Radical Militant Youth A Psychoanalyti:

Radical and Militant Youth Robert S. Liebert, 1971 **Sixties Radicalism and Social Movement Activism** Bryn Jones, Mike O'Donnell, 2012-10 This book's four main aims are to examine firstly why movements happened in the socio historical context of sixties radicalism secondly its distinctive legacy of crucial cultural societal and political interconnections thirdly continuing links between seminal ideas and movements and socio political activism today fourthly little discussed national instances and divergent impacts of sixties radicalism in relation to contemporary global social movements A conclusion traces all these dimensions from current social movements back to sixties radicalism's pioneering upheavals

The Quest for a Radical Profession David Wagner, 1990 This book based on in depth interviews of radical social workers who at one time were associated with the Catalyst collective explores through oral history the social psychological effects of upward mobility on political ideology **Nuclear Fear** Spencer R. WEART, Spencer R Weart, 2009-06-30 Our thinking is inhabited by images images of sometimes curious and overwhelming power The mushroom cloud weird rays that can transform the flesh the twilight world following a nuclear war the white city of the future the brilliant but mad scientist who plots to destroy the world all these images and more relate to nuclear energy but that is not their only common bond Decades before the first atom bomb exploded a web of symbols with surprising linkages was fully formed in the public mind The strange kinship of these symbols can be traced back not only to medieval symbolism but still deeper into experiences common to all of us This is a disturbing book it shows that much of what we believe about nuclear energy is not based on facts but on a complex tangle of imagery suffused with emotions and rooted in the distant past Nuclear Fear is the first work to explore all the symbolism attached to nuclear bombs and to civilian nuclear energy as well employing the powerful tools of history as well as findings from psychology sociology and even anthropology The story runs from the turn of the century to the present day following the scientists and journalists the filmmakers and novelists the officials and politicians of many nations who shaped the way people think about nuclear devices The author a historian who also holds a Ph D in physics has been able to separate genuine scientific knowledge about nuclear energy and radiation from the luxuriant mythology that obscures them In revealing the history of nuclear imagery Weart conveys the hopeful message that once we understand how this imagery has secretly influenced history and our own thinking we can move on to a clearer view of the choices that confront our civilization Table of Contents Preface Part One Years of Fantasy 1902 1938 1 Radioactive Hopes White Cities of the Future Missionaries for Science The Meaning of Transmutation 2 Radioactive Fears Scientific Doomsdays The Dangerous Scientist Scientists and Weapons Debating the Scientist's Role 3 Radium Elixir or Poison The Elixir of Life Rays of Life Death Rays Radium as Medicine and Poison 4 The Secret the Master and the Monster Smashing Atoms The Fearful Master Monsters and Victims Real Scientists The Situation before Fission Part Two Confronting Reality 1939 1952 5 Where Earth and Heaven Meet Imaginary Bomb Reactors Real Reactors and Safety Questions Planned Massacres The Second Coming 6

Harlem vs. Columbia University Stefan M. Bradley, 2010-10-01 In 1968 69 Columbia University became the site for a collision of American social movements Black Power student power antiwar New Left and Civil Rights

movements all clashed with local and state politics when an alliance of black students and residents of Harlem and Morningside Heights openly protested the school's ill conceived plan to build a large private gymnasium in the small green park that separates the elite university from Harlem. Railing against the university's expansion policy, protesters occupied administration buildings and met violent opposition from both fellow students and the police. In this dynamic book, Stefan M. Bradley describes the impact of Black Power ideology on the Students Afro American Society (SAS) at Columbia. While white students led by Mark Rudd and Students for a Democratic Society (SDS) sought to radicalize the student body and restructure the university, black students focused on stopping the construction of the gym in Morningside Park. Through separate militant action, black students and the black community stood up to the power of an Ivy League institution and stopped it from trampling over its relatively poor and powerless neighbors. Comparing the events at Columbia with similar events at Harvard, Cornell, Yale, and the University of Pennsylvania, Bradley locates this dramatic story within the context of the Black Power movement and the heightened youth activism of the 1960s. Harnessing the Civil Rights movement's spirit of civil disobedience and the Black Power movement's rhetoric and methodology, African American students were able to establish an identity for themselves on campus while representing the surrounding black community of Harlem. In doing so, Columbia's black students influenced their white peers on campus, reenergized the community's protest efforts, and eventually forced the university to share its power.

