

A vibrant promotional illustration for the Transformers: RAGEBATTLE line. The scene is set against a dark, starry night sky with a cityscape silhouette. In the background, a large, purple Decepticon Megatron looms. In the foreground, several Autobots are posed dynamically. Optimus Prime, in his signature red and blue, is at the bottom center, looking forward. To his left is a blue and white Autobot, and to his right is a yellow and green Autobot. Above them, a blue and purple Autobot is shown in a more aggressive pose. The overall color palette is dominated by the primary colors of the Transformers franchise, with bright highlights and shadows that give the characters a three-dimensional appearance.

This volume offers newly translated texts that exemplify the two most important traditions of Arthurian literature in the Middle Ages Encompassing such key works such as Lawman s Brut and Wace s Romance of Brut written in Middle English and Old French respectively the Arthurian Epic Tradition depends on Geoffrey of Monmouth s History of the Kings of Britain written in Latin Many modern readers are more familiar with Arthur and his fabled court as the centerpiece of a massive fictional tradition well represented in the second part of this volume including Chretien de Troyes s Story of the Grail The Quest of the Holy Grail and the Perlesvaus These selections emphasize the connection between secular and religious understandings of chivalry that is the most distinctive quality of medieval Arthurian romance Useful as a classroom text the volume provides material for a semester s worth of study Instructors considering this book for use in a course may request an examination copy here
