The Films of Roger Corman Alan G. Frank, 1998 The definitive treatment of this cult American filmmaker including films produced written and directed by Corman **Movie World of Roger Corman** Roger Corman, Karyn G. Browne, 1980-05-01 *The Cinematography of Roger Corman* Pawel Aleksandrowicz, 2016-09-23 Roger Corman is an ambiguous artistic figure On the one hand he is notorious for shooting and producing his films quickly cheaply and with blatant disregard for safety measures which together with his ability to issue a dozen new films every year and his impressive filmography have earned him the titles of shlockmeister and the King of the B s among film journalists On the other hand he became the youngest American director to be given a film retrospective at the prestigious Cin mat que Fran aise in Paris one of his directorial efforts House of Usher was selected for preservation in the National Film Registry by the Library of Congress and the Academy of Motion Picture Arts and Sciences awarded him with an Academy Honorary Award for his rich engendering of films and filmmakers This book investigates this duality and explores whether Corman is indeed a shlockmeister or an artist whose works are worthy of the highest cinema awards The scope of analysis is limited to his directorial efforts only still encompassing 50 features excluding the 400 films he produced The methodology adopted here is based on the auteur theory in its structuralist version by Geoffrey Nowell Smith and Peter Wollen and focuses on three areas of interest work ethic personal elements in the films personal control over and commitment to the production process outside direction themes topics and concerns common for many of the films regardless of the genre and style recurring stylistic
