The Rockefeller File Gary Allen, 1994 To Kill a Country Pamela J. Ray, 2006-05-01 **Killing the Planet** Rodney Howard-Browne, Paul L. Williams, 2019-11-05 In *Killing the Planet* How A Financial Cartel Doomed Mankind best selling authors Rodney Howard Browne and Paul L Williams investigate the true motives and consequences of the Pilgrim Society Early members of the Society included J P Morgan Andrew Carnegie Andrew Mellon Cornelius Vanderbilt Paul Warburg Mortimer I Schiff Otto Kahn and John D Rockefeller Although the Pilgrim Society and the powerful men involved are often praised for their philanthropic actions Howard Browne and Williams show that the Society was self serving and subjected the American people to a brutal system of economic tyranny one which is still in place today As a sequel to *The Killing of Uncle Sam* *Killing the Planet* is a thoroughly documented and impeccably researched book with over 1 500 footnotes It shows how mankind has become enslaved within the Luciferian world system that is managed and controlled by the world s wealthiest families The book is not full of conspiracy theories but instead unfortunately for all of humanity full of gut wrenching facts

The New World (dis)Order Charles Giuliani, 2007-05-20 The world is run by very different people than the visible political puppets that smile at the cameras And these hidden elites have a terribly sinister agenda for global domination working from behind the curtain This book exposes how these criminals operate controlling our media education system government banking system and yes even our churches to keep us in ignorance as to what they are up to After reading this study you will never view the world the same way again *In the Name of Eugenics* Daniel J. Kevles, 2013-05-08 Daniel Kevles traces the study and practice of eugenics the science of improving the human species by exploiting theories of heredity from its inception in the late nineteenth century to its most recent manifestation within the field of genetic engineering It is rich in narrative anecdote attention to human detail and stories of competition among scientists who have dominated the field **Interview with History** Pamela J. Ray, James E. Files, 2007-09-19 looks behind the scenes at some of the most shocking and horrific things going on here in America starting with the daytime assassination of President John F Kennedy and the implications it serves up to the citizens of a free country The author Pamela Ray along with James Files former CIA Mob hit man the infamous grassy knoll shooter explore the truths behind some basic questions still lingering decades after the JFK assassination Why was President Kennedy killed Who benefited Who had the power to cover it up And more specifically Did Lee Harvey Oswald spend time with James Files the week before November 22 1963 Why Did Files and Oswald have the same CIA controller David A Phillips Was there a military and CIA presence in Dealey Plaza when the fatal shots were fired What is the Military Industrial Complex and why were American citizens warned about it by President Eisenhower in his farewell address to the nation Are some of the same players from 1963 involved in today's headlines What does all this indicate These questions and more will be looked at as Ray and Files discuss the events surrounding the fateful day in Dallas when a whole new form of government took over During the course of *Interview with History* the authors delve

into other related shadowy underworld subjects where it is hard to tell where Organized Crime stops and the CIA and other U S government agencies begin

The Geopolitics of Culture John Van Oudenaren, 2024-06-15 Through the lens of James Billington and the institution he led as Librarian of Congress during a key period of US Russian relations *The Geopolitics of Culture* examines culture as a neglected area of US foreign policy Billington advised presidents and members of Congress and mobilized the resources of the Library of Congress to promote reform in Russia He believed that rather than preaching to the Russians the United States should expose the rising generation of Russian leaders to what was best in America and encourage them to rediscover positive elements in pre Bolshevik Russian culture *The Geopolitics of Culture* is the first book to chronicle Billington's influence on US engagement with Russia as it transitioned from communism to democracy under Gorbachev and Yeltsin and back to authoritarianism under Yeltsin and Putin Drawing on published and archival sources including recently released papers and interviews with current and retired Library of Congress staff members John Van Oudenaren casts new light on this era Billington's efforts led to a remarkable degree of cooperation between the Library of Congress and Russian cultural and political institutions Yet these efforts ultimately failed as Putin turned back toward authoritarianism The experience of the Library of Congress during this period nonetheless holds important lessons for today Billington believed that a transition to democracy in Russia was essential if the United States was to head off the geopolitical nightmare of a Eurasia dominated by an alliance of hostile authoritarian powers The geopolitics of culture thus remains a challenge for US foreign policy

