Radical Democracy

Bruno Bosteels

Radical Democracy:

Radical Democracy Lars Tønder, Lasse Thomassen, 2005 The contributors here discuss the theoretical and practical implications of the two dominant approaches to radical democracy theories of abundance inspired by Gilles Deleuze and theories of lack inspired by Jacques Lacan They examine the idea of radical democracy from a wide variety of perspectives identity difference the public sphere social movements nature popular culture right wing populism and political economy In addition the volume relates the work of contemporary thinkers such as Deleuze Lacan Derrida and Foucault to classical thinkers such as Spinoza Hegel Marx and Nietzsche

Politics of Radical Democracy Adrian Little, 2019-08-05 This book addresses the idea of radical democracy one of the most vibrant currents in contemporary political thought in poststructuralist terms

Radical Democracy David Trend, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company

Encyclopedia of Critical Political Science Clyde W. Barrow, 2024-03-14 An indispensable and exemplary reference work this Encyclopedia adeptly navigates the multidisciplinary field of critical political science providing a comprehensive overview of the methods approaches concepts scholars and journals that have come to influence the discipline s development over the last six decades

Umbr(a): Polemos , The History of Continental Philosophy Alan D. Schrift, 2013-04-12 From Kant to Kierkegaard from Hegel to Heidegger continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century Although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition The most comprehensive reference work to date this eight volume History of Continental Philosophy will both encapsulate the subject and reorient our understanding of it Beginning with an overview of Kant s philosophy and its initial reception the History traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism The final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind A History of Continental Philosophy has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers texts and movements in rigorous yet jargon free essays suitable for both undergraduates and seasoned specialists These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy surveying the distinctive sometimes overlapping characteristics and approaches of each tradition Featuring helpful overviews of major topics and plotting road maps to their underlying contexts A History of Continental Philosophy is destined to be the resource of first and last resort for students and scholars alike

Human Rights on Trial Justine Lacroix, Jean-Yves Pranchère, 2018-05-31 The first contemporary overview of the critiques of human rights in Western political thought from the French Revolution to the present day

More than Don't Let 'em Win

DC Vesser,2020-01-21 This book attacks a poison that for so very long we have called political correctness Political correctness PC is the act of avoiding expression or language that can perceptively be construed as marginalizing by specific minorities or demographic groups It is often difficult to argue against PC because supporters of PC are likely to claim that contrary to using PC one would instead use expressions or language that offends which is oft what I wind up doing This response is a false conflation of permitting and condoning but the fallaciousness usually doesn't deter those who want to win the argument It's easy to accuse someone of simply seeking justification to use epithets in order to put him on the defensive and into the unenviable position of having to assert that he's not a racist It's also dirty and hateful to do so and that's how such responses should be considered We also review Agenda 21 Document 7277 the Illuminati the Club of Rome and the Committee of 300 in brevity We discuss the New World Order and speculate about megaregions and their locations both in the United States and abroad We take a very long train ride from the most southern tip of South America all the way to New Zealand and we discuss possibilities for a likely location for the capital of the world that may surprise you We even speculate about a location right here in the United States for a habitat for useless eaters We discuss how close we have come in our society to achieve all the goals of the New World Order I really hope you enjoy the read **Encyclopedia of Political**

Theory Mark Bevir,2010-03-18 How do we arrange our collective affairs Why do we live together in the ways we do How ought we to live together All humans think about the world they live in its history and future and the ideals by which they want to live in relation to others How we think today decisively influences the world of tomorrow This encyclopedia attempts to bring greater clarity and understanding to political debate Drawing together a team of international scholars the Encyclopedia of Political Theory examines the ideas of the major political theorists from before Plato to our own times the main schools of political thought the concepts and issues that have captured the imagination and attention of political theorists and some of the main institutions and practices inspired by political thought With more than 450 entries these three volumes provide a quick one stop source to key topics in the field Key Features Examines the global landscape of all the key theories and the theorists behind them Includes specific lists of entries that deal with constitutional thought and democratic thought Refers to distinctive norms and features of various governments legal systems and societies Devotes large parts to the history of ideas about government ethics and society Provides a chronology of political theory to help readers see how a given theorist school or issue fits into the bigger historical picture Key Themes Ancient Thought Applied Ethics Biographies Comparative Theory Constitutional Thought Critical Theory Democratic Thought Early Modern Thought International Theory Justice Liberal Theory Medieval Thought Modern Theory Power and Authority Religious Thought Self and Community This work is designed to serve as a reference source for anyone interested in the roots of contemporary political theory It will be a welcome addition to any academic or public library *Inhabiting the Earth* Martin Locret-Collet,Simon Springer,Jennifer

Mateer,Maleea Acker,2021-10-25 Over the last several decades scholars and practitioners have progressively acknowledged

that we cannot consider cities as the place where nature stops anymore resulting in urban environments being increasingly appreciated and theorized as hybrids between nature and culture entities made of socio ecological processes in constant transformation Spanning the fields of political ecology environmental studies and sociology this new direction in urban theory emerged in concert with global concern for sustainability and environmental justice This volume explores the notion that connecting with nature holds the key to a more progressive and liberatory politics Handbook of Citizenship Studies Engin F Isin, Bryan S Turner, 2002-08-16 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women s rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include *Being Political* Genealogies of Citizenship Minnesota 2002 and with P K Wood *Citizenship and Identity* Sage 1999 He is the Managing Editor of *Citizenship Studies* Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in *Citizenship and Capitalism* Unwin Hyman 1986 and *Citizenship and Social Theory* Sage 1993 He is also the author of *The Body and Society* Sage 1996 and *Classical Sociology* Sage 1999 and has been editor of *Citizenship Studies* since 1997 *Contemporary Democratic Theory* Simone Chambers, 2023-10-06 Is democracy worth saving Responding to the erosion of democracy philosophical debates have pivoted from analyzing the best forms of democracy to questioning what is so valuable about democracy to begin with how we can save it and whether it is indeed worth saving *Contemporary Democratic Theory* charts this pivot and surveys the most important new developments in the philosophical theoretical and normative examination of the concept of democracy Comparisons that dominated 20th century democratic theory between direct democracy participatory democracy deliberative democracy and agonistic democracy are in the 21st century giving way to comparisons

