Revolution and Chinese Foreign Policy Peter Van Ness,1973 *Revolution and Chinese Foreign Policy* Peter Van Ness,1970 **Revolution and War** Stephen M. Walt,2013-08-07 Revolution within a state almost invariably leads to intense security competition between states and often to war In *Revolution and War* Stephen M Walt explains why this is so and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future In doing so he explores one of the basic questions of international relations What are the connections between domestic politics and foreign policy Walt begins by exposing the flaws in existing theories about the relationship between revolution and war Drawing on the theoretical literature about revolution and the realist perspective on international politics he argues that revolutions cause wars by altering the balance of threats between a revolutionary state and its rivals Each state sees the other as both a looming danger and a vulnerable adversary making war seem both necessary and attractive Walt traces the dynamics of this argument through detailed studies of the French Russian and Iranian revolutions and through briefer treatment of the American Mexican Turkish and Chinese cases He also considers the experience of the Soviet Union whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world An important refinement of realist approaches to international politics this book unites the study of revolution with scholarship on the causes of war

Culture and Security Keith R. Krause,2012-11-12 A comprehensive and empirically rich set of case studies that examine the impact of socio cultural influences on multilateral arms control and security building processes around the world **The Cambridge History of China** Roderick MacFarquhar,John King Fairbank,1987 *China, Taiwan, Hong Kong* Arlene D. C. Luster,1971 **Revolution and World Politics** Fred Halliday,1999-08-23 The relation of revolutions to international relations is central to modern history Revolutions have as much as war or nationalism shaped the development of world politics Equally revolutions have been in cause ideology and consequence international events By putting the international politics of revolution centre stage Fred Halliday s book makes a major contribution to the understanding of both revolution and world politics **China, East Asia and the European Union** ,2016-11-21 In *China East Asia and the European Union* specialist authors from both Europe and Asia reflect on the dynamic relationship between the three actors from an International Relations perspective The book is a testimony to China s seemingly unstoppable rise both in the East Asian region and in the relationship with the EU and its member states The authors investigate why the economic links between the European Union and East Asia have become so firmly established while in comparison the political bond has remained underdeveloped They conclude that the crises the EU is currently facing seriously affect its manoeuvring space vis a vis China and its neighbours both economically and politically Contributors are Ding Chun Neil Duggan Enrico Fardella Frank Gaenssmantel Tjalling Halbertsma Daniel R Hammond Jan van der Harst Elisa H rhager Jing Jing Werner Pascha Sanne Kamerling David Kerr Silja Keva Christopher K Lamont Li Junyang Feng Liu Maaïke Okano Heijmans Nadya Stoyanova and

Herman Voogsgeerd **Communications and National Integration in Communist China** Alan P. L. Liu, 1971 **China and the First Vietnam War, 1947-54** Laura M. Calkins, 2013-04-12 This book charts the development of the First Vietnam War the war between the Vietnamese Communists the Viet Minh and the French colonial power considering especially how relations between the Viet Minh and the Chinese Communists had a profound impact on the course of the war It shows how the Chinese provided finance training and weapons to the Viet Minh but how differences about strategy emerged particularly when China became involved in the Korean War and the subsequent peace negotiations when the need to placate the United States and to prevent US military involvement in Southeast Asia became a key concern for the Chinese The book shows how the Viet Minh strategy of all out war in the north and limited guerrilla warfare in the south developed from this situation and how the war then unfolded
