mazeways Anthony F. C. Wallace, 2003 **Revitalizations and Mazeways** Anthony F. C. Wallace, 2003 **Caesarism, Charisma and Fate** Peter Baehr, 2017-12-02 How do writers marginalized by the authoritarian state in which they live intervene in the political process They cannot do so directly because they are not politicians Other modes of engagement are possible however A writer may take up arms and become a revolutionary Or as Max Weber did he may try to influence politics by playing the role of constitutional advisor or by seeking to shape the dominant language in which his contemporaries think Weber sought to reconstitute the political and social vocabulary of his day Part I of *Caesarism, Charisma and Fate* examines a great writer s political passions and the linguistic creativity they generated Specially it is an analysis of the manner in which Weber reshaped the nineteenth century idea of Caesarism a term traditionally associated with the authoritarian populism of Napoleon III and Bismarck and transmuted it into a concept that was either neutral or positive The coup de grace of this alchemy was to make Caesarism reappear as charisma In that transformation a highly contentious political concept suffused with disapproval and anxiety was naturalized into an ideal type of universal value free sociology Part II augments Weber s ideas for the modern age A recurrent preoccupation of Weber s writings was human fate a condition that evokes the pathos of choice the political meaning of death and the formation of national solidarity Peter Baehr marrying Weber and Durkheim fashions a new concept community of fate for sociological theory Communities of fate such as the Warsaw Ghetto or Hong Kong dealing with the Severe Acute Respiratory Syndrome SARS crisis are embattled social sites in which people face the prospect of collective death They cohere because of an intense and broadly shared focus of attention on a common plight Weber s work helps us grasp the nature of such communities the mechanisms that produce them and not least their dramatic consequences Coming Full Circle Suzanne Crawford O'Brien, 2020-02-17 *Coming Full Circle* is an interdisciplinary exploration of the relationships between spirituality and health in several contemporary Coast

Salish and Chinook communities in western Washington from 1805 to 2005 Suzanne Crawford O'Brien examines how these communities define what it means to be healthy and how recent tribal community based health programs have applied this understanding to their missions and activities She also explores how contemporary definitions goals and activities relating to health and healing are informed by Coast Salish history and also by indigenous spiritual views of the body which are based on an understanding of the relationship between self ecology and community Coming Full Circle draws on a historical framework in reflecting on contemporary tribal health care efforts and the ways in which they engage indigenous healing traditions alongside twenty first century biomedicine The book makes a strong case for the current shift toward tribally controlled care arguing that local culturally distinct ways of healing and understanding illness must be a part of contemporary Native healthcare Combining in depth archival research extensive ethnographic participant based field work and skillful scholarship on theories of religion and embodiment Crawford O'Brien offers an original and masterful analysis of contemporary Native Americans and their worldviews

When the Sun Danced Jeffrey S. Bennett, 2012 Between May and October of 1917 three young shepherds were reportedly visited six times by an apparition of the Virgin Mary near the town of Fátima in Portugal At the final apparition event approximately 70 000 visitors gathered to witness a prophesied miracle intended to convince the public that the children's visions were of divine origin The miracle took the form of a solar anomaly witnesses claimed that the sun began to dance Exploring the early development of the cult of the Virgin of Fátima and the overthrow of the liberal secular government by pro Catholic elements Jeffrey Bennett offers the first book length scholarly study of the cult's relationship to the rise of authoritarian politics in Portugal When the Sun Danced offers a fascinating look at the cultural dynamics that informed one of the most turbulent periods in the nation's history

Indigenous Knowledge and the Environment in Africa and North America David M. Gordon, Shepard Krech III, 2012-03-01 Indigenous knowledge has become a catchphrase in global struggles for environmental justice Yet indigenous knowledges are often viewed incorrectly as pure and primordial cultural artifacts This collection draws from African and North American cases to argue that the forms of knowledge identified as indigenous resulted from strategies to

control environmental resources during and after colonial encounters At times indigenous knowledges represented a middle ground of intellectual exchanges between colonizers and colonized elsewhere indigenous knowledges were defined through conflict and struggle The authors demonstrate how people claimed that their hybrid forms of knowledge were communal religious and traditional as opposed to individualist secular and scientific which they associated with European colonialism Indigenous Knowledge and the Environment offers comparative and transnational insights that disturb romantic views of unchanging indigenous knowledges in harmony with the environment The result is a book that informs and complicates how indigenous knowledges can and should relate to environmental policy making Contributors David Bernstein Derick Fay Andrew H Fisher Karen Flint David M Gordon Paul Kelton Shepard Krech III Joshua Reid Parker Shipton Lance van Sittert Jacob Tropp James L A Webb Jr Marsha Weisiger
