Rocking The Cradle Contraception Sex And Politics In New Zealand:

Rocking the Cradle Helen Smyth, 2000-01-01 This book traces the quest for contraception in New Zealand and explores the connected realms of sex and politics By 1900 many couples had chosen to have fewer children but contraceptive methods were limited and often desperate In the 1930s a radical group of women set out to help people access sex information and contraception They became the Family Planning Association and encountered head on entrenched moral viewpoints and fears about declining population Often funny sometimes tragic or bizarre always controversial this book investigates a relatively unexplored aspect of our lives It offers insight into sexual attitudes gives a timely warning against repeating past mistakes and provides a context for future decisions on sexual and reproductive health issues [Sexual Subjects L.](#)

Allen, 2005-09-08 Educating young people about sex and sexuality remains one of the most controversial and political areas of the school curriculum Drawing on young people's own understandings of their sexual selves knowledge and practices *Sexual Subjects* considers the implications for how we conceptualize the effectiveness of sexuality education Reshaping thinking around youthful hetero sexualities *Sexual Subjects* challenges current approaches to teaching about sex and sexuality

Untold Intimacies Cheryl Ware, 2025-07-10 In June 2003 New Zealand became the first country to decriminalise sex work Through the lived experiences of twenty five individuals who worked on the ships and the streets in massage parlours and as private escorts *Untold Intimacies* tells the story of sex work and its transformation in Aotearoa over thirty critical years This history carries readers from the regulation of brothels with the Massage Parlours Act of 1978 through the struggle for decriminalisation to the legally mandated national review of the law in 2008 Drawing on new and archival interviews the story is told through the first hand experiences of sex workers themselves how they dealt with police violence and health risks and how they organised to change their world *Untold Intimacies* presents an in depth historical investigation into the lives of some of the first people in the world to experience the transition to the decriminalisation of sex work **Race,**

Maternity, and the Politics of Birth Control in South Africa, 1910-39 S. Klausen, 2004-11-12 Using original primary sources this book uncovers and analyzes for the first time the politics of fertility and the battle over birth control in South Africa from 1910 the year the country was formed to 1945 It examines the nature and achievements of the South African birth control movement in pre apartheid South Africa including the establishment of voluntary birth control organizations in urban centres the national birth control coalition and the clinic practices of the country's first birth control clinics The book spotlights important actors such as the birth controllers themselves the women of all races who utilized the clinics services and the Department of Public Health placing these within an international as well as national context [A History of New](#)

Allen, 2011-01-19 This book innovatively re-envisions the possibilities of sexuality education Utilising student critiques of programmes it reconfigures key debates in sexuality education including Should pleasure be part of the curriculum Who makes the best educators Do students prefer single or mixed gender classes

Too Hot to Handle Jonathan Zimmerman, 2015-02-22 The first comprehensive history of sex education around the world Too Hot to Handle is the first truly international history of sex education As Jonathan Zimmerman shows the controversial subject began in the West and spread steadily around the world over the past century As people crossed borders however they joined hands to block sex education from most of their classrooms Examining key players who supported and opposed the sex education movement Zimmerman takes a close look at one of the most debated and divisive hallmarks of modern schooling In the early 1900s the United States pioneered sex education to protect citizens from venereal disease But the American approach came under fire after World War II from European countries which valued individual rights and pleasures over social goals and outcomes In the so called Third World sex education developed in response to the deadly crisis of HIV AIDS By the early 2000s nearly every country in the world addressed sex in its official school curriculum Still Zimmerman demonstrates that sex education never won a sustained foothold parents and religious leaders rejected the subject as an intrusion on their authority while teachers and principals worried that it would undermine their own tenuous powers Despite the overall liberalization of sexual attitudes opposition to sex education increased as the century unfolded Into the present it remains a subject without a home Too Hot to Handle presents the stormy development and dilemmas of school based sex education in the modern world

Handbook of Qualitative Health Research for Evidence-Based Practice Karin Olson, Richard A. Young, Izabela Z. Schultz, 2015-10-12 This progressive reference redefines qualitative research as a crucial component of evidence based practice and assesses its current and future impact on healthcare Its introductory section explains the value of sociocultural context in case conceptualization and ways this evidence can be integrated with quantitative findings to inform and transform practice The bulk of the book's chapters review qualitative research in diverse areas including pain trauma heart disease COPD and disabling conditions and examine ways of effectively evaluating and applying qualitative data This seismic

shift in perception moves the healing professions away from traditional one size fits all thinking and toward responsive patient centered care Among the topics in the Handbook Examining qualitative alternatives to categorical representation The World Health Organization model of health what evidence is needed Qualitative research in mental health and mental illness Qualitative evidence in pediatrics The contribution of qualitative research to medication adherence Qualitative evidence in health policy analysis The Handbook of Qualitative Health Research for Evidence Based Practice offers health and clinical psychologists rehabilitation specialists occupational and physical therapists nurses family physicians and other primary care providers new ways for understanding patients health related experiences and opens up new ways for developing interventions intended to improve health outcomes

Technologies of Reproduction Across the Lifecourse Victoria Boydell, Katharine Dow, 2022-09-15 This book presents a dialogue between scholars on different aspects of reproductive technologies If we continue to work in disciplinary silos reproductive studies is in danger of missing and thereby reproducing the kinds of power structures that shape reproductive life

