*International Competition for Resources* C. P. Andrews-Speed, 2008 April 2008 saw the publication of *International Competition for Resources the Role of Law the State and of Markets* an edited compilation of papers written for the 30th anniversary of the Centre for Energy Petroleum and Mineral Law and Policy      **Global Competition** David Gerber, 2012-01-26 A key factor in the emerging relationship between law and economic globalization is how global competition now shapes economies and societies Competition law is provided by those players that have sufficient power to apply their laws transnationally This book examines this important and controversial aspect of globalization      *Strategies in Global Competition (RLE International Business)* Neil Hood, Jan-Erik Vahlne, 2013-01-04 The main thrust of Part 1 is to give some understanding of the concept of global competition In doing so the chapters rely heavily on industrial studies Part 2 deals with two different aspects of this change viewed from two different perspectives The one is economic and more macro the other political and social and more micro being concerned with the way in which companies have to utilize their various organisational units and integrate information on a fragmented environment into a strategic whole Part 3 deals specifically with technology as the particular segment of the environment which often has the largest impact on future strategies In Part 4 the perspective of global competition is applied at industry country and company levels and it is shown that this perspective adds new dimensions to old problems The final parts address the problem of management in global competition

Global Competition United States. President's Commission on Industrial Competitiveness, 1985      **New Era of Global Competition** Daniel Drache, Meric S. Gertler, 1991-04-01 The contributors first analyse recent public sector initiatives that have altered the Canadian economy and transformed Canadian society These include monetarist macroeconomic policies a trade deal with the United States and the increasing use of the Charter of Rights and Freedoms to make regulatory decisions The contributors then analyse the consequences of these changes for some of Canada's key industries and for Canadian social policy noting the conservative agenda's effect on workers incomes work conditions social benefits and the role of the state in the economy The final chapters explore possible alternatives and the difficult but very real choices economic and social policy makers must make with respect to macroeconomic management employment industrial strategy and the environment The contributors to this volume are Isabella Bakker Duncan Cameron Stephen Clarkson Marjorie Cohen Robert Cox Arthur Donner Daniel Drache Colin Duncan Meric S Gertler John Holmes Jeanne Laux Rianne Mahon Michael Mandel Anthony Masi Jon Morris John Myles Paul Phillips Abraham Rotstein Frank Tester Bruce Wilkinson      **Global Competition or Convergence?** Jan Hornát, Lukáš Kindl, 2018-02-01 The dynamics of internal changes in China whether these changes impact its national economy or its political order and distribution of power have imminent influence on its relations with the rest of the world The important and perhaps less treated question vis vis China's rise is how and to what extent do internal changes in China affect its external behavior and thus its relations with the current world hegemon the United States In addition this publication asks what the clash of two politically culturally and economically different internal orders of the US and China will mean for their future interactions in the twenty first century The aim of this publication is not to measure and encompass the entirety of the posed question but rather to provide an incursion into this problem through two specific case studies one focusing on the interactions of two distinct political cultures and the other on the economic geopolitical and ideological interplay of the US and China on the African continent As will be demonstrated incompatible as the two regimes and their respective foreign policies may seem they will not necessarily predestine conflicts in mutual relations As America can well coexist with China even if it does not meet the Western standards of a liberal democracy so does the competition in Africa between these two major powers not have to amount to a zero sum game At the end of the day both countries might meet halfway in their respective political interactions      **Modern China and International Rules** Longyue Zhao, 2023-01-13 This book is the final study report of the key project of the National Social Science Foundation of China China and the Reconstruction and Innovation of International Rules in the New Era of Global Value Chain On the basis of a comprehensive analysis of the complex situation of international rule reconstruction and innovation in the new era of the global value chain this book makes an in depth and systematic analysis on six types of international rules namely official export credit rules international competition rules cross border e commerce and digital trade rules ISDS multilateral agreement on investment and international regulatory cooperation It also introduces the theories and practices of China's
