A Psychology of Liberation and Peace Chalmer E. F. Thompson,2019-03-27 This book addresses the need to radically transform societies plagued by racism It places prominence on persistent racialized violence in the lives of Black Americans as influential in how Black people in the U S and abroad perceive themselves as Black in juxtaposition to their perceptions of White people and other People of Color An absence of understanding of the often masked role of violence in the lives of Black people increases the likelihood of reproducing it The author offers a reformulation of racial identity theory to examine the construction of Manichaeism in people and societies and how meaningful engagement that confronts the violence is vital to psychological development though this engagement also is not without dire risks

building's conception, design, and realization, this book argues that its identity is formed after its completion through use and that the cultural and psychological effects of its use on those inhabiting it are profound. Across eight investigative chapters, authors Nora Lefa and Pavlos Lefas propose that use should not be understood merely as function. Instead, this book argues that we also use buildings by creating, destroying, or appropriating them and discusses a series of philosophical, cultural, and design issues related to use. *Buildings Used* would appeal to students and scholars in architectural theory, history, and cultural studies.

The Greenwood Encyclopedia of African American Literature: O-T Hans A. Ostrom, J. David Macey, 2005. Designed to meet the needs of high school students, undergraduates, and general readers, this encyclopedia is the most comprehensive reference available on African American literature from its origins to the present. Other works include many brief entries or offer extended biographical sketches of a limited selection of writers. This encyclopedia surpasses existing references by offering full and current coverage of a vast range of authors and topics. While most of the entries are on individual authors, the encyclopedia gathers together information about the genres and geographical and cultural environments in which these writers have worked and the social, political, and aesthetic movements in which they have participated. Thus, the encyclopedia gives special attention to the historical and cultural forces that have shaped African American writing. Publisher: Crime and Criminal Justice in Disaster. Dee Wood Harper, Kelly Frailing, 2010. *Crime and Criminal Justice in Disaster* aims to answer two questions: Why do some people take advantage of the disruption that disaster causes and commit crime, and what can be done about it? The second edition of *Crime and Criminal Justice in Disaster* focuses on crime in the wake of recent disasters, including the Haiti and Chile earthquakes, the earthquake and tsunami in Japan, and the BP oil spill in the Gulf of Mexico. The authors of the essays in this volume, all talented sociologists, criminologists, and law enforcement officials who have had direct experience researching and working in disaster conditions, have updated their original work to investigate the longer-term effects that disaster can have on crimes such as rape, fraud, and looting. They have also worked to explain the actions criminal justice and other systems can take in the short and longer-term disaster aftermaths to combat and prevent crime. Entirely new essays in this edition focus on hate crime in the aftermath of 9/11 and the role that local NGOs can play in the recovery process. The new additions to the revised edition of *Crime and Criminal Justice in Disaster* help bring us closer to a criminology of disaster and set the stage for new theorizing and research that can help us more fully understand the criminogenic effects of disaster and the best practices for criminal justice and other systems in preventing these effects.
