know you may say it's easy to say but so much not to do. As parents we feel lost we don't know which way to turn it seems that all the attempts we make to help our son come out of his shell turn out to be useless. But building a child's confidence is easier than you think. While we are not all born with confidence it is a muscle you can train and help your kids train. The great news is confidence can grow and develop and if it does children are more likely to have fulfilling lives. The causes of a lack of self-confidence can be many: death of a loved one or separation, bullying or perhaps he has suffered trauma. However this manual is not based on causes or problems but on solutions on practical advice that will help your child come out of hiding right away. There are specific things we can do to boost their self-esteem, make them feel loved and secure and ultimately increase their confidence. In this book I'll use the information I've gathered from years of research to explain the best ways to ensure your children grow up healthy, happy and full of confidence. In this path you'll discover the connection between raising confident kids and hard work, talent, integrity, good ideas and deep support. You'll help your child feel unique and special, to appreciate his qualities and strengths, he'll acquire the mindset of a true champion. On completing this path you will be able to help your child improve in all of these aspects.
