Ivone Margulies

Retracing Reality:

Retracing Reality Marie-Dominique Philippe, 1999 This text is a response to Socrates invitation to know thyself The journey moves from immediate experience to the discovery of first being with the human person as the central figure of enquiry in order to discover the purpose of human life

Are You in Reality? Gregoire Plus, 2010-01-14 ARE YOU IN REALITY The quest for wisdom or man s search for what reality is in his experiences comes from man s astonishment in front of all that exist When we see something we are lucid that we do not know the whole that which is the most profound is so hidden from our eyes that we easily prefer believing our own ideas to searching to unveil what the reality is Rather than to be toward something we have not made and that escapes us we prefer to remain in the ideas we construct or to contemplate our own image We need to seek if we Are truly living in reality or if we remain in our ideas as the only full discovery of reality as it is can be a path to wisdom and allow us to blossom Written from a series of seminars Are You in Reality is the author s contribution coming from his own experiences to the research of wisdom understood as man s search for truth This search for wisdom rightly called philosophy is a quest without any preconceived ideas an insatiable desire for light which can ultimately enlighten man about every aspect of his existence It must be capable of meeting each man in his experiences in his quest and in his own journey Therefore philosophy is neither Christian nor Buddhist neither European nor American neither African nor Asian It is human and intelligent in the sense that it takes its truth from no other source than that of the real that we encounter and of those who place themselves at its school

In Person Ivone Margulies, 2019 In Person Reenactment in Postwar and Contemporary Cinema delineates a new performative genre based on replay and self awareness The book argues that in person reenactment an actual person reenacting her past on camera departs radically from other modes of mimetic reconstruction In Person theorizes this figure s protean temporality and revisionist capabilities and it considers its import in terms of social representativity and exemplarity Close readings of select historicized examples define an alternate confessional performative vein to understand the self reflexive nature of postwar and post holocaust testimonial cinemas The book contextualizes Zavattini s proposal that in neorealism everyone should act his own story in a sort of anti individualist public display Love in the City and We the Women It checks the convergence between verit experiments a heightened self critique in France and the reception of psychodrama in France Chronicle of a summer and The Human Pyramid in the late fifties And through Bazin it reflects on the quandaries of celebrity biopics how the circularity of the star s iconography is checked by her corporeal limits Sophia her Own Story and the docudrama Torero In Person traces a shift from the exemplary and transformative ethos of fifties reenactment towards the un redemptive stance of contemporary reenactment films such as Lanzmann s Shoah Zhang Yuan s Sons Andrea Tonacci s Hills of Chaos It defines continuities between verite testimony Chronicle and Moi un Noir and later para juridical films such as the Karski Report and Rithy Panh s S21 the Khmer Rouge Killing Machine suggesting the power of co presence and in person actualization for an ethics of viewership

Bauer's observations and reflections on Third World economies over a period of thirty years He critically examines the central issues of market versus centrally planned economies industrial development official direct and multinational resource transfers to the Third World immigration policy in the Third World and economic methodology In addition he has written a fascinating account of recent papal doctrine on income inequality and redistribution in the Third World The major themes that emerge are the importance of non economic variables particularly people's aptitudes and mores to economic growth the unfortunate results of some current methods of economics the subtle but important effects of the exchange economy on development and the politicization of economic life in the Third World As in Bauer's previous writings this book is marked by elegant prose apt examples a broad economic historical perspective and the masterful use of informal reasoning
