Revolution In America Considerations And Comparisons

**United States. Department of
Agriculture. Economics, Statistics, and
Cooperatives Service, Lyle P. Schertz**

Revolution In America Considerations And Comparisons:

Revolution in America Don Higginbotham, 2005 Our nation has produced comparatively few statesmen since the eighteenth century only Abraham Lincoln and Franklin Roosevelt seem to clearly qualify whereas the American Revolution elevated several of its key players to a status of the first political order Even the shortest list must include Franklin Hamilton and the first four presidents The opening essays in Don Higginbotham s new collection look at the epochal achievements of the Revolutionary era through the perspectives of war leadership and state formation Higginbotham examines how the blend of key personages influenced the creation of a federal system and led to the establishment of a new kind of militia and of West Point a military academy distinctly different from its counterparts in Europe The collection also provides a fascinating view into the character of George Washington through an essay examining his relationships with women The concluding essays turn to the post Revolutionary era to examine how the North and South despite profound and persistent bonds began to grow apart Higginbotham traces the deepening sectional crisis within the context of the election of Lincoln and he ends his book with the approach of a second revolution that of the Confederacy All of the essays demonstrate Higginbotham s belief that history is not shaped simply by vast impersonal forces but that on the contrary significant and lasting change is to a large extent brought about by the interaction and decisions of individuals Our unique and remarkable history is a reflection of remarkable people

George Washington and the Immortal Moment George Morrow, 2012

Renegade Revolutionary Phillip Papas, 2014 Honorable Mention for the 2015 Book Award from the American Revolution Round Table of Richmond Honorable Mention for the 2015 Fraunces Tavern Museum Book Award In November 1774 a

pamphlet to the People of America was published in Philadelphia and London It forcefully articulated American rights and liberties and argued that the Americans needed to declare their independence from Britain The author of this pamphlet was Charles Lee a former British army officer turned revolutionary who was one of the earliest advocates for American independence Lee fought on and off the battlefield for expanded democracy freedom of conscience individual liberties human rights and for the formal education of women Renegade Revolutionary The Life of General Charles Lee is a vivid new portrait of one of the most complex and controversial of the American revolutionaries Lee s erratic behavior and comportment his capture and more than one year imprisonment by the British and his court martial after the battle of Monmouth in 1778 have dominated his place in the historiography of the American Revolution This book retells the story of a man who had been dismissed by contemporaries and by history Few American revolutionaries shared his radical political outlook his cross cultural experiences his cosmopolitanism and his confidence that the American Revolution could be won primarily by the militia or irregulars rather than a centralized regular army By studying Lee s life his political and military ideas and his style of leadership we gain new insights into the way the American revolutionaries fought and won their independence from Britain

Rare Americana for Sale by Henry Stevens Son & Stiles ... London Henry Stevens (Son and Stiles, Booksellers.),1907

Sons of the Father Robert M. S. McDonald,2013-09-24 Whether acting as a military officer or civilian officeholder George Washington did not possess a reputation for glad handing easy confidences or even much warmth His greatest attributes as a commander might well have been his firm command over his own emotions and the way in which he held himself above if not apart from the men he led Understanding the full range of Washington s leadership which embraced all shades of persuasion and coercion as well as multiple modes of command and solicitude requires the examination of his influence on the lives careers and characters of the members of a diverse fraternity of younger men In *Sons of the Father* leading scholars analyze Washington s relationships with men such as Daniel Morgan Anthony Wayne Thomas Jefferson James Monroe Henry Knox Nathanael Greene Gouverneur Morris Alexander Hamilton and the Marquis de Lafayette The men on whom this volume focuses were not all his closest associates Yet all are important figures in that their interactions with Washington provide glimpses into various aspects of his capacities for management motivation control and the cultivation of talent The essays in this volume demonstrate Washington s consistency in treating all these men differently for different reasons at different times It was perhaps part of his genius to recognize the individuality of the men with whom he interacted as well as the shifting requirements of changing circumstances Contributors Fred Anderson University of Colorado Boulder Theodore J Cracker University of Virginia William M Ferraro University of Virginia Jack P Greene Johns Hopkins University John W Hall University of Wisconsin Madison Peter R Henriques George Mason University Mary Jo Kline University of Virginia Stuart Leibiger La Salle University L Scott Philyaw Western Carolina University Thomas Rider United States Military Academy Brian Steele University of Alabama at Birmingham Mary Stockwell Louisiana State University Shreveport Mark

Thompson University of North Carolina at Pembroke *Another Revolution in U.S. Farming?* United States. Department of Agriculture. Economics, Statistics, and Cooperatives Service, Lyle P. Schertz, 1979 **Political Violence, Crises and**

Revolutions (Routledge Revivals) Ekkart Zimmermann, 2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political violence Crises Military Coups D tat Revolutions Findings from social psychological research on aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and corresponding empirical evidence The author continually highlights the sociostructural and political conditions of political violence crises and revolutions This exceptionally detailed and systematic inventory of theories and research on a classic triad of political science political violence crises and revolutions also includes a remarkable bibliography encompassing over 3000 items Another

Revolution in U.S. Farming? Lyle P. Schertz, 1979 *Unconventional Resources in the Oil and Gas Industry* Eduardo Pereira, 2024-08-12 The emergence of unconventional oil and gas extraction known as the shale revolution since 2008 has fundamentally reshaped the global energy sector This revolution driven by technological advancements in hydraulic fracturing and horizontal drilling has unlocked vast reserves of oil and gas previously deemed inaccessible Despite challenges like the COVID 19 pandemic fluctuating oil prices and growing environmental concerns unconventional resources continue to play a pivotal role in shaping energy policies worldwide This book delves deeply into the transformative impact of unconventional resources on international energy markets and policies providing a comprehensive analysis of their significance Written by over 20 experts in oil and gas law the book offers a rich multidisciplinary perspective It covers topics that are horizontal and cut across various jurisdictions providing a comparative approach that spans 11 different countries including the USA Canada Argentina Brazil Colombia Mexico the UK Algeria Libya China and Germany This extensive analysis ensures a broad understanding of the global landscape of unconventional resources Main themes include Global Impact Unconventional resources have not only transformed the United States into a leading oil and gas producer but have also significantly influenced energy strategies worldwide Countries across North America South America Europe and Asia have adopted various strategies to harness these resources reshaping the global energy market Policy Considerations Key policy issues addressed in the book include the environmental and social impacts of unconventional resource extraction Topics such as water management the coexistence of drilling operations with other land uses and the social implications of resource extraction are thoroughly examined Legal Framework The book explores the complex legal landscape governing unconventional operations delves into stakeholder dynamics regulatory frameworks and the intricacies of legal provisions that vary from one jurisdiction to another Geographical Analysis In its second part the book provides an in depth analysis of specific country regulations This section offers comparative insights into the regulatory approaches of eleven countries

highlighting both common challenges and unique strategies The book concludes by exploring lessons learned and future perspectives within the framework of the energy trilemma balancing energy security environmental sustainability and economic affordability It emphasizes the transformative impact of unconventional resources on energy independence and security while also addressing the contentious environmental considerations that accompany such developments Overall this book aims to equip readers with a comprehensive understanding of the legal and regulatory landscape surrounding unconventional oil and gas resources By examining global experiences and diverse regulatory frameworks it seeks to inform decision making processes and promote sustainable development in the unconventional energy sector The book benefits from critical analyses and comparative descriptive reviews of each country s unique approach making it an invaluable resource for policymakers industry professionals and scholars alike
