central problem of US broadcasting history Rather than ponder what might have been authors Joy Hayes and David Goodman look at what did happen There was in fact a great deal of government involvement in broadcasting in the US before 1945 at local state and federal levels Among the federal agencies on the air were the Department of Agriculture the National Park Service the Works Progress Administration WPA and the Federal Theatre Project Contextualizing the different series aired by the Educational Radio Project as part of a unified project about radio and citizenship is crucial to understanding them New Deal Radio argues that this distinctive government commercial partnership amounted to a critical intervention in US broadcasting and an important chapter in the evolution of public radio in America
