Grassroots Development ,1995 *Creating Small Scale Social Programs* Barbara Schram,1997-10-14 Built around a single case study *Creating New Agency Programs* clearly illustrates how to effectively plan implement and evaluate a small scale social program Each step in the planning process is introduced and described in a way that allows the reader to vicariously participate in the evolution of the program Useful charts time lines and resource lists are included and can be easily referenced and utilized This book s emphasis on planning is important not only because it is a much used and generally under taught skill but because successful planning is the process that can turn the dreams of a community into concrete reality This book is geared toward designing programs to meet specific social needs and organizing the relevant and human resources to implement them The programs are specific detail and activity oriented but are designed to support long range goals which may be handed down by a parent organization or the community in general The author s strategy of using a case study serves as a creative learning tool that leads readers through each practical step toward successfully creating their own small scale social program Filling the void of literature on designing programs *Creating New Agency Programs* is ideal for professionals and students in a variety fields social work human services clinical counseling psychology drugs and alcohol psychology nursing and management who are faced with the task of planning designing and evaluating a program

Uncharitable Dan Pallotta, 2022-10-21 Uncharitable investigates how for-profit strategies could and should be used by nonprofits Uncharitable goes where no other book on the nonprofit sector has dared to tread Where other texts suggest ways to optimize performance inside the existing charity paradigm Uncharitable suggests that the paradigm itself is the problem and calls into question our fundamental canons about charity Dan Pallotta argues that society's nonprofit ethic creates an inequality that denies the nonprofit sector critical tools and permissions that the for-profit sector is allowed to use without restraint These double standards place the nonprofit sector at an extreme disadvantage While the for-profit sector is permitted to use all the tools of capitalism the nonprofit sector is prohibited from using any of them Capitalism is blamed for creating inequities in our society but charity is prohibited from using the tools of capitalism to rectify them and ironically this is all done in the name of charity This irrational system Pallotta explains has its roots in four hundred year old Puritan ethics that banished self interest from the realm of charity The ideology is policed today by watchdog agencies and the use of so called efficiency measures which Pallotta argues are flawed unjust and should be abandoned By declaring our independence from these obsolete ideas Pallotta theorizes we can dramatically accelerate progress on the most urgent social issues of our time Uncharitable is an important provocative timely and accessible book a manifesto about equal economic rights for charity This edition has a new updated introduction by the author **AmeriCorps*Vista Source**, 1998 *Social Entrepreneurship*
