Robinson Jeffers William Everson,1968 John Robinson Jeffers 1887 1962 was an American poet known for his work about the central California coast Most of Jeffers poetry was written in classic narrative and epic form but today he is also known for his short verse and considered an icon of the environmental movement In the 1920s and 1930s at the height of his popularity Jeffers was famous for being a tough outdoorsman living in relative solitude and writing of the difficulty and beauty of the wild He spent most of his life in Carmel California in a granite house that he had built himself called Tor House and Hawk Tower Tor is a Celtic term describing a large outcropping of rock Before Jeffers and Una purchased the land where Tor House would be built they rented a small cottage in Carmel and enjoyed many afternoon walks and picnics at the tors near the site that would become Tor House To build the first part of Tor House a small two story cottage Jeffers hired a local builder He worked with the builder and in this short informal apprenticeship he learned the art of stonemasonry He continued adding on to Tor House throughout his life writing in the mornings and working on the house in the afternoon Many of his poems reflect the influence of stone and building on his life He later built a large four story stone tower on the site called Hawk Tower based on similar structures he had seen while traveling through Ireland Construction on Tor House continued into the late 1950s and early 1960s and was completed by his eldest son The completed residence was used as a family home until his descendants decided to turn it over to the Tor House Foundation formed by Ansel Adams for historic preservation The romantic Gothic tower was named after a hawk that appeared while Jeffers was working on the structure and which disappeared the day it was completed The tower was a gift for his wife Una who had a fascination for Irish literature and stone towers A Study Guide for Robinson Jeffers's "Shine, Perishing Republic" Gale, Cengage

Thesing,1995 **Centennial Essays for Robinson Jeffers** Robert Zaller,1991 This work is the first volume of critical essays devoted to the poetry of Robinson Jeffers Although Jeffers was likened to some of the greatest figures in the literary world his work was controversial His preoccupation with violence and sexuality was denounced by some his alleged blasphemy by others Condemned by moralists Marxists and Cold Warriors alike Jeffers fell into obscurity until his death in 1962 Included are nine original essays by leading Jeffers scholars Power and the Pursuit of Peace: Theory and Practice in the History of Relations Between States F. H. Hinsley,Francis Harry Hinsley,1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War **Reading the Past Across Space and Time** Brenda Deen Schildgen,Ralph Hexter,2017-03-02 Featuring leading scholars in their fields this book examines receptions of ancient and early modern literary works from around the world China Japan Ancient Maya Ancient Mediterranean Ancient India Ancient Mesopotamia that have circulated globally across time and space from East to West North to South South to West Beginning with the premise of an enduring and revered cultural past the essays go on to show how the circulation of literature through translation and other forms of reception in fact long predates modern global society the idea of national literary canons have existed just over a hundred years and emerged with the idea of national educational curricula Highlighting the relationship of culture and politics in which canons are created translated promulgated and preserved this book argues that such nationally defined curricula were challenged by critics and writers in the wake of the Second World War *A Literary History of the American West* Western Literature Association (U.S.),1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long knowns to be of historical importance are also experiences that need and deserve a literature of importance **The San Francisco Renaissance** Michael Davidson,1991-06-28 The San Francisco Renaissance is the first review of this major American literary movement **Now I Know Only So Far** Dell H. Hymes,2003-01-01 In *Now I Know Only So Far* sociolinguist and ethnopoetic scholar Dell Hymes examines the power and

significance of Native North American literatures and how they can best be approached and appreciated Such narratives Hymes argues are ways of making sense of the world To truly comprehend the importance and durability of these narratives one must investigate the ways of thinking expressed in these texts the cultural sensibilities also deeply affected by storytellers particular experiences and mastery of form Included here are seminal overviews and reflections on the history and potential of the field of ethnopoeitics Native North American stories from areas ranging from the Northwest Coast to the Southwest take center stage in this book which features careful scrutiny of different realizations and tellings of the same story or related stories Such narratives are illuminated through a series of verse analyses in which patterned relations of lines throw into relief differences in emphasis shape and interpretation A final group of essays sheds light on the often misunderstood and always controversial role of editing and interpreting texts Now I Know Only So Far provides penetrating discussions and absorbing insights into stories and worlds both traditional and new **William Everson** Steven
