*Bodies* Gillian Bennett, 2009-09-18 Because they are so often told as news contemporary legends force us to reevaluate life as we know it They confront us with macabre fantastic horrific or hilarious characters and events that seem to come straight out of myths and folktales but are presented as present day events The difficulty is that it is not at all easy to decide whether these often disturbing stories should be treated as reliable or dismissed as fantasy The legends explored in this book are some of the most bizarre gruesome and politically sensitive stories in the contemporary legend canon At any moment a body may be invaded by noxious creatures deliberately infected with deadly disease or raided to provide donor organs for sick foreigners These are winter's tales the stuff of nightmares In this book Gillian Bennett traces the cultural history of six legends well known in Europe and America from medieval times to the present day Appearing in broadsides ballads myths ancient and modern legends novels plays films television shows and stories told in the oral tradition these legends are not just silly tales which can be dismissed as trivial and untrue They reveal much about the concerns and fears of everyday life and demonstrate the limits of knowledge and power in the modern world [Index to Short Stories](#)

[From Gift to Commodity](#) Hildegard Hoeller, 2012 In this rich interdisciplinary study Hildegard Hoeller argues that nineteenth century American culture was driven by and deeply occupied with the tension between gift and market exchange Rooting her analysis in the period's fiction she shows how American novelists from Hannah Foster to Frank Norris grappled with the role of the gift based on trust social bonds and faith in an increasingly capitalist culture based on self interest market transactions and economic reason Placing the notion of sacrifice at the center of her discussion Hoeller taps into the

poignant discourse of modes of exchange revealing central tensions of American fiction and culture      **World of the Gift**  
Jacques T. Godbout, Alain C. Caille, 1998-10-21 The anthropologist Marcel Mauss in his famous exploration of the gift in primitive and archaic societies showed that the essential aspect of the exchange of presents involved the establishment of a social tie that bound the parties together above and beyond any material value of the objects exchanged He argued that these intangible mutual debts constituted the social fabric Godbout and Caille show that contrary to the modern assumption that societies function on the basis of market exchange and the pursuit of self interest the gift still constitutes the foundation of our social fabric The authors describe the gift not as an object but as a social connection perhaps the most important social connection because it creates a sense of obligation to respond in kind They examine the gift in a broad range of cases such as blood and organ donation volunteer work the bonds between friends couples and family Santa Claus the interaction between performers and their audience and the relation of the artist to society Written in an engaging manner The World of the Gift will appeal to anyone who is interested in how the world really operates      **Index to Short Stories--Supplement**