A Voice for Mothers Linda Bryder, 2003 The Plunket Society founded in 1907 has been heralded as New Zealand's most successful and famous voluntary organisation Run by women for women it played a vital role in the care of mothers and babies for most of the twentieth century becoming a national and international icon This comprehensive history of Plunket covers three broad themes the relationship between the voluntary sector and the State in the provision of welfare the development of paediatrics and the relationship between health providers and their clients the mothers Bryder stresses in particular infant health and welfare the political pressures applied by the government and medical profession the influence of the remarkable women who shaped the fortunes of the society and its diminishing impact in recent years She also compares New Zealand's experience with other countries like Australia and Britain and outlines the philosophy behind the organisation

Mapping Out the Veneral Wilderness Antje Kampf, 2007 This book explores the social history of venereal disease and public health in New Zealand in the twentieth century by re evaluating existing international scholarship on disease control and issues of morality By using untapped archival material this case study highlights the wider importance in international research into the interception of health agencies and targeted groups and the impact of gender race and class on the venereal disease debate

Eugenics at the Edges of Empire Diane B. Paul, John Stenhouse, Hamish G. Spencer, 2017-11-16 This volume explores the history of eugenics in four Dominions of the British Empire New Zealand Australia Canada and South Africa These self governing colonies reshaped ideas absorbed from the metropole in accord with local conditions and ideals Compared to Britain and the US Germany and Scandinavia their orientation was generally less hereditarian and more populist and agrarian It also reflected the view that these young and enterprising societies could potentially show Britain the way if they were protected from internal and external threat This volume contributes to the increasingly comparative and international literature on the history of eugenics and to several ongoing historiographic debates especially around issues of race As white settler societies questions

related to racial mixing and purity were inescapable and a notable contribution of this volume is its attention to Indigenous populations both as targets and on occasion agents of eugenic ideology The Oxford Handbook of the History of Eugenics Alison Bashford, Philippa Levine, 2010-09-24 Eugenic thought and practice swept the world from the late nineteenth to the mid twentieth century in a remarkable transnational phenomenon Eugenics informed social and scientific policy across the political spectrum from liberal welfare measures in emerging social democratic states to feminist ambitions for birth control from public health campaigns to totalitarian dreams of the perfectibility of man This book dispels for uninitiated readers the automatic and apparently exclusive link between eugenics and the Holocaust It is the first world history of eugenics and an indispensable core text for both teaching and research Eugenics has accumulated generations of interest as experts attempted to connect biology human capacity and policy In the past and the present eugenics speaks to questions of race class gender and sex evolution governance nationalism disability and the social implications of science In the current climate in which the human genome project stem cell research and new reproductive technologies have proven so controversial the history of eugenics has much to teach us about the relationship between scientific research technology and human ethical decision making Happy Abortions Erica Millar, 2017-12-15 A provocative and important book that every pro choice advocate should read Sin ad Kennedy Coalition to Repeal the 8th Amendment When it comes to abortion today s liberal climate has produced a common sense that is both pro choice and anti abortion The public are fed an unchanging version of what the abortion choice entails and how women experience it While it would prove highly unpopular to insist that all pregnant women should carry their pregnancy to term the idea that abortion could or should be a happy experience for women is virtually unspeakable In this careful and intelligent work Erica Millar shows how the emotions of abortion are constructed in sharp contrast to the emotional position occupied by motherhood the unassailable placeholder for women s happiness Through an exposition of the cultural and political forces that continue to influence the decisions women make about their pregnancies forces that are synonymous with the rhetoric of choice Millar argues for a radical reinterpretation of women s freedom **Teenagers** Aidan Macfarlane, Ann McPherson, 2017-07-24 Ever felt you need to turn to a whole team of advisers for help in bringing up your wayward children From psychiatrists to cooks from laundry maids to substance abuse counsellors Then this book an easy to read guide to teenagers and how to live happily with them is aimed at you By interviewing over 40 parents and their offspring and based on up to the minute medical and social facts the authors have produced a handbook that highlights areas of conflict and advises on how to get things right For both parents who want to get maximum enjoyment out of life with their teenagers and for teenagers to give to their parents this book seeks to cover everything you want to know about friendships drugs sex bullying grief eating disorders and general teenage living *Women's Bodies and Medical Science* L. Bryder, 2017-10-20 An analysis of a scandal involving a doctor accused of allowing a number of women to develop cervical cancer from carcinoma in situ as part of an experiment he had been

conducting since the 1960s into conservative treatment of the disease to more broadly explore dramatic changes in medical history in the second half of the twentieth century

Paradise Reforged James Belich, 2002-02-28 *Paradise Reforged* picks up where *Making Peoples* left off taking the story of the New Zealanders from the 1880s to the end of the twentieth century. It begins with the search for Better Britain and ends by analyzing the modern Maori resurgence, the new Pakeha consciousness and the implications of a reinterpreted past for New Zealand's future. Along the way, the book deals with subjects ranging from sport and sex to childhood and popular culture. Critics hailed *Making Peoples* as brilliant and the most ambitious book yet written on New Zealand's past. *Paradise Reforged*, its successor, adopts a similarly incisive original sweep across the New Zealand historical landscape in confronting the myths of the past. That some of its themes are uncomfortably close to the present makes the result all the more fascinating.

Against the Odds Cynthia Farquhar, Michaela Selway, 2025-06-05 In 2025, the year Otago Medical School celebrates 150 years, 50 per cent of graduates are women. Back in 1891, by contrast, when Emily Siedeberg, who would go on to become the school's first woman graduate, applied for entrance, it was not at all clear that it would be granted. This book traces the paths of the women who, between the 1890s and 1967, battled indifference and chauvinism and later many of the other challenges that faced women in the professions to become New Zealand's first women doctors.
