Cain, A. G. Hopkins, 2014-01-14 A milestone in the understanding of British history and imperialism and truly global in its reach this magisterial account received numerous accolades from reviewers in its first edition The first to coin the phrase gentlemanly capitalism Cain and Hopkins make the strong and provocative argument that it is impossible to understand the nature and evolution of British imperialism without taking account of the peculiarities of her economic development In particular the growth of the financial sector and above all the City of London played a crucial role in shaping the course of British history and Britain's relations overseas Now with a substantive new introduction and a conclusion the scope of the original account has been widened to include an innovative discussion of globalization *Africa, Asia, and South America Since 1800* A. The First World War Hew Strachan, 2003-02-06 This is the first truly definitive history of the First World War the war that has done most to shape the twentieth century The first generation of its historians had access to only a limited range of sources and their focus was primarily on military events More recent approaches have embraced cultural diplomatic economic and social history In Hew Strachan s authoritative and readable history these fresh perspectives are incorporated with the military and strategic narrative The result is an account that breaks the bounds of national preoccupations to become both global and comparative To Arms the first of three volumes in this magisterial study examines not only the causes of the war and its opening clashes on land and sea but also the ideas that underpinned it and the motivations of the people who supported it It provides full and pioneering accounts of the war s finances of the war in Africa and of the Central Powers bid
