## **Rocks Sydney:**

**Site** Ewen McDonald, 2012      **The Archaeology of Urban Landscapes** Alan James Christian Mayne, Alan Mayne, Tim Murray, 2001-12-13 This exciting 2001 collection on a movement in urban archaeology investigates the historical archaeology of urban slums. The material that is dug up—broken dinner plates, glass grog bottles, and innumerable tonnes of building debris, nails, and plaster samples—will not quickly find its way into museum collections. But properly interpreted, it yields evidence of lives and communities that have left little in the way of written records. Including eleven case studies, five on cities in the United States and one each on London and Sheffield, and further chapters on Cape Town, Sydney, Melbourne, and Quebec City, it maps out a new field which will attract the attention of a range of students and scholars outside archaeology, in particular historical sociologists and historians.      *Transformation of Sydney's Industrial Historic Waterfront* Ece Kaya, 2019-09-26 This book examines the impacts of tourism-led transformations on the industrial historical waterfront at Darling Harbour and The Rocks in Sydney, Australia, in the context of urban restructuring and deindustrialisation. The book also offers an extended reflection on the paradoxes between tourism and heritage. This discussion is not a new concept. However, this book critically explores the significance of the industrial heritage assets of these areas and the implications of the transformation procedures. Although Darling Harbour and The Rocks have generally been considered success stories of transformation with mixed touristic, recreational, residential, and commercial activities, this book examines and evaluates how industrial history and heritage values have been affected. It demonstrates that tourism and leisure-led developments create urban landscapes in which cultural identity and historical assets are sacrificed and/or reinvented.      *Moon, Sydney & the Great Barrier Reef* Ulrike Lemmin-Woolfrey, 2015-02-24 This full-color guide to Sydney and the Great Barrier Reef includes vibrant photos and easy-to-use maps to help you plan the trip of a lifetime. The birthplace of modern Australia, Sydney is a bustling cosmopolitan playground. Off Queensland's endless coast, the Great Barrier Reef is a playground of a different kind—a wonderland of coral gardens and colorful sea life. Larger than the Great Wall of China and home to thousands of species of wildlife, the Great Barrier Reef is an adventure lover's paradise. In this book, expert traveler Ulrike Lemmin-Woolfrey tells you everything you need to know to make this trip possible, with tips on how to get from Sydney to the Reef and where to stop along the way, including information on Cairns, Port Douglas, and Townsville. How to experience the Reef's world-class diving. How to choose the best reef cruises and rainforest tours. How to find and identify wildlife.      **Exploring the Archaeology of the Modern City in Nineteenth-century Australia** Tim Murray, Penny Crook, 2019-11-05 This book presents research into the urban archaeology of 19th-century Australia. It focuses on the detailed archaeology of 20 cesspits in The Rocks area of Sydney and the Commonwealth Block site in Melbourne. It also includes discussions of a significant site in Sydney: First Government House. The book is anchored around a detailed comparison of contents of 20 cesspits created during the 19th century and examines patterns of similarity and dissimilarity, presenting analyses that work towards an integration of historical and

archaeological data and perspectives The book also outlines a transnational framework of comparison that assists in the larger context related to building a truly global archaeology of the modern city This framework is directly related a multi scalar approach to urban archaeology Historical archaeologists have been advocating the need to explore the archaeology of the modern city using several different scales or frames of reference The most popular and most basic of these has been the household However it has also been acknowledged that interpreting the archaeology of households beyond the notion that every household and associated archaeological assemblage is unique requires archaeologists and historians to compare and contrast and to establish patterns These comparisons frequently occur at the level of the area or district in the same city where archaeologists seek to derive patterns that might be explained as being the result of status class ethnicity or ideology Other less frequent comparisons occur at larger scales for example between cities or countries acknowledging that the archaeology of the modern western city is also the archaeology of modern global forces of production consumption trade immigration and ideology formation This book makes a contribution to that general literature
