Language and Literacy Learning in Schools

Elaine R. Silliman, Louise C. Wilkinson, 2007-01-10 Accessible and user friendly this volume presents evidence based practices for integrating language and literacy knowledge to enhance children s learning in today s standards based classrooms While grounded in theory and research the book focuses on day to day concerns in instruction and intervention identifying models for effective collaboration among speech language pathologists general and special educators and reading specialists Chapters cover a range of approaches for targeting core areas of literacy word recognition reading comprehension writing and spelling with particular attention to working with students with language learning difficulties When Students Do Not Feel Motivated for Literacy Learning Penny Oldfather, 1994 *Language, Literacy, and Learning in Educational Practice* Barry Stierer, Janet Maybin, 1994 Language and literacy are highly contested areas of the curriculum Questions of what should be taught how it should be taught and who should control such decisions are increasingly subjected to public scrutiny debate and challenge in a manner which is often more reflection of competing social and political values than of theory and research evidence In recent years there has been a rapid development of new conceptual frameworks for understanding language literacy and learning from such diverse fields as anthropology cultural studies social psychology and critical linguistics The papers in this collection have been chosen because they will help readers to consider ways in which these new developments in theory and research may be applied to everyday practice BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Proceedings of the 6th Sriwijaya University Learning and Education International Conference 2024 (SULE-IC 2024) Meilinda Meilinda, Evelina Astra Patriot, Rudi Hermawan, Meryansumayeka Meryansumayeka, Septy Sari Yukans, Romi Fajar Tanjung, Muhammad Yazir, Hesti Wahyuni Anggraini, Windi Dwi Andika, Dian Eka Amrina, Muhammad Akbar Budiman, Dea Alvionita Azka, 2025-06-14 This is an open access book Welcome to the Fifth Sriwijaya University Learning and Education International Conference 2024 SULE IC 2024 This year the theme of the conference is Reimagining and Redesigning Learning Toward Equitable Education The theme of the conference reflects the redesigning of learning for all students in the post pandemic period in order to overcome learning loss during the pandemic The theme also made possible the exchange of information knowledge experience and view for improving the quality of learning and research in the world especially in Indonesia **Literacy, Gender, and Work** Judith W. Solsken, 1993-01-01 This is the first in depth study of gender issues in early literacy learning It provides vivid portraits of the difficulties that both boys and girls experience in learning to read and write at home and in classrooms due to gendered divisions of labor in families and schools The portraits are based on data from a three year ethnographic study in which learning biographies were constructed for thirteen children from their entry into kindergarten until the completion of second grade The biographies show that in learning to read and write children construct gendered identities and negotiate their social relations with parents siblings teachers and peers Even in supportive families and progressive classrooms children face difficulties in literacy learning as a result of family and classroom practices organizing literacy on the dimensions of male female and work

play The result is often the unwitting perpetuation of traditional gender roles in families schools and the larger society This account of early literacy learning links the personal and social meaning of literacy in children s everyday lives with the larger cultural and political significance of gender The theoretical arguments and questions raised in the book challenge prevailing psychological and sociocultural models of literacy learning and set the agenda for future research on literacy and gender

Literacy Goes to School Jo Weinberger,1996-02-28 Very accessible not too technical or jargon ridden The practical suggestions were useful too if professionals feel inspired to promote change in their practice and policy it is helpful to have suggestions on where to start and what to do Management in Education Few primary teachers have a chance to find out in detail what children have already learnt and continue to learn about literacy at home with their parents This book gives a clear demonstration of literacy learning that takes place at home and how it differs from as well as relates to literacy at school It will help teachers to increase their understanding of this process and to build on their relationship with parents Such understanding the book shows can directly enhance children s literacy performance in school