A History of the University of Cambridge: Volume 4, 1870-1990 Christopher Brooke, Christopher N. L. Brooke, Damian Riehl Leader, Victor Morgan, Peter Searby, 1988 This is the fourth volume of *A History of the University of Cambridge* and explores the extraordinary growth in size and academic stature of the University between 1870 and 1990 Though the University has made great advances since the 1870s when it was viewed as a provincial seminary it is also the home of tradition a federation of colleges one over 700 years old one of the 1970s This book seeks to penetrate the nature of the colleges and of the federation and to show the way in which university faculties and departments have come to vie with the colleges for this predominant role It attempts to unravel a fascinating institutional story of the society of the University and its place in the world It explores in depth the themes of religion and learning and of the entry of women into a once male environment There are portraits of seminal and characteristic figures of the Cambridge scene and there is a sketch inevitably selective but wide ranging of many disciplines an extensive study in intellectual and academic history

Politics on a Human Scale Jeff Taylor, 2013-09-27 Featuring a foreword by Congressman Glen Browder *Politics on a Human Scale* examines political decentralization in the United States from the founding of the republic to the present Part of the desirable equilibrium is a sense of proportionality Some sizes some amounts some levels are more appropriate than others Decentralism is the best political tool to ensure equilibrium to promote proportionality and to obtain appropriate scale Power distribution should be as wide as possible Government functions should be as close to the people as practicable

In this way individual human beings are not swallowed by a monstrous Leviathan Persons are not at the mercy of an impersonal bureaucracy led by the far away few Decentralism gives us politics on a human scale It gives us more democracy within the framework of a republic The longest chapters in the book deal with crucial turning points in U S history specifically when decentralists lost the upper hand in the two major political parties Decentralism in our nation runs deep both intellectually and historically It also has considerable popular support Yet today it is a virtual political orphan In Washington neither major political party is serious about dispersing power to lower levels of government or to the people themselves Still there are dissident politicians and political movements that remain committed to the decentralist principle Power needs to be held in check partly through decentralization because power holds a great and dangerous attraction for humans Recognition of this human tendency is the first step in guarding against it and getting back on a better path

**C I
V I L I Z A T I O N** Armand du Plessis,2014-06-04 We witness step by step decay of civilization across the world particularly in South Africa As many others I also want to arrest the decline I thought I could reach the broad public by writing but after various persons had read the draft I realized only independent thinkers could benefit from it whilst it needlessly confuse those who are dependent on society for values Those who are content with society and their prospects probably would not find use in this writing Maintenance of civilization is of the very greatest concern to man and even to plant and animal particularly threatened species I cannot imagine anyone who can read would object to this axiom But few know that which we call civilization was created by the Aryans and only this race and those who inherited sufficient of its characteristics maintain civilization On each of the legion subjects relating to civilization scholars already published documents but I have yet to find one revealing adequate role players to elucidate a total image covering both nature and history to enable us to find solutions for the preservation of Civilization

International Regimes and World Order Dr. Anil Kumar Singh,2021-09-11 Some scholars emphasize the importance of a hegemon in creating a regime and giving it momentum This is called the hegemonic stability theory The United States for example has been instrumental in creating the Bretton Woods system with organizations such as the World Bank and the International Monetary Fund The rationale is that a hegemon being the dominant actor in international politics and economics often stands to gain the most from the creation of global standards For instance while other countries might benefit from it U S companies like Microsoft Universal Studios and Pfizer would be among the greatest beneficiaries of a strict global intellectual property regime As the hegemons use their power to create regimes their withdrawal similarly can also threaten the effectiveness of regimes Regimes serve crucial functional needs in international relations Powerful regimes are considered by some scholars as independent actors in international politics Although ultimately states create and sustain regimes once institutionalized regimes can exert influence in world politics that is practically independent of state sovereignty The International Atomic Energy Agency for instance has certain rights given to it by states themselves to monitor nuclear energy activity in countries Insofar as they are organized by means

