## **Rock Of Ages Sands Of Time Paintings By Barbara Page Text By Warren Allmon:**

Rock of Ages, Sands of Time Barbara Page, Warren D. Allmon, 2001-06-01 Two tiny trilobites in a vast Cambrian ocean drift past sea cucumber parasols and a shaggy tree like sponge Snail tracks loop enigmatically against brushed gray Silurian slate and ghostly white crinoids feather a Devonian seascape A delicate pterosaur flies bravely into the Jurassic gloom while a Tyrannosaurus rex so big that its teeth fill our field of vision stalks the deep orange sands that mark the end of the Cretaceous period These are just a few scenes from the magnificent drama that unfolds in glorious full color and three dimensional texture in Rock of Ages Sands of Time Each of Barbara Page's 544 contiguous painted panels represents a million years of the history of life on earth with fossil plants and animals depicted at the same scale and in association with each other just as they might be found by a paleontologist in the field A muted rainbow of background colors evoke the rocks in which the fossils were found the Texas Red Beds for instance or the yellow Solnhofen limestone and keystone events are shown metaphorically with fat rolls of paint marking major extinctions or continental drift To fully experience the awesome impact of an eon's worth of time spread across 500 feet of bas relief panels you'd have to visit the Museum of the Earth in Ithaca New York where Page's specially commissioned work will be installed when the museum opens in 2002 But this book is the next best thing Not only does it contain crisp color reproductions of each painting but it also includes an accessible essay from paleontologist Warren Allmon giving the scientific context behind the art For fossil lovers of all ages and anyone interested in the merging of art and science Rock of Ages Sands of Time will be the find of a lifetime

Susan Letzler Cole, 2016-11-01 Serious Daring is the story of the complementary journeys of two American women artists celebrated fiction writer Eudora Welty and internationally acclaimed photographer Rosamond Purcell each of whom initially practiced but then turned from the art form ultimately pursued by the other For both Welty and Purcell the art realized is full of the art seemingly abandoned Welty's short stories and novels use images of photographs photographers and photography Purcell photographed books texts and writing Both women make compelling art out of the seeming tension between literary and visual cultures Purcell wrote a memoir in which photographs became endnotes Welty re-emerged as a photographer through the publication of four volumes of what she called her snapshots magnificent black and white photographs of small town Mississippi and New York City life Serious Daring is a fascinating look at how the road not taken can stubbornly accompany the chosen path how what is seemingly left behind can become a haunting and vital presence in life and art

Beyond Science Standards Charles R. Ault Jr., 2021-11-15 Beyond Science Standards captures a vision of science education both whimsical and serious Ranging across examples from elementary to university level classrooms and grounded in philosophy and history the stories address dimensions beyond the realm of bureaucratic standards Its thesis brings into question the premise of scientific unity and its representation in school as notions of method process nature and practice Schools no less than the sciences profit from playful exploration of musical instruments in fourth grade physical science for