Rethinking Therapeutic Culture Timothy Aubry, Trysh Travis, 2015-06-05

Social critics have long lamented America's descent into a culture of narcissism as Christopher Lasch so lastingly put it fifty years ago. From first world problems to political correctness, from the Oprahfication of emotional discourse to the development of Big Pharma products for every real and imagined pathology, therapeutic culture gets the blame. Ask not where the stereotype of feckless, overmedicated, half-paralyzed millennials comes from; for it comes from their parents' therapist's couches. *Rethinking Therapeutic Culture* makes a powerful case that we've got it all wrong. Editors Timothy Aubry and Trysh Travis bring us a dazzling array of contributors and perspectives to challenge the prevailing view of therapeutic culture as a destructive force that encourages narcissism, insecurity, and social isolation. The collection encourages us to examine what legitimate needs therapeutic practices have served and what unexpected political and social functions they may have performed. Offering both an extended history and a series of critical interventions organized around keywords like pain, privacy, and narcissism, this volume offers a more nuanced, empirically grounded picture of therapeutic culture than the one popularized by critics. *Rethinking Therapeutic Culture* is a timely book that will change the way we've been taught to see the landscape of therapy and self-help.

Psyche and Society Robert Endelman, 1981

Available for the first time in English, this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities. The large-scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention.

in 1991 when three Korean women filed suit in a Toyko District Court stating that they had been forced into sexual servitude and demanding compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi s investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2 000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers Countercultures J. Milton Yinger,1984-04 In this important study Yinger successfully demonstrates his central point countercultures are best understood as a continuous part of human experience and social organization Library Journal

The Broken Connection Robert Jay Lifton,1996 The unique human awareness of our own mortality enables us to ensure our perpetuation beyond death through our impact on others This continuity of life has been profoundly shaken by the advent of wars of mass destruction genocide and the ever present threat of nuclear annihilation In *The Broken Connection* Robert Jay Lifton one of America s foremost thinkers and preeminent psychiatrists explores the inescapable connections between death and life the psychiatric disorders that arise from these connections and the advent of the nuclear age which has jeopardized any attempts to ensure the perpetuation of the self beyond death *Him/Her/Self* Peter G. Filene,1998 Peter Filene s path breaking study did both Elaine Tyler May from the Foreword The Nuclear Revolution Michael Mandelbaum,1981-04-30 How have nuclear weapons affected the way countries deal with one another *The Nuclear Revolution* answers this question by comparing the nuclear age with previous periods of international history from the fifth century B C to the twentieth century *The Nuclear Revolution* offers insightful and provocative perspectives on the Soviet American nuclear arms race comparing it with the Anglo German naval rivalry before World War I and with modern tariff competitions The work also compares the advent of nuclear weapons with the two other modern revolutions in warfare Napoleon s military innovations and the industrial warfare of World War I It assesses the impact of nuclear armaments on the balance of power alliances and the behaviour of national leaders Also included is an analysis of the differences between nuclear weapons and chemical and biological weapons of mass destruction The concluding chapter bringing together ideas from history religion and psychology explores the effects that the threat of nuclear annihilation has on everyday life The

Americanization of Narcissism Elizabeth Lunbeck, 2014-03-10 American social critics in the 1970s seized on narcissism as the sickness of the age But they missed the psychoanalytic breakthrough that championed it as the wellspring of ambition creativity and empathy Elizabeth Lunbeck's history opens a new view on the central questions faced by the self struggling amid the crosscurrents of modernity

Madness Is Civilization Michael E. Staub, 2011-08-15 In the 1960s and 1970s a popular diagnosis for America's problems was that society was becoming a madhouse In this intellectual and cultural history Michael E Staub examines a time when many believed insanity was a sane reaction to obscene social conditions psychiatrists were agents of repression asylums were gulags for society's undesirables and mental illness was a concept with no medical basis *Madness Is Civilization* explores the general consensus that societal ills from dysfunctional marriage and family dynamics to the Vietnam War racism and sexism were at the root of mental illness Staub chronicles the surge in influence of socially attuned psychodynamic theories along with the rise of radical therapy and psychiatric survivors movements He shows how the theories of antipsychiatry held unprecedented sway over an enormous range of medical social and political debates until a bruising backlash against these theories part of the reaction to the perceived excesses and self absorptions of the 1960s effectively distorted them into caricatures Throughout Staub reveals that at stake in these debates of psychiatry and politics was nothing less than how to think about the institution of the family the nature of the self and the prospects for and limits of social change The first study to describe how social diagnostic thinking emerged *Madness Is Civilization* casts new light on the politics of the postwar era

Burnout Hannah Proctor, 2024-04-09 In the struggle for a better world setbacks are inevitable Defeat can feel overwhelming at times but it has to be endured How then do the people on the front line keep going To answer that question Hannah Proctor draws on historical resources to find out how revolutionaries and activists of the past kept a grip on hope *Burnout* considers despairing former Communards exiled to a penal colony in the South Pacific exhausted Bolsheviks recuperating in sanatoria in the aftermath of the October Revolution an ex militant on the analyst's couch relating dreams of ruined landscapes Chinese peasants engaging in self criticism sessions a political organiser seeking advice from a spiritual healer civil rights movement activists battling weariness and a group of feminists padding a room with mattresses to scream about the patriarchy Jettisoning self help narratives and individualizing therapy talk Proctor offers a different way forward neither denial nor despair Her cogent exploration of the ways militants have made sense of their own burnout demonstrates that it is possible to mourn and organise at once and to do both without compromise
