Revolution Daniel Nugent, 1993-12-15 What happens to a revolutionary town after the revolution This apparently simple question frames *Spent Cartridges of Revolution* an anthropological history of Namiquipa Chihuahua Mexico Officially the revolution of 1910 restored control over land and local politics to the peasantry But Namiquipan peasants who fought alongside Pancho Villa have seen little progress and consider themselves mere spent cartridges of a struggle that benefited other classes Daniel Nugent's approach combines an emphasis on peasants own perceptions of Mexican society after the revolution with an analysis of the organization and formation of state power He shows that popular discontent in Chihuahua is motivated not only by immediate economic crises but by two centuries of struggle between the people of Northern Mexico and the government *Library of Congress Subject Headings* Library of Congress, 2002 **American Book Publishing**

Goldstone, Leonid Grinin, Andrey Korotayev, 2022-05-19 The 21st century has witnessed a considerable and increasing number of political revolutions around the world This contradicts the popular belief of many experts in the 1970s that revolutions occurred mainly in monarchies and empires Instead the revolutions of this century have several new characteristics which call for a renewed analysis of the subject This handbook offers a comparative perspective on the new wave of revolutions of the last decade Presenting case studies on the color revolutions the Arab revolutions of 2010 2011 and the global wave of revolutions in 2013 2018 that spanned regions ranging from Africa to the Caucasus it offers a better understanding of the varied forms features and historical backgrounds of revolutions as well as their causes Accordingly it highlights recent revolutions in their historical and world systems contexts The handbook is divided into seven

parts the first of which examines the history of views on revolution and important aspects of the theory of revolution The second part analyzes revolutions within long term historical trends and in their world system contexts In turn the third part explores specific major revolutionary waves in history The fourth part analyzes the first revolutionary wave of the 21st century 2000 2009 the so called color revolutions while the fifth discusses the second wave the Arab Spring 2010 2013 as an important turning point The sixth part is dedicated to analyzing revolutions and revolutionary movements beyond the Arab Spring and some revolutionary events from the third wave that began in 2018 The seventh and final part offers forecasts on the future of revolutions Given its scope the book will appeal to scholars and students from various disciplines interested in historical trends sociopolitical change contentious politics social movements and revolutionary processes involving both nonviolent campaigns and political violence Once again this volume demonstrates the kind of open minded systematic analysis that the field of revolutionary studies requires Prof George Lawson Department of International Relations Australian National University Canberra □□□□□□□□,1974 Reconstructing Lives Recapturi Linda A.
