Co-production Victor Pestoff,Taco Brandsen,2013-09-13 Public management research has in recent years paid increasing attention to the third sector especially to its role in the provision of public services Evidence of this is the rising number of publications on the topic as well as a growing number of sessions and papers on the topic in academic conferences of the EGPA and IRSPM However much of the discussion on its role is motivated at least as much by ideology as by fact We still lack a proper empirical understanding of what happens when the third sector is drawn into public service provision In this thematic presentation of Co Production The Third Sector and the Delivery of Public Services we will try to enhance this understanding by presenting several new studies on the subject We also introduce the concepts of co production co management and co governance as a conceptual framework that enables us to better understand such developments
