The Criminalization of Mental Illness Risdon N. Slate, Jacqueline K. Buffington-Vollum, W. Wesley Johnson, 2013-10-03 For a myriad of reasons the criminal justice system has become the de facto mental health system This book explores how and why this is the case Sensationalized cases often drive criminal justice policies that can sometimes be impulsively enacted and misguided While there are chapters that examine competency insanity and inpatient and outpatient commitment the primary focus of the book is on the bulk of encounters that clog the criminal justice system with persons with mental illnesses pwmi Criminal justice practitioners are often ill equipped for dealing with pwmi in crises However via application of therapeutic jurisprudence principles some agencies are better preparing their employees for such encounters and attempting to stop the inhumane and costly recycling of pwmi through the criminal justice system Coverage runs the gamut from deinstitutionalization to specialized law enforcement responses to mental health courts to jails and prisons to discharge planning diversion and reentry Also criminal justice practitioners in their own words provide insight into and examples of the interface between the mental health and criminal justice systems Throughout the book the balance between maintaining public safety and preserving civil liberties is examined as the state s police power and parens patriae roles are considered Reasoned collaborative approaches for influencing and informing policies that are often driven by crises are discussed this book also reflects more psychological underpinnings than the 1st edition as one of the co authors new to this edition is a forensic clinical psychologist The following Teaching Materials are available electronically on a CD or via email Please contact Beth Hall at bhall@capress.com to request a copy and specify what format is needed Teacher s Manual with notes and extensive test bank in Word pdf formats Test bank is also available in separate files by chapter in Word and Blackboard formats Other LMS formats may be available let me know what you need Upon adoption only the following are also available 3 Videos Upon adoption only One video illustrates Crisis Intervention Team scenarios another explores PTSD and the third video is of a lecture author Risdon Slate gave to law enforcement in training that describes his own personal story PowerPoint slides will be available upon adoption Email bhall@capress.com for more information I am so grateful that I have decided on this book and the resources are amazing Joseph C Marinello lecturer in the Department of Criminal Justice and Criminology UNC Charlotte on classroom adoption of second edition Notorious criminal cases tend to drive public opinion and policy when it comes to how our criminal justice system deals with persons with mental illnesses Drs Slate and Johnson s book is a far brighter star to steer by By most accounts including the US Department of Justice our criminal justice system is in crisis In *The Criminalization of Mental Illness* the authors explain how our justice system has failed persons with mental illnesses the public and its own self interests But rather than place blame the authors focus on illuminating the history and anatomy of the problem and offering real solutions Because they are

based on careful scholarship their proposals are authoritative and make sense But it is their informed empathy for all the players involved in the tragedy not just persons with mental illnesses that makes this book a must read for anyone involved in the criminal justice system or simply interested in knowing the truth of how it is broken and can be fixed Xavier F Amador Ph D Adjunct Professor Columbia University Author of the National Best Seller I am Not Sick I Don t Need Help and I m Right You re Wrong Now What The book confronts myths and social political policy failures directly and with great honor recognizes those advocates whose work has moved social justice and mental health policy forward Their dedication and passion to the subject of promoting human rights and recovery is evident in every word It is a masterful relevant and inspiring work Ginger Lerner Wren the nation s first mental health court judge and member of the President s Commission on Mental Health This book provides extraordinary insights into the manner by which people with mental illness are processed through the criminal justice system I thoroughly enjoyed this work and would recommend it to anyone who has an interest in issues involving mental illness and the criminal justice system I have seen a few books in this area but have never found one quite as comprehensive and well researched It is without exception one of the best academic books that I have read in many years Penn State Altoona Professor Robert M Worley in his book review for The Southwest Journal of Criminal Justice Fall 2008 This is a highly insightful and important book which corrections staff academics students and the general public should know about Ken Kerle Ph D American Jail Association Overall this very readable book provides a good survey of the various sectors of the criminal justice system and their response to the substantive changes that have affected persons with mental illness during the recent past These authors provide a valuable guide for mental health professionals interested in appropriate treatment and placement of persons with mental illness Frederick J Frese Ph D Psychiatric Services A Journal of the American Psychiatric Association Without a doubt it is the most comprehensive explanation of what has happened between the two systems during the past 40 or so years It explains not only the crisis that exists and how we got here but some interesting and innovative ways that local governments are providing solutions More important than the chronicling of the impact of this social crisis it demonstrates with pointed examples how the two systems intertwine with well intentioned judicial and treatment policies No matter how you view the issue of the mentally ill in prison the book demonstrates that the person left out of the discussion is the defendant offender patient Corrections Today

Mental Disability and the Death Penalty Michael L. Perlin, 2013-01-17 There is no question that the death penalty is disproportionately imposed in cases involving defendants with mental disabilities There is clear systemic bias at all stages of the prosecution and the sentencing process in determining who is competent to be executed in the assessment of mitigation evidence in the ways that counsel is assigned in the ways that jury determinations are often contaminated by stereotyped preconceptions of persons with mental disabilities in the ways that cynical expert testimony reflects a propensity on the part of some experts to purposely distort their testimony in order to achieve desired ends These questions are shockingly ignored at all levels of the criminal justice system and by society in general Here Michael Perlin explores the relationship between mental disabilities and the death penalty and explains why and how this state of affairs has come to be to explore why it is necessary to identify the factors that have contributed to this scandalous and shameful policy morass to highlight the series

of policy choices that need immediate remediation and to offer some suggestions that might meaningfully ameliorate the situation Using real cases to illustrate the ways in which the persons with mental disabilities are unable to receive fair treatment during death penalty trials he demonstrates the depth of the problem and the way it s been institutionalized so as to be an accepted part of our system He calls for a new approach and greater attention to the issues that have gone overlooked for so long Mental Health Research Institute Staff Publications University of Michigan.
