Old Masters and Young Geniuses David W. Galenson, 2006 When in their lives do great artists produce their greatest art Do they strive for creative perfection throughout decades of painstaking and frustrating experimentation or do they achieve it confidently and decisively through meticulous planning that yields masterpieces early in their lives By examining the careers not only of great painters but also of important sculptors poets novelists and movie directors Old Masters and Young Geniuses offers a profound new understanding of artistic creativity Using a wide range of evidence David Galenson demonstrates that there are two fundamentally different approaches to innovation and that each is associated with a distinct pattern of discovery over a lifetime Experimental innovators work by trial and error and arrive at their major contributions gradually late in life In contrast conceptual innovators make sudden breakthroughs by formulating new ideas usually at an early age Galenson shows why such artists as Michelangelo Rembrandt C zanne Jackson Pollock Virginia Woolf Robert Frost and Alfred Hitchcock were experimental old masters and why Vermeer van Gogh Picasso Herman Melville James Joyce Sylvia Plath and Orson Welles were conceptual young geniuses He also explains how this changes our understanding of art and its past Experimental innovators seek and conceptual innovators find By illuminating the differences between them this pioneering book provides vivid new insights into the mysterious processes of human creativity
