**Martha Maxwell, Rocky Mountain Naturalist** Maxine Benson, 1999-01-01 See there she is cried one visitor to the Centennial Exposition Just think She killed all them animals echoed another There that s her All during the hot Philadelphia summer of 1876 throngs of people pushed and shoved their way into the Kansas Colorado Building eager to catch a glimpse of the small dark haired woman responsible for creating the extraordinary display of bears deer and other mammals cavorting over a Rocky Mountain landscape Curious skeptical friendly on and on they came until the policemen stationed at the doors were hard pressed to maintain control The fairgoers were intent on seeing for themselves the modern Diana who had come all the way from the wilds of Colorado Maxine Benson s finely crafted biography of Martha Maxwell illuminates the little known but important career of a remarkable woman Naturalist taxidermist museologist artist Maxwell pioneered in a number of fields new for women Born in Pennsylvania in 1831 and educated in the Midwest she traveled to the gold fields of Colorado with her husband in 1860 A chance encounter with a German taxidermist determined her lifework and Maxwell soon devoted her boundless energy to hunting and mounting all forms of Rocky Mountain wildlife which she displayed in unusual habitat settings in her museum in Boulder and later in Denver Her spreading fame led to an invitation to exhibit her collection at the Philadelphia Centennial Exposition where she achieved international renown As Maxwell s major scientific and artistic contributions to natural history taxidermy and display were recognized her influence carried to the Smithsonian Institution Separated from her husband and alienated from her daughter however she became increasingly unhappy as her professional accomplishments grew Her tragic and lonely death in 1881 revealed something of the price she paid for daring to be different Like that of other accomplished women of her era Maxwell s fame did not keep pace with the significant influence she had on her profession Thanks to Maxine Benson Martha Maxwell now takes her rightful place in the history of the West and of the nation **Biographical Dictionary of Rocky Mountain Naturalists** Joseph Ewan, Nesta Ewan, 1981

Rocky Mountain Naturalists Joseph Ewan, 1950 California's Frontier Naturalists Richard G Beidleman, 2006-03-02

This book chronicles the fascinating story of the enthusiastic stalwart and talented naturalists who were drawn to California s spectacular natural bounty over the decades from 1786 when the La P rouse Expedition arrived at Monterey to the Death Valley expedition in 1890 91 the proclaimed end of the American frontier Richard G Beidleman s engaging and marvelously detailed narrative describes these botanists zoologists geologists paleontologists astronomers and ethnologists as they camped under stars and faced blizzards made discoveries and amassed collections kept journals and lost valuables sketched flowers and landscapes recorded comets and native languages He weaves together the stories of their lives their demanding fieldwork their contributions to science and their exciting adventures against the backdrop of California and world history California s Frontier Naturalists covers all the major expeditions to California as well as individual and institutional explorations introducing naturalists who accompanied boundary surveys joined federal railroad parties traveled with river

topographical expeditions accompanied troops involved with the Mexican War and made up California's own geological survey. Among these early naturalists are famous names David Douglas, Thomas Nuttall, John Charles Fremont, William Brewer as well as those who are less well known including Paolo Botta, Richard Hinds and Sara Lemmon. Biographical Dictionary of Rocky Mountain Naturalists, 1981. Early American Naturalists John Moring, 2005. This historical work chronicles the lives, adventures and discoveries of America's great explorer-naturalists Lewis Clark, Martha Maxwell, John James Audubon, John Muir, William Gambel, Thomas Say, Robert Kennicott and John Townsend. Regardless of the formidable obstacles and travails, these naturalist explorers provided an invaluable scientific foundation as to how the plants, animals and environment of the American West coexist. From identifying new species to discovering prehistoric fossils, this book celebrates these intrepid trailblazers who boldly navigated and documented the untrammelled awe-inspiring frontier west of the Mississippi.

Scout Naturalists in the Rocky Mountains Alger Judson Fast, Boynton Swift Kaiser, Donald Greame Kelley, 1932. Enos Mills, Rocky Mountain Naturalist John Stansfield, 2005. Presents the life and accomplishments of the naturalist author and conservationist known as the father of Rocky Mountain National Park. The American Naturalist, 1886. **The Ottawa Naturalist**, 1900. **The Naturalists** Stephen R. Bown, 2002. This volume provides portraits of the early naturalists who explored the New World in the pre-Darwinian Age. The late eighteenth and early nineteenth centuries in Europe and America saw the dawn of a golden age of science in which society energetically sought to quantify, categorize and rationally explain the world. The author profiles nine important naturalists, both dedicated professionals and amateurs who set off for what is now North and South America to discover and document the natural wonders they found there. Their stories of adventure are punctuated with hardship, both in finding the financing to get their ventures off the ground and the vagaries of the elements they encountered in the New World. Despite the odds, these explorers, either traveling with artists or as artists themselves, chronicled their adventures in both words and pictures, providing a unique portrait of the natural world in North, South and Central America before parts of it became widely settled. CRC World Dictionary of Medicinal and Poisonous Plants Umberto Quattrocchi, 2016-04-19. Written as a reference to be used within University Departmental Public Institutional Herbaria and Arboreta libraries, this book provides the first starting point for better access to data on medicinal and poisonous plants. Following on the success of the author's CRC World Dictionary of Plant Names and the CRC World Dictionary of Grasses, the author provides the names of thousands of genera and species of economically important plants. It serves as an indispensable time-saving guide for all those involved with plants in medicine, food and cultural practices, as it draws on a tremendous range of primary and secondary sources. This authoritative lexicon is much more than a dictionary. It includes historical and linguistic information on botany and medicine throughout each volume. **The Canadian Naturalist and Quarterly Journal of Science**, 1863. *The Canadian Naturalist and Quarterly Journal of Science* Elkanah Billings, Bernard James Harrington, James Thomas Donald, 1863. **The Naturalists' Leisure Hour and Monthly Bulletin**