of treaties among countries regimes provide an important source of formal international law Regimes themselves can also be subjects of international law This book tries to unravel that ideology and to create an alternative vision of a just and democratic world over Contents International Regime Theories of International Regimes Applying Regime Theories Regime Change State Cartel Theory Critiques of the Theory of International Regimes Conspiracy Theories World systems Theory New International Economic Order Unchanged Role of Nation States America's Working Man David Halle,1987-07-15 Over a period of six years at factory and warehouse at the tavern across the road in their homes and union meetings on fishing trips and social outings David Halle talked and listened to workers of an automated chemical plant in New Jersey s industrial heartland He has emerged with an unusually comprehensive and convincingly realistic picture of blue collar life in America Throughout the book Halle illustrates his analysis with excerpts of workers views on everything from strikes class consciousness politics job security and toxic chemicals to marriage betting on horses God home ownership drinking adultery the Super Bowl and life after death Halle challenges the stereotypes of the blue collar mentality and argues that to understand American class consciousness we must shift our focus from the working class to be the working man *The Catcher Was a Spy* Nicholas Dawidoff,1995-05-30 NATIONAL BESTSELLER Now a major motion picture starring Paul Rudd A delightful book that recounts one of the strangest episodes in the history of espionage Relentlessly entertaining The New York Times Book Review Moe Berg is the only major league baseball player whose baseball card is on display at the headquarters of the CIA For Berg was much more than a third string catcher who played on several major league teams between 1923 and 1939 Educated at Princeton and the Sorbonne he as reputed to speak a dozen languages although it was also said he couldn t hit in any of them and went on to become an OSS spy in Europe during World War II As Nicholas Dawidoff follows Berg from his claustrophobic childhood through his glamorous though equivocal careers in sports and espionage and into the long nomadic years during which he lived on the hospitality of such scattered acquaintances as Joe DiMaggio and Albert Einstein he succeeds not only in establishing where Berg went but who he was beneath his layers of carefully constructed cover As engrossing as a novel by John le Carr The Catcher Was a Spy is a triumphant work of historical and psychological detection **Revolution from Above** Kerry Raymond Bolton,2011 Dr Bolton demonstrates that the supposed rivalry between Marxist inspired movements and capitalism has always been an illusion He shows that the ultimate goal of capitalism is to create a worldwide collectivist society of consumers and Marxism is merely one means of attaining this He traces this idea back to Plato through the Illuminati the Freemasons the French Revolution and Communism *Hidden Evil* Mark Rich,2008-08-21 Highly organized covert state sponsored psychological warfare operations being carried out on the civilian population in all NATO countries **Muscle, Smoke & Mirrors** Randy Roach,2008 The research for this extensive two volume project represents a comprehensive effort to establish a complete context from which the sport of bodybuilding arose Muscle Smoke but also to the most elite of athletes Whether you are a novice an elite bodybuilder or

simply sports nutrition minded learn how the emerging forces of the Iron Game evolved Ultimately the factions of this industry would grow powerful and manipulative while fighting for control over the Game It took the running of several parallel histories on bodybuilding nutrition supplements and the role of drugs to offer a complete first time unraveling of the web of confusion and politics that still permeates the sport into the 21st century Volume I of Muscle Smoke Mirrors is truly the untold stories surrounding Bodybuilding s Amazing Nutritional Origins History of the Office of the Secretary of Defense: Strategy, money, and the New Look, 1953-1956 Alfred Goldberg,1984 **National Union Catalog of Manuscript Collections** Library of Congress,Library of Congress. Descriptive Cataloging Division,Library of Congress. Manuscripts Section,1993 Based on reports from American repositories of manuscripts The Atlantean Conspiracy (Final Edition) Eric Dubay,2013-11-24 The Atlantean Conspiracy Final Edition is the ultimate encyclopedia exposing the global conspiracy from Atlantis to Zion Discover how world royalty through the Vatican and secret societies control literally every facet of our lives from behind the scenes and have done so for thousands of years Topics covered include Presidential Bloodlines The New World Order Big Brother FEMA Concentration Camps Secret Societies The Zionist Jew World Order False Flags The Hegelian Dialectic The Lusitania WWI Pearl Harbor WWII Operation Northwoods The Gulf of Tonkin The Vietnam War The Oklahoma City Bombing The 9 11 Inside Job Media Manipulation The Health Conspiracy Fluoride Vaccines Engineered AIDS The Meat Dairy Myth The Cure for Everything Masonic Symbology Numerology Time Manipulation The Christian Conspiracy Astrotheology Magic Mushrooms Atlantis Kundalini Enlightenment Geocentric Cosmology The NASA Moon and Mars Landing Hoaxes Aliens Controlled Opposition and much more **Summary of Fritz Springmeier's Bloodlines of the Illuminati Volume 2** Everest Media,2022-05-10T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The Rockefeller family one of the 13 Satanic bloodlines that rule the world exerts immense influence over religion in the United States They provide a large share of the money that seminaries and universities need to operate 2 The Sealantic Fund was a Rockefeller Foundation funded organization that donated money to manipulate Protestant concerns In 1964 the Fund gave 681 886 in grants In 1969 it gave 1 889 550 in grants By 1984 the Fund was not being used 3 The Council on Foundations provided 41 000 in funding The Harlem Interfaith Counseling Service received 100 000 to help funders become more familiar with and learn how to analyze opportunities for international grant making 4 The Rockefeller and Carnegie foundations have spent vast amounts of money on education and have promoted John Dewey Marxism and a One World Government agenda
