Unprecedented Realism K. Michael Hays, Rodolfo Machado, Jorge Silvetti, 1995 For almost two decades the work of Rodolfo Machado and Jorge Silvetti has remained at the forefront of theoretical production Their rigorously detailed and exquisitely drawn projects characterize an attitude of aesthetic realism towards materials construction function and the cultural role of architecture Yet the conditions they address and the effects they produce are unprecedented Their projects synthesize seemingly incompatible images uses and typologies Unprecedented Realism is not an illustration of theory Rather what emerges is a constructive theory of architecture that understands the process of design itself as a distinct mode of knowledge as theoretical research that is still irreducibly architectural Unprecedented Realism presents both buildings and urban infrastructures Steps of Providence RI Entrance for Cranbrook Bloomfield Hills Mich Carnegie Mellon University Center Pittsburgh Pershing Square Los Angeles and Times Square New York City Along with the analytic text of K Michael Hays the volume includes critical essays by Alan Colquhoun George Baird Fars el Dahdah and Rodolphe el Khoury please see the Table of Contents

The New Public Library R. Thomas Hille, 2018-12-07 The New Public Library is an in depth design study of an exemplary collection of recent public libraries and the historical precedents that have informed and inspired their development An introductory overview presents seven critical themes that characterize public library design past and present highlighting the expressive architectural potential of this unique and important building type A survey of over 40 historically significant libraries traces the development of the building type over time with a primary focus on precedents from the US and northern Europe where the modern public library originated and its design has been most comprehensively developed A selection of nearly 50 contemporary projects from the past 30 years focuses on the most current developments in public library design with a diverse and varied collection of work by over 35 regional national and international design firms Highly visual in its presentation the study includes 885 color photographs and illustrations and 195 scale drawings

Behind the Postmodern Facade Magali Sarfatti Larson, 2024-07-26 Magali Larson's comprehensive study explores how architecture happens and what has become of the profession in the postmodern era Drawing from extensive interviews with pivotal architects from Philip Johnson who was among the first to introduce European modernism to America to Peter Eisenman identified with a new deconstructionist style she analyzes the complex tensions that exist between economic interest professional status and architectural product She investigates the symbolic awards and recognition accorded by prestigious journals and panels exposing the inner workings of a profession in a precarious social position Larson captures the struggles around status place and power as architects seek to redefine their very purpose in contemporary America The

author's novel approach in synthesizing sociological research and theory proposes nothing less than a new cultural history of architecture. This is a ground-breaking contribution to the study of culture and the sociology of knowledge as well as to architectural and urban history. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1993 with a paperback edition in 1995. **Agrest and**

Gandelsonas Works Diana Agrest, Mario Gandelsonas, 1995. Documents some 40 of the architect's urban projects, interiors and theoretical projects with plans, renderings, and color photos and sketches. Includes interviews with the architect, biographies, and essays on architectural issues. Google Books. **Studio Works 5** Harvard University. Graduate School of Design, 1998. This text reflects and documents the spirit and character of the design studios at Harvard's Graduate School of Design through student work and texts, dialogues, and interviews. It includes work from each department: architecture, landscape architecture, and urban planning and design. **Sesquicentennial Park, the Design Competition**, 1987.

The Getty Villa Marion True, Jorge Silvetti, 2005. The original Getty Museum housed in a replica of a Roman Villa on a site overlooking the Pacific Ocean is one of Los Angeles's most treasured landmarks. Closed for almost ten years while renovations were made to the building and the site itself was transformed into a center for the study of antiquities and conservation, the Getty Villa is now set to open late in 2005. The Getty Villa is a lively history of the Getty Museum, its renowned antiquities collections, and its growth from a small museum in a ranch house in Malibu to its first home in a building designed to replicate what we know of the Villa dei Papiri, an ancient Roman villa partially uncovered in Herculaneum. Most engagingly, this book records the ten-year adventure in reconfiguring a beautiful but topographically challenging site into one that could continue to accommodate the splendid Museum building and also provide for an outdoor theater, laboratories for conservation work, and research offices for staff and visiting scholars, and an education program for adults and children. This is a story of architectural imagination, geographical challenges, and legal hurdles, all of which have resulted in a truly unique and beautiful site. The story is an enlightening and rewarding one for anyone interested in architecture and in the difficulties posed by building on a grand scale in the twenty-first century. Beautifully illustrated throughout, the book includes 250 reproductions of works of art, photographs of both the old and the new Getty Museum site, plans, and architectural elevations. **Making the Metropolitan Landscape** Jacqueline Tatom, Jennifer Stauber, 2009-05-07.

Bringing together for the first time many well-known and emerging voices in urban design theory and practice, this volume argues for a progressive and engaged design practice which fully relates to the complexity and diversity of American cities.