between democracy and its challengers epistocracy technocracy meritocracy oligarchy and autocracy Philosophical interest in the canonical figures of democratic theory like Aristotle Rousseau and Mill is being eclipsed by damage control in the face of populism sinking trust in democratic institutions failing political parties and the spread of misinformation Overarching epochal forces of crisis and threat are pushing democratic theory in new directions and towards new ideas This refreshing and authoritative text identifies explains and evaluates the new directions taken by contemporary democratic theory in challenging times

The Oxford Handbook of International Political Theory Chris Brown, Robyn Eckersley, 2018 The essential volume for all those working on International Political Theory and related areas

After Poststructuralism Rosi Braidotti, 2014-09-11 The end of the Cold War revitalised continental philosophy and more particularly interest in it from outside philosophy *After Poststructuralism* Transitions and Transformations analyses the main developments in continental philosophy between 1980 1995 a time of great upheaval and profound social change The volume ranges across the birth of postmodernism the differing traditions of France Germany and Italy third generation critical theory radical democracy postcolonial philosophy the turn to ethics feminist philosophies the increasing engagement with religion and the rise of performativity and post analytic philosophy Analyses of the major figures are integrated within the discussion *After Poststructuralism* reveals how continental philosophy fuelled by an intense ethical and political desire to reflect changing social and political conditions responded to the changing world and to the key issues of the time notably globalisation technology and ethnicity

A Geographical Guide to the Real and the Good Robert David Sack, 2003 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company

[A New Companion to Herman Melville](#) Wyn Kelley, Christopher Ohge, 2022-08-29 Discover a fascinating new set of perspectives on the life and work of Herman Melville *A New Companion to Herman Melville* delivers an insightful examination of Melville for the twenty first century Building on the success of the first Blackwell Companion to Herman Melville and offering a variety of tools for reading writing and teaching Melville and other authors this New Companion offers critical technological and aesthetic practices that can be employed to read Melville in exciting and revelatory ways Editors Wyn Kelley and Christopher Ohge create a framework that reflects a pluralistic model for humanities teaching and research In doing so the contributing authors highlight the ways in which Melville himself was concerned with the utility of tools within fluid circuits of meaning and how those ideas are embodied enacted and mediated In addition to considering critical theories of race gender sexuality religion transatlantic and hemispheric studies digital humanities book history neurodiversity and new biography and reception studies this book offers A thorough introduction to the life of Melville as well as the twentieth and twenty first century revivals of his work Comprehensive explorations of Melville s works including *Moby Dick* *Pierre* *Piazza Tales* and *Israel Potter* as well as his poems and poetic masterpiece *Clarel* Practical discussions of material books print culture and digital technologies as applied to Melville In depth examinations of Melville s treatment of the natural world Two symposium sections with concise

reflections on art and adaptation and on teaching and public engagement A New Companion to Herman Melville provides essential reading for scholars and students ranging from undergraduate and graduate students to more advanced scholars and specialists in the field Badiou and Politics Bruno Bosteels, 2011-08-10 Examines the political thinking of French

philosopher of Alain Badiou whose theories of ontology and mathematics have set him apart from many of his post structuralist contemporaries **Witnessing Peace** Janna L. Hunter-Bowman, 2022-07-21 This book rooted in the disciplines of theology and peace studies reflects with and on war affected communities in Colombia about transitioning from violence to peace It argues that much that is significant for peace building in situations of war escapes the notice of governments human rights organizations and academics because it is accomplished through a kind of agency they do not recognize This book names that agency as constructive agency under duress and demonstrates its significance for peacebuilding by reflecting on a form that the author has seen operating in Colombia over nearly two decades **Politics and the Concept of the**

Political James Wiley, 2016-05-26 A recent trend in contemporary western political theory is to criticize it for implicitly trying to conquer displace or moralize politics James Wiley s book takes the next step from criticizing contemporary political theory to showing what a more politics centered political theory would look like by exploring the meaning and value of politics in the writings of Max Weber Carl Schmitt Paul Ricoeur Hannah Arendt Sheldon Wolin Claude Lefort and Ernesto Laclau and Chantal Mouffe These political theorists all use the concept of the political to explain the value of politics and defend it from its detractors They represent state centered republic centered and society centered conceptions of politics as well as realist authoritarian idealist republican populist and radical democratic traditions of political thought This book compares these theorists and traditions of the political in order to defend politics from its critics and to contribute to the development of a politics centered political theory Politics and the Concept of the Political will be a useful resource to general audiences as well as to specialists in political theory **Being and Freedom** John Skorupski, 2021 Being and Freedom is a panoramic

account of ethics in Europe from the French Revolution to the end of the nineteenth century John Skorupski explores the interaction of philosophical ideas with social influences across Europe during this period including Kantian ethics Hegel s holism and the British utilitarian tradition
