 2019-11-15 In *Border Citizens* historian Eric V Meeks explores how the racial classification and identities of the diverse indigenous mestizo and Euro American residents of Arizona's borderlands evolved as the region was politically and economically incorporated into the United States First published in 2007 the book examines the complex relationship between racial subordination and resistance over the course of a century On the one hand Meeks links the construction of multiple racial categories to the process of nation state building and capitalist integration On the other he explores how the region's diverse communities altered the blueprint drawn up by government officials and members of the Anglo majority for their assimilation or exclusion while redefining citizenship and national belonging The revised edition of this highly praised and influential study features dozens of new images an introductory essay by historian Patricia Nelson Limerick and a chapter length afterword by the author In his afterword Meeks details and contextualizes Arizona's aggressive response to undocumented immigration and ethnic studies in the decade after *Border Citizens* was first published demonstrating that the broad based movement against these measures had ramifications well beyond Arizona He also revisits the Yaqui and Tohono O'odham nations on both sides of the Sonora Arizona border focusing on their efforts to retain extend and enrich their connections to one another in the face of increasingly stringent border enforcement      *How Mockingbirds Are* Donald Bahr, 2011-06-24 The power of mockingbirds and the enduring significance of indigenous ceremonial speeches are deftly revealed in this brilliant analysis of ritual orations created and delivered by the O'odham people also known as the Pima Papago Making their homes along the Akimel rivers and across the arid expanses and mountains of the desert of southern Arizona and northern Sonora the O'odham people traditionally lived in small villages with scattered brush walled

round houses Public ceremonies involved many villages and centered around small brush walled rainhouses One hundred years ago two very different versions of a speech delivered during rain ceremonies were heard at these rainhouses The Pimas Akimel O odham told of nearly silent and stately events the calming of a heaving earth the building of a house on the stilled land the breathing out of smoke and the coming of gentle rain In marked contrast the Papagos Tohono O odham told of how raucous drunken people caused clouds to rise and explode with rain like vomiting drunks Both stories featured mockingbirds and both involved the coming of rain Today the gentler Pima version is extinct while the wilder Papago story endures Why Drawing upon a rich reservoir of O odham oral traditions and ceremonial performances a meticulous deciphering of particular texts and an insightful assessment of the impact of Christianity upon the O odham people Donald Bahr offers a brilliant analysis of why some indigenous stories cease to be relevant and told The clues lie in the very different trajectories of the Pima and Papago communities in the late nineteenth and twentieth centuries trajectories resulting in part with how Christianity fared in the respective communities

O'odham Creation and Related Events Donald M. **Wings in the Desert** Amadeo M.
