Disco began as a gay black and brown underground New York City party music scene which alone was enough to ward off most rockers The difference between rock and disco was as sociological as it was aesthetic At its best disco was galvanizing and affirmative Its hypnotic power to uplift a broad spectrum of the populace made it the ubiquitous music of the late 70s Disco was a primal and gaudy fanfare for the apocalypse a rage for exhibitionism free of moralizing Disco was an exclamatory musical passageway into the future 1978 was the apex of the record industry Rock music commercially and artistically had never been more successful At the same time disco was responsible for roughly 40% of the records on Billboard's Hot 100 thanks to the largest selling soundtrack of all time in Saturday Night Fever The craze for this music by The Bee Gees revived The Hustle and dance studios across America For all its apparent excesses and ritual zealotry disco was a conservative realm with obsolete rules like formal dress code and dance floor etiquette When most 70s artists went disco it was the relatively few daring rockers who had the most impact bringing their intensity and personality to a faceless phenomenon Rock stars who went disco crossed a musical rubicon and forever smashed cultural conformity The ongoing dance rock phenomenon demonstrates the impact of this unique place and time The disco crossover forever changed rock      **Billboard** ,1977-12-24
