the book is to emphasize the major changes in the leadership responsibilities of directors of human resources in education
This purpose underscores the necessity for human resources directors to gain new knowledge and skills in order to assure
that the personnel concept is considered in all school district policy and administrative program decisions The primary
processes of the human resources function remain significant but the function s importance is continually increasing as new
and innovative changes and research findings are evidenced in education Personnel recruitment for example now
necessitates primary attention to re recruitment Innovation in mentoring activities now includes reverse mentoring peer
mentoring and group mentoring Metrics now loom important and necessary in program planning accountability and
assessment activities The knowledge and skills required for new innovations in personnel were not always available in the
program preparations of individuals who focused on preparation for general school administration This book serve to serve
