Arthur Elson

Returnig To The Song:

The Book of Musical Knowledge Arthur Elson,1915 Homer's Traditional Art John Miles Foley,2015-08-10 In recent decades the evidence for an oral epic tradition in ancient Greece has grown enormously along with our ever increasing awareness of worldwide oral traditions John Foley here examines the artistic implications that oral tradition holds for the understanding of the Iliad and Odyssey in order to establish a context for their original performance and modern day reception In *Homer's Traditional Art* Foley addresses three crucially interlocking areas that lead us to a fuller appreciation of the Homeric poems He first explores the reality of Homer as their actual author examining historical and comparative evidence to propose that Homer is a legendary and anthropomorphic figure rather than a real life author He next presents the poetic tradition as a specialized and highly resonant language bristling with idiomatic implication Finally he looks at Homer's overall artistic achievement showing that it is best evaluated via a poetics aimed specifically at works that emerge from oral tradition Along the way Foley offers new perspectives on such topics as characterization and personal interaction in the epics the nature of Penelope's heroism the implications of feasting and lament and the problematic ending of the Odyssey His comparative references to the South Slavic oral epic open up new vistas on Homer's language narrative patterning and identity *Homer's Traditional Art* represents a disentangling of the interwoven strands of orality textuality and verbal art It shows how we can learn to appreciate how Homer's art succeeds not in spite of the oral tradition in which it was composed but rather through its unique agency **Japanese Techniques of Occupation** ,1943 *Social Influences on Vocal Development* Charles T. Snowdon,Martine Hausberger,1997-03-20 For at least 30 years there have been close parallels between studies of birdsong development and those of the development of human language Both song and language require species specific stimulation at a sensitive period in development and subsequent practice through subsong and plastic song in birds and babbling in infant humans leading to the development of characteristic vocalisations for each species This book illustrates how social interactions during development can shape vocal learning and extend the sensitive period beyond infancy and how social companions can induce flexibility even into adulthood Social companions in a wide range of species including birds and humans but also cetaceans and nonhuman primates play important roles in shaping vocal production as well as the comprehension and appropriate usage of vocal communication This book will be required reading for students and researchers interested in animal and human communication and its development *Dreams and Days* George Parsons Lathrop,1892 Spectre like Famine drew near Her doom word hummed in his ear Ah weak were woman's hands to reach And save him from the hellish charms And wizard motion of those arms The select melodies of Scotland ,1822 **The Return of the Angels** George Herbert Morrison,1909 **Poet Lore** ,1928 **Victorian Science and Literature, Part I Vol 1** Gowan Dawson,Bernard Lightman,Piers J Hale,Jonathan Smith,Suzy Anger,James Paradis,Richard England,Jude V Nixon,David Amigoni,James Elwick,2024-08-01 This eight volume reset edition in two parts collects rare primary sources on

Victorian science literature and culture The sources cover both scientific writing that has an aesthetic component what might be called the literature of science and more overtly literary texts that deal with scientific matters *Prose Idylls, New and Old* Charles Kingsley, 2019-05-22
