Leonard's Price Index of Latin American Art at Auction Susan Theran, 1999-11-29 The new Leonard's Price Index of Latin American Art at Auction focuses on a category of art that covers a wide range of periods and styles It is unique in its coverage of 30 years of sale results and the inclusion of over 1 100 scholarly essays and biographies some never before published in the English language Entries covering the years 1969 to 1999 number over 30 000 lots The prices realized are from every auction house in North America and are listed in descending order by price within each auction season

Keep It Moving? Rachel Rivenc, Reinhard Bek, 2018-03-13 Kinetic art not only includes movement but often depends on it to produce an intended effect and therefore fully realize its nature as art It can take a multiplicity of forms and include a wide range of motion from motorized and electrically driven movement to motion as the result of wind light or other sources of energy Kinetic art emerged throughout the twentieth century and had its major developments in the 1950s and 1960s Professionals responsible for conserving contemporary art are in the midst of rethinking the concept of authenticity and solving the dichotomy often felt between original materials and functionality of the work of art The contrast is especially acute with kinetic art when a compromise between the two often seems impossible Also to be considered are issues of technological obsolescence and the fact that an artist's chosen technology often carries with it strong sociological and historical information and meanings
